Task Talk And Text In The Operating Room A Study In Medical Discourse:

Task, Talk and Text in the Operating Room Catherine Johnson Pettinari, 1988 Originally presented as the author's thesis Ph D University of Michigan 1985 under the title Medical action into surgical text **Task, Talk and Text in the Operating Room** Catherine Johnson Pettinari, 1988 Originally presented as the author's thesis Ph D University of Michigan 1985 under the title Medical action into surgical text *The Discourse of Hospital Communication* R. Iedema, 2007-02-06 Bringing together recent international research in the field of hospital communication and interaction the contributors to this book contextualize clinical professional work by focussing on the rising intensity of information and communication practices in organizations generally and in health care in particular *Advances in Medical Discourse Analysis* Maurizio Gotti, Françoise Salager-Meyer, 2006 The focus of this volume is on medical discourse a domain of language which deserves closer scrutiny by academics as well as practitioners due to its increasing relevance and pervasiveness in modern society Despite the wealth of publications dealing with specialized or academic discourse and its rhetoric few of these are devoted specifically to medical discourse This book seeks to redress the balance by bringing together a number of studies that bear witness to the widespread interest in medical texts shown by linguists and professional communities around the world The volume is divided into two main parts the first targets medical discourse in its spoken dimension while the second contains various analyses of written texts The theoretical perspectives and individual case studies presented here reflect the wide range of methodological approaches and theoretical issues that characterise current research in the field Talk, Work and Institutional Order Srikanth Sarangi, Celia Roberts, 2008-12-10 No detailed description available for Talk Work and Institutional Order *The Hidden Curriculum in Health Professional Education* Frederic W. Hafferty, Joseph F. O'Donnell, 2015-01-06 The hidden curriculum HC in health professional education comprises the organizational and institutional contexts and cultural subtexts that shape how and what students learn outside the formal and intended curriculum HC includes informal social processes such as role modeling informal conversations and interactions among faculty and students and more subterranean forces of organizational life such as the structure of power and privilege and the architectural layout of work environments For better and sometimes for worse HC functions as a powerful vehicle for learning and requires serious attention from health professions educators This volume of interest to medical and health professionals educators and students brings together twenty two new essays by experts in various aspects of HC An introduction and conclusion by the editors contextualizes the essays in the broader history and literature of the field *Dialogue and the Interpretation of Illness* Robert Pool, 2020-08-19 The etiology of the Wimbun people in the Western Grassfields of Cameroon is described through an examination of the way in which the meanings of key concepts used to interpret and explain illness and other forms of misfortune are continually being produced and reproduced in the praxis of everyday communication During the course of numerous dialogues witchcraft a highly ambivalent force gradually emerges as

the prime mover As destructive cannibals or respectable elders the witches are the ultimate cause of all significant illness misfortune and death and as diviners they are also the ultimate judges who apportion moral responsibility Even the ancestors and the traditional gods turn out to be fronts behind which the witches hide their activities The study is on three levels a medical anthropological exploration of explanations of illness and misfortune a detailed ethnography of traditional African cosmology and witchcraft and an examination of recent theoretical issues in anthropology such as the nature of ethnographic fieldwork and the possibility of dialogical or postmodern ethnography

Interpreting Medical Discourse Brad Davidson,1998 **Safer Surgery** Lucy Mitchell,Rhona Flin,2017-05-15 Operating theatres are very private workplaces There have been few research investigations into how highly trained doctors and nurses work together to achieve safe and efficient anaesthesia and surgery While there have been major advances in surgical and anaesthetic procedures there are still significant risks for patients during operations and adverse events are not unknown Due to rising concern about patient safety surgeons and anaesthetists have looked for ways of minimising adverse events Behavioural scientists have been encouraged by clinicians to bring research techniques used in other industries into the operating theatre in order to study the behaviour of surgeons nurses and anaesthetists Safer Surgery presents one of the first collections of studies designed to understand the factors influencing safe and efficient surgical anaesthetic and nursing practice The book is written by psychologists surgeons and anaesthetists whose contributions combine to offer readers the latest research techniques and findings from some of the leading investigators in this field It is designed for practitioners and researchers interested in understanding the behaviour of operating theatre team members with a view to enhancing both training and practice The material is also suitable for those studying behaviour in other areas of healthcare or in high risk

work settings The aims of the book are to a present the latest research on the behaviour of operating theatre teams b describe the techniques being used by psychologists and clinicians to study surgeons anaesthetists and theatre nurses task performance c outline the safety implications of the research to date

Enjoying the Song of Phrase: An Mental Symphony within **Task Talk And Text In The Operating Room A Study In Medical Discourse**

In a world eaten by screens and the ceaseless chatter of instant interaction, the melodic beauty and emotional symphony created by the prepared word frequently disappear in to the backdrop, eclipsed by the relentless noise and interruptions that permeate our lives. Nevertheless, set within the pages of **Task Talk And Text In The Operating Room A Study In Medical Discourse** an enchanting literary treasure full of organic emotions, lies an immersive symphony waiting to be embraced. Constructed by a masterful musician of language, this charming masterpiece conducts visitors on a psychological trip, well unraveling the concealed songs and profound impact resonating within each cautiously constructed phrase. Within the depths of the touching evaluation, we can discover the book is main harmonies, analyze their enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
