*Tarot Psychology Book* Robert Wang, 2017-06-06 This illustrated companion to The Jungian Tarot deck applies Jungian principles of active imagination to the tarot archetypes providing a meditative and self explorative approach to tarot

**Tarot Psychology** Robert Wang, 1993-01-01     *Jung and Tarot* Sallie Nichols, 1980-06-01 Highly innovative work presenting a piercing interpretation of the tarot in terms of Jungian psychology Through analogy with the humanities mythology and the graphic arts the significance of the cards is related to personal growth and individuation The major arcana becomes a map of life and the hero's journey becomes something that each individual can relate to the symbolism of the cards and therefore to the personal life     **Tarot Psychology** ROBERT WANG, Yuan Wang, 2008-01     *The Jungian Tarot Deck* Robert Wang, 2017-06-06 Dr Robert Wang developed The Jungian Tarot as a visual gateway into the complexities of Jungian psychology to aid in the process of active imagination proposed by Carl Jung The 22 Major Arcana represent Jungian archetypes of the collective unconscious The figures are visually presented with archways and circular mandalas which aid in meditation The court cards depict family roles father mother daughter and son The deck is a companion to the Jungian Tarot Trilogy by Robert Wang     *Cinema and Psyche in Analytical Psychology* Joanna Dovalis, John Izod, 2025-04-15 Peering into the unconscious through cinema can give audiences an uncanny feeling about what lives in the beyond something alien to consciousness This book creates psychological interpretations of films that lend themselves to the depths and investigates the personal and cultural appeal of cinema as a powerful art form The selected films examined in this book circle around the process of individuation focussing on different aspects of intellectual and emotional life from a Jungian lens The first group of movies centres on three films following plotlines that extend beyond the norms of routine drama delving into alien territory The second group presents three more films that by comparison with the first can be seen as typical dramas that focus on motifs of relationships In the final chapter the authors reflect on their own individuation journeys and life experiences that have informed the productive nature of their work together This book will be of interest for therapists students and academics working in film studies looking to engage in psychological studies in depth as well as film goers who want to explore their relationship to the screen     Tarot and the Archetypal Journey Sallie Nichols, 2019 This highly innovative work presents a piercing interpretation of the tarot in terms of Jungian psychology Through analogies to the humanities mythology and the graphic arts the significance of the cards is related to personal growth and what Jung termed individuation The Major Arcana becomes a map of life and the hero's journey becomes something that each individual can relate to one's personal life Sallie Nichols in her profound investigation of the Tarot has performed an immense service Her book enriches and helps us to understand the awesome responsibilities laid upon consciousness She has done this not in an arid fashion but derived from her own experience of the Tarot and its strangely translucent lights As a result her book not only lives but quickens life in whomever it touches Laurens van der Post Replaces ISBN 978 0 87728 515 1     *The Jungian Tarot and Its*
