Teaching Directing Forensics

Marco Cascella

Teaching Directing Forensics:

Coaching and Directing Forensics Donald William Klopff, Carroll Pollock Lahman, 1967 *Teaching and Directing Forensics* Bartanen, 1993-09-01 *Transforming Debate* Jack E. Rogers, 2002 Transforming Debate represents the very best scholarly work published by the International Journal of Forensics This book opens minds and borders for the scholarly exchange of both the theory and practice of academic debate Directing Forensics: Debate and Contest Speaking Richard D. Rieke, 1968 Introduces fishes and sea animals with electric sense and explains how they produce detect and use electricity to survive The Journal of the American Forensic Association American Forensic Association, 1978

Forensics in Chemistry Sara McCubbins, Angela Codron, 2012 Forensics seems to have the unique ability to maintain student interest and promote content learning I still have students approach me from past years and ask about the forensics case and specific characters from the story I have never had a student come back to me and comment on that unit with the multiple choice test at the end from the Introduction to Forensics in Chemistry The Murder of Kirsten K How did Kirsten K s body wind up at the bottom of a lake and what do wedding cake ingredients soil samples radioactive decay bone age blood stains bullet matching and drug lab evidence reveal about whodunit These mysteries are at the core of this teacher resource book which meets the unique needs of high school chemistry classes in a highly memorable way The book makes forensic evidence the foundation of a series of eight hands on week long labs As you weave the labs throughout the year and students solve the case the narrative provides vivid lessons in why chemistry concepts are relevant and how they connect All chapters include case information specific to each performance assessment and highlight the related national standards and chemistry content Chapters provide Teacher guides to help you set up Student performance assessments A suspect file to introduce the characters and new information about their relationships to the case Samples of student work that has been previously assessed and that serves as an answer key for you Grading rubrics Using Forensics in Chemistry as your guide you will gain the confidence to use inquiry based strategies and performance based assessments with a complex chemistry curriculum Your students may gain an interest in chemistry that rivals their fascination with Bones and CSI

Teaching Communication Anita L. Vangelisti, John A Daly, Gustav W. Friedrich, 2013-11-05 The field of communication was founded in part because of a need to make people better communicators That meant teaching them how to communicate more effectively whether it be in public settings or in private Most of that teaching has happened within the classroom and many professionals have spent their lives instructing others on various aspects of communication Inside this second edition the editors have assembled a fully comprehensive and contemporary discussion of topics and issues concerning the teaching of communication The chapters contained herein contributed by key voices throughout the communication discipline address conceptual as well as practical issues related to communication instruction The contents of this new edition reflect the dramatic changes that have occurred in communication education since the publication of the first edition in 1990 This book

focuses initially on the goals of communication education then delves into the preparation of specific communication courses. It includes assistance for instructors in organizing instructional content and discusses the use of instructional strategies and tools as well as offering ideas on evaluating the processes and products of instruction. The volume also covers unique teaching assignments that may be encountered from the basic course to continuing education and addresses 2 year college teaching directing forensic programs distance education and consulting. It concludes with important professional issues faced by both new and experienced communication instructors including ethics and political issues within classrooms and departments. This volume is a necessity for anyone starting out a career as a communication instructor. Veteran educators who know that learning to teach is a continual growth experience will find useful and invaluable information within the book's pages. Whatever background and level of experience all communication educators will find this new edition to be an essential resource for their work. *Teaching and Directing Forensics* Michael D. Bartanen, 1993 **The Routledge**

Handbook of Public Speaking Research and Theory Stevie M. Munz, Tim McKenna-Buchanan, Anna M. Wright, 2024-04-18. Providing a comprehensive survey of the empirical research theory and history of public speaking, this handbook fills a crucial gap in public speaking pedagogy resources and provides a foundation for future research and pedagogical development. Bringing together contributions from both up and coming and senior scholars in the field, this book offers a thorough examination of public speaking guided by research across six key themes: the history of public speaking, the foundations of public speaking, issues of diversity, equity, and inclusion, considerations of public speaking across contexts, assessment of public speaking, and the future of public speaking in the twenty-first century. The evidence-based chapters engage with a broad discussion of public speaking through a variety of viewpoints to demonstrate how subtopics are connected and fraught with complexity. Contributors explore public speaking in education, business, and professional settings and political contexts and outline how skills learned through public speaking are applicable to interpersonal, small group, and business interactions. Reinforcing the relevance, importance, and significance of public speaking in individual, interpersonal, social, and cultural communication contexts, this accessibly written handbook will be an indispensable resource for public speaking instructors and program administrators. It will also be valuable reading for Communication Pedagogy and Introduction to Graduate Studies courses. *University of Michigan Official Publication*, 1939
