Target Nation Canada And The Western Intelligence Network:

Target Nation James Littleton, 1986 Security and Intelligence in a Changing World A. Stuart Farson, David Stafford, Wesley K. Wark, 2021-01-26 This book first published in 1991 examines the changes to security and intelligence agencies envisioned in the uncertain world at the end of the Cold War While the central focus is on the Canadian Security Intelligence Service its history function and future there are also comparative studies of the British Soviet American and Australian systems Plateaus of Freedom Mark Kristmanson, 2003-12-15 Canadians are not accustomed to thinking of censorship secret intelligence and propaganda as a single entity Much less do they consider that these covertly militaristic activities have anything to do with culture So writes Mark Kristmanson in this important study of the intertwining activities and careers of those involved in Canada's security agencies and in the state sanctioned culture industry during the height of the Cold War The connections between secret intelligence and culture might appear to be merely coincidental Both the spies and the arts people worked with words with symbols and hidden meanings with ideas They had regular informal luncheons together in Ottawa Some members of the intelligence community even found careers in the arts Less than a decade after defecting the Russian Igor Gouzenko wrote a pulp fiction Cold War spy novel for which he received a Governor General's award And Peter Dwyer Britain's top security official in North America during World War II was a playwright who after the war worked in Canada's intelligence community before drafting the founding for the Canada Council and becoming its first director But Plateaus of Freedom details much more than a casual relationship between security and the arts As Kristmanson demonstrates the censorship intelligence propaganda complex that proliferated in Canada after World War II played a counterpoint between national culture and state security with the result that freedom especially intellectual freedom plateaued on the principle of nationality The security and cultural policy measures examined here from the RCMP investigations at the National Film Board that led to numerous firings to the harassment of the extraordinary African American singer and Soviet sympathizer Paul Robeson attest to the fragility and the enduring power of art to effect social change Gaullist Attack on Canada, 1967-1997 J. F. Boshier, 1999 Drawing on the writings of leading Gaullists and on analysis of France's actions in other former French colonies this veteran historian of France and New France contends that DeGaulle and his followers inflamed Quebec separatism as part of their agenda to resurrect France as a great power Canada is criticized for its failure to recognize or respond to this threat Includes a chronology of events from the May 1940 invasion of France by Germany Annotation copyrighted by Book News Inc Portland OR *Spying on Canadians* Gregory S. Kealey, 2017-01-01 Award winning author Gregory S Kealey's study of Canada's security and intelligence community before the end of World War II depicts a nation caught up in the Red Scare in the aftermath of the Bolshevik Revolution and tangled up with the imperial interests of first the United Kingdom and then the United States Spying on Canadians brings together over twenty five years of research and writing about political policing in Canada Through its use of the Dominion Police and

later the RCMP Canada repressed the labour movement and the political left in defense of capital The collection focuses on three themes the nineteenth century roots of political policing in Canada the development of a national security system in the twentieth century and the ongoing challenges associated with research in this area owing to state secrecy and the inadequacies of access to information legislation This timely collection alerts all Canadians to the need for the vigilant defence of civil liberties and human rights in the face of the ever increasing intrusion of the state into our private lives in the name of countersubversion and counterterrorism

Cautious Beginnings Kurt F. Jensen, 2009-01-01 Kurt F Jensen argues that Canada was a more active intelligence partner in the Second World War alliance than has previously been suggested He describes Canada's contributions to Allied intelligence before the war began as well as the distinctly Canadian activities that started from that point He reveals how the government created an intelligence organization during the war to aid Allied resources This is a convincing portrait of a nation with an active role in Second World War intelligence gathering one that continues to influence the architecture of its current capabilities

Whose National Security? Gary Kinsman, Dieter K. Buse, Mercedes Steedman, 2000-10-01 Would you believe that RCMP operatives used to spy on Tupperware parties In the 1950s and 60s they did They also monitored high school students gays and lesbians trade unionists left wing political groups feminists consumer's associations Black activists First Nations people and Quebec sovereigntists The establishment of a tenacious Canadian security state came as no accident On the contrary the highest levels of government and the police along with non governmental interests and institutions were involved in a concerted campaign The security state grouped ordinary Canadians into dozens of political stereotypes and labelled them as threats Whose National Security probes the security state's ideologies and hidden agendas and sheds light on threats to democracy that persist to the present day The contributors varied approaches open up avenues for reconceptualizing the nature of spying

