The Boat of a Million Years Poul Anderson, 2018-09-18 A New York Times Notable Book and Hugo and Nebula Award Finalist. This epic chronicle of ten immortals over the course of history succeeds admirably. The New York Times. The immortals are ten individuals born in antiquity from various cultures. Immune to disease, able to heal themselves from injuries, they will never die of old age, although they can fall victim to catastrophic wounds. They have walked among mortals for millennia, traveling across the world, trying to understand their special gifts while searching for one another in the hope of finding some meaning in a life that may go on forever. Following their individual stories over the course of human history and beyond into a richly imagined future, one of science fiction's most revered writers, USA Today, weaves a broad tapestry that is ambitious in scope, meticulous in detail, polished in style. Library Journal.
