Taste of the Nation Camille Bégin, 2016-06-15 During the Depression the Federal Writers Project FWP dispatched scribes to sample the fare at group eating events like church dinners political barbecues and clambakes Its America Eats project sought nothing less than to sample and report upon the tremendous range of foods eaten across the United States Camille Bégin shapes a cultural and sensory history of New Deal era eating from the FWP archives From ravioli the diminutive derbies of pastries the crowns stuffed with a well seasoned paste to barbeque seasoning that integrated salt black pepper dried red chili powder garlic oregano cumin seed and cayenne pepper while tomatoes green chili peppers onions and olive oil made up the sauce Bégin describes in mouth watering detail how Americans tasted their food They did so in ways that varied and varied widely depending on race ethnicity class and region Bégin explores how likes and dislikes cravings and disgust operated within local sensory economies that she culls from the FWP s vivid descriptions visual cues culinary expectations recipes and accounts of restaurant meals She illustrates how nostalgia prescriptive gender ideals and racial stereotypes shaped how the FWP was able to frame regional food cultures as American

Slavery and the Culture of Taste Simon Gikandi, 2014-04-27 It would be easy to assume that in the eighteenth century slavery and the culture of taste the world of politeness manners and aesthetics existed as separate and unequal domains unrelated in the spheres of social life But to the contrary *Slavery and the Culture of Taste* demonstrates that these two areas of modernity were surprisingly entwined Ranging across Britain the antebellum South and the West Indies and examining vast archives including portraits period paintings personal narratives and diaries Simon Gikandi illustrates how the violence and ugliness of enslavement actually shaped theories of taste notions of beauty and practices of high culture and how slavery s impurity informed and haunted the rarified customs of the time Gikandi focuses on the ways that the enslavement of Africans and the profits derived from this exploitation enabled the moment of taste in European mainly British life leading to a transformation of bourgeois ideas regarding freedom and selfhood He explores how these connections played out in the immense fortunes made in the West Indies sugar colonies supporting the lavish lives of English barons and altering the ideals that defined middle class subjects Discussing how the ownership of slaves turned the American planter class into a new aristocracy Gikandi engages with the slaves own response to the strange interplay of modern notions of freedom and the realities of bondage and he emphasizes the aesthetic and cultural processes developed by slaves to create spaces of freedom outside the regimen of enforced labor and truncated leisure Through a close look at the eighteenth century s many remarkable documents and artworks *Slavery and the Culture of Taste* sets forth the tensions and contradictions entangling a brutal practice and the distinctions of civility

Kant's Theory of Taste Henry E. Allison, 2001-03-19 This book constitutes one of the most important contributions to recent Kant scholarship In it one of the pre eminent interpreters of Kant Henry Allison offers a comprehensive systematic and philosophically astute account of all aspects of Kant s views on aesthetics The first part of the book analyses Kant s

conception of reflective judgment and its connections with both empirical knowledge and judgments of taste The second and third parts treat two questions that Allison insists must be kept distinct the normativity of pure judgments of taste and the moral and systematic significance of taste The fourth part considers two important topics often neglected in the study of Kant's aesthetics his conceptions of fine art and the sublime

Challenges and Objections Luteria Archambault., 2014-05-22 I felt I had been placed in the center of

something that was alive pulsating with life I knew God had placed me there and that he was in control As I stood there sobbing I felt something the consistency of liquid being poured over my head again and again It ran down the entire length of my body My knees buckled and I fell to the floor from the weight of it With each pour I felt a love for my father that was so big and powerful that I actually felt my body would burst This was not a natural love it was far greater As this liquid was being poured upon me I became aware of a powerful presence in the room Then I heard the Lord say to me I had to anoint you so that you could feel just a little of the love I have for your father

Hall,2025-08-19 How seventeenth century English literary genres associated with gastronomic and aesthetic pleasure shaped representations of Caribbean colonization and slavery Over the course of the seventeenth century sugar prices fell drastically As this newly affordable luxury made its way from royal entertainments to the closets of home cooks in ever increasing quantities sugar bound England s fortunes to the Caribbean The pursuit of sugar s pleasures and profits generated newly visible and vexed relationships not simply between enslaved and enslaver but also between enslaved and consumer that threatened the English sense of the nation the household and the self The Sweet Taste of Empire explores how the unique emphasis the English placed on confections as a marker of status and national identity offered a framework for grappling with changing notions of race gender labor and domesticity that shaped early colonization Tracing the literal and literary uses of sugar in seventeenth century England Kim F Hall shows how literary genres associated with gastronomic and aesthetic pleasure shaped representations of Caribbean colonization and slavery developing a culinary language that functioned as a discourse of pleasure and white innocence In turn Hall argues Caribbean sugar production influenced domestic consumption and trade in England as well as the very notion of what it meant to be English Drawing on a wide range of early Anglo Caribbean texts from cookbooks and banquet menus to economic poetry to maps and treatises on plantation labor and health Hall uncovers what she calls a plantation aesthetic in which writers mobilize ways of seeing from

pastoral georgic and landscape discourses when addressing issues of race and enslavement This plantation aesthetic reveals deep worry over the threat African slavery poses to the imagined idea of English plantations as idealized agrarian life ultimately shaping the history of both English slavery and the later anti slavery response Recentering the Caribbean in early modern literary studies The Sweet Taste of Empire sheds new light on the aesthetic and the poetic in the archives of Caribbean enslavement

Eating and Being Steven Shapin, 2024-11-20 What we eat who we are and the relationship between the two Eating and Being is a history of Western thinking about food eating knowledge and ourselves In modern thought eating is about what is good for you not about what is good Eating is about health not about virtue Yet this has not always been the case For a great span of the past from antiquity through about the middle of the eighteenth century one of the most pervasive branches of medicine was known as dietetics prescribing not only what people should eat but also how they should order many aspects of their lives including sleep exercise and emotional management Dietetics did not distinguish between the medical and the moral nor did it acknowledge the difference between what was good for you and what was good Dietetics counseled moderation in all things where moderation was counted as a virtue as well as the way to health But during the nineteenth century nutrition science began to replace the language of traditional dietetics with the vocabulary of proteins fats carbohydrates and calories and the medical and the moral went their separate ways Steven Shapin shows how much depended upon that shift and he also explores the extent to which the sensibilities of dietetics have been lost Throughout this rich history he evokes what it

felt like to eat during another historical period and invites us to reflect on what it means to feel about food as we now do
Shapin shows how the change from dietetics to nutrition science fundamentally altered how we think about our food and its
powers our bodies and our minds