Intelligence and International Security Len Scott, R. Gerald Hughes, Martin Alexander, 2013-10-31 The events of 9 11 and subsequent acts of jihadist terrorism together with the failures of intelligence agencies over Iraq's Weapons of Mass Destruction have arguably heralded a new age of intelligence For some this takes the form of a crisis of legitimacy For others the threat of cataclysmic terrorism involving chemical biological radiological or nuclear attack gives added poignancy to the academic contention that intelligence failure is inevitable Many of the challenges facing intelligence appear to be both new and deeply worrying In response intelligence has clearly taken on new forms and new agendas How these various developments are viewed depends upon the historical normative and political frameworks in which they are analysed This book addresses fundamental questions arising in this new age The central aim of the collection is to identify key issues and questions and subject them to interrogation from different methodological perspectives using internationally acclaimed experts in the field A key focus in the collection is on British and North American perspectives Recent trends and debates about the organisation and conduct of intelligence provide key themes for exploration Underpinning several contributions is the recognition that intelligence

faces a conflict of ideas as much as practices and threats This book was published as a special issue of Intelligence and National Security

The Dual State Eric Wilson, 2016-03-23 This volume presents a practical demonstration of the relevance of Carl Schmitt's thought to parapolitical studies arguing that his constitutional theory is the one best suited to investing the deep state with intellectual and doctrinal coherence Critiquing Schmitt's work from a variety of intellectual perspectives the chapters discuss current parapolitical reality within the domain of criminology the parapolitical nature of both the dual state and the national security state corporate complex Using the USA as a prime example of the world's current dual or deep political state the criminogenic dimensions of the parapolitical systems of post 9/11 America are discussed Using case studies the dual state is examined as the causal factor of inexplicable parapolitical events within both the developed and developing world including Sweden Canada Italy Turkey and Africa

Out of Darkness-Light Harold A. Skaarup, 2005-05-16 Intelligence is a key element of operations enabling commanders to successfully plan and conduct operations It enables them to win decisive battles and it helps them to identify and attack high value targets Intelligence is an important part of every military decision Military intelligence is the knowledge of a possible or actual enemy or area of operation It encompasses combat intelligence strategic intelligence and counterintelligence and is essential to the preparation and execution of military policies plans and operations The objective of military intelligence is to minimize the uncertainties of the affects of enemy weather and terrain on operations The decisive factor in warfare has often been the utilization of good intelligence A glimpse of how this has been done in the Canadian Forces is contained in this reference book on the Intelligence Branch history

Cold Terror Stewart Bell, 2008-02-28 We believe Al Qaeda continues to have a terrorist infrastructure in Canada one with documented links to the U S While many border security measures have been implemented since 9/11 the vast expanse of the 4 000 mile long U S northern border with eighty six points of entry and various unofficial crossings may still provide opportunities for operatives to penetrate U S national security particularly if Western passports are used The FBI in a classified bulletin Cold Terror will shock the conscience of a nation In terrifying detail it shows how the world's terrorists have made themselves at home in Canada and how they have been made welcome by cowardly politicians David Frum Resident Fellow at the American Enterprise Institute and author of with Richard Perle An End to Evil What's Next in the War on Terror Stewart Bell's clarion call for action needs to be heeded before the ticking Canadian terrorist time bomb blows up closer to home If Canadian terrorists aren't stopped before they use weapons of mass destruction in the United States we'll have far bigger problems than keeping the border open for trade Patrick Grady The Globe and Mail

