school and district administrators and staff developers will also be interested in reading about how this school's principal and assistant principal set the stage for developing their community of learners. There are many sound action research texts on the market. This text is apart by its first person accounts of teachers' experiences with action research as examples of profound possibilities for professional growth. As such, this book, written by teachers for other teachers and then contextualized by the Editors so that the relevance is clear to a broader audience, fills an important niche in the literature.
