Teaching Secondary Students Through Their Individual Learning Styles Rita Dunn, Kenneth J. Dunn, 1993 **Teaching Students Through Their Individual Learning Styles** Rita Dunn, Kenneth J. Dunn, 1978 **Practical Approaches to Using Learning Styles in Higher Education** Rita Dunn, Shirley A. Griggs, 2000-04-30

Dunn and Griggs challenge the traditional instructional process of lecture discussion in college classroom and describe the theory practice and research that support a wider variety of approaches to better accommodate the learning style preferences of each student Twenty five practitioners from varied backgrounds and disciplines representing 14 colleges and universities outline alternative strategies they use with diverse students in their institutions of higher education Some of these practitioners have been using learning style for decades Others have conducted research to test the various tenets of the Dunn and Dunn Learning Style Model and a few only for the past five years have begun providing instructional strategies that are congruent with their students preferences A road map is provided for college faculty to assist them in moving toward accommodating students learning style strengths by comparing the major theories of learning styles that range from uni to multi dimensional in scope Strategies include identifying and administering valid and reliable instruments for assessing college students learning styles interpreting assessment results so that each student becomes aware of his her own strengths and is provided a computer generated prescription for improving their study skills and successfully completing assignments designing instruction to respond to both global and analytic students processing styles developing course content and materials to accommodate the learning style preferences of college students and evaluating the impact of learning styles based instruction Teaching Students Through Their Individual Learning Styles ,1995* **Teaching Students Through Their Individual Learning Styles** Rita Stafford Dunn,1989 **Differentiating Instruction for At-Risk Students** Rita Dunn,Andrea Honigsfeld,2009

When the activities described herein are introduced to students whose learning styles they match most will demonstrate strong abilities to learn and remember new and difficult content within the first four months of beginning_if not earlier This book is written to prevent more children from becoming at risk and to help those who already have fallen behind their classmates and do not enjoy school **Teaching Students Through Their Individual Learning Styles** Rita Stafford Dunn,1978 The Struggle for Identity in Today's Schools Patrick M. Jenlink,Faye Hicks Townes,2009-04-16

The Struggle for Identity in Today s Schools examines cultural recognition and the struggle for identity in America s schools In particular the contributing authors focus on the recognition and misrecognition as antagonistic cultural forces that work to shape and at times distort identity What surfaces throughout the chapters are two lessons to be learned in relation to identity The first lesson is that identities and the acts attributed to them are always forming and re forming in relation to historically specific contexts and these contexts are political in nature i e defined by issues of diversity such as race ethnicity language sexual orientation gender and economics The second lesson presented by the authors is that identity forms in and across intimate

and social contexts over long periods of time The historical timing of identity formation cannot simply be dictated by discourse The identities posited by any particular discourse become important and a part of everyday life based on the intersection of social histories and social actors Importantly the social cultural use of identities leads to another way of conceptualizing histories personhoods cultures and their distributions over social and political groups