How the Cold War Began Amy Knight, 2007-08-24 On September 5 1945 cipher clerk Igor Gouzenko severed ties with the Soviet Embassy in Ottawa reporting to the Royal Canadian Mounted Police allegations of extensive Soviet espionage in North America providing stolen documents detailing Soviet intelligence matters to back his claims This action sent shockwaves through Washington London Moscow and Ottawa changing the course of the twentieth century Using

recently declassified FBI and Canadian RCMP files on the Gouzenko case author and Cold War scholar Amy Knight sheds new light on the FBI's efforts to incriminate Alger Hiss and Harry Dexter White in order to discredit the Truman Administration FBI chief J Edgar Hoover seized upon Gouzenko's defection as a means through which to demonize the Soviets distorting statements made by Gouzenko to stir up spy fever in the U S setting the McCarthy era into motion Through the FBI files and interviews with several key players Knight delves into Gouzenko's reasons for defecting and brilliantly connects these events to the strained relations between the Soviet Union and the West marking the beginning of the Cold War

Secret Service Reg Whitaker, Gregory S. Kealey, Andrew Parnaby, 2012-07-06 Secret Service provides the first comprehensive history of political policing in Canada from its beginnings in the mid nineteenth century through two world wars and the Cold War to the more recent war on terror This book reveals the extent focus and politics of government sponsored surveillance and intelligence gathering operations Drawing on previously classified government records the authors reveal that for over 150 years Canada has run spy operations largely hidden from public or parliamentary scrutiny complete with undercover agents secret sources agent provocateurs coded communications elaborate files and all the usual apparatus of deception and betrayal so familiar to fans of spy fiction As they argue what makes Canada unique among Western countries is its insistent focus of its surveillance inwards and usually against Canadian citizens Secret Service highlights the many tensions that arise when undercover police and their covert methods are deployed too freely in a liberal democratic society It will prove invaluable to readers attuned to contemporary debates about policing national security and civil rights in a post 9 11 world

Tug of War Jocelyn Wills, 2017-09-04 Selling Earth observation satellites on their abilities to predict and limit adverse environmental change politicians business leaders the media and technology enthusiasts have spent sixty years arguing that space exploration can create a more peaceful prosperous world Capitalist states have also socialized the risk and privatized the profits of the commercial space industry by convincing taxpayers to fund surveillance technologies as necessary components of sovereignty freedom and democracy Jocelyn Wills's Tug of War reminds us that colonizing the cosmos has not only accelerated the arms race but also encouraged government contractors to compete for the military and commercial spoils of surveillance Although Canadians prefer to celebrate their role as purveyors of peaceful space applications Canada has played a pivotal part in the expansion of neoliberal policies and surveillance networks that now encircle the globe primarily as a political ally of the United States and component supplier for its military industrial complex Tracing the forty five year history of Canada's largest space company MacDonald Dettwiler

and Associates MDA through the lens of surveillance studies and a trove of oral history transcripts government documents trade journals and other sources Wills places capitalism's imperial ambitions squarely at the centre of Canada US relations and the privatization of the Canadian political economy Tug of War confronts the mythic lure of technological progress and the ways in which those who profess little interest in war rationalize their leap into military contracting by avoiding the moral and political implications of their work

Warming Up to the Cold War Robert Teigrob, 2009-05-30 When U S President Harry Truman asked his allies for military support in the Korean War Canada's government led by Prime Minister Louis St Laurent was reluctant St Laurent's government was forced to change its position however when the Canadian populace conditioned to significant degrees by the powerful influence of American media and culture demanded a more vigorous response Warming up to the Cold War shows how American cultural influence helped to undermine waning Canadian nationalism Comparing Canadian and American responses to events such as the atomic bomb the Gouzenko Affair the creation of NATO and the Korean War Robert Teigrob traces the role that culture and public opinion played in shaping responses to international affairs With penetrating political and cultural insight he examines the Cold War consensus between the two countries to reveal the ways that Canada cited home grown rationales to justify its increasing subservience to American strategy and posturing Full of fascinating insights Warming up the Cold War is essential reading for anyone interested in the Cold War the role of culture in politics and the history of U S Canada relations *Fixing the Homeland Security Information Network* United States.
