Teaching Counselors And Therapists Constructivist And Developmental Course Design:

Teaching Counselors and Therapists Karen Eriksen, Garrett McAuliffe, 2001-08-30 A guide to innovative mental health education is urgently needed Despite the hundreds of programs in existence for training students in counseling human service social work and psychology teachers in such programs have relied on an informal network of information exchange to guide their teaching practice Yet constructivist and developmental theories now point to sound innovative practices for teaching This volume delineates those practices Despite years of research on effective adult education university teaching fails in practice to incorporate research supported teaching principles Current university instruction is still dominated by the teacher as authority The teacher downloads information from the front of the class and expects students to regurgitate it in papers and on exams The authors offer a different vision of classrooms that are characterized by the themes of meaning making collaboration equality and activity in the learning environment

Theories of Counseling and Psychotherapy

Theories of Counseling and Psychotherapy An Integrative Approach by Elsie Jones Smith sets a new standard in counseling theories books The Second Edition goes beyond expert coverage of traditional and social constructivist theories with coverage of more contemporary approaches to psychotherapy including individual chapters on spirituality and psychotherapy strengths based therapy neuroscience and neuropsychotherapy motivational interviewing and the expressive arts therapies In every chapter the case study of a preadolescent boy demonstrates how each theory can be applied in psychotherapy Up to date and easy to read the book engages readers with inner reflection questions that help them apply the theories to the lives of their clients and shows them how to develop their own integrative approach to psychotherapy

Handbook of Counselor Preparation Garrett McAuliffe, Karen Eriksen, 2011 This definitive single volume guide is the first of its kind on teaching and developing counselor educator programs that embrace constructivist and developmental theory Leading scholars and experts offer practical advice on teaching courses in every area of counseling practice As a result the book is ideal for current and future counselor educators and supervisors as well as faculty in other helping professions The authors seek to inspire educators to empower and involve to risk losing control over subject matter to hear student voices to pose dilemmas and to challenge their own assumptions in the presence of their students using constructivist developmental and experiential thinking and strategies

Career Counselling Mary McMahon, Wendy Patton, 2006-05-02 In a changing employment climate and with the growth of demand for careers guidance at all stages of life careers guidance practice has moved from its positivist world view with the counsellor as expert and client as passive responder to more holistic constructivist approaches In essence these approaches view the career as a holistic concept in which work and personal life are inextricably intertwined and individuals are experts in their own lives actively constructing their careers The first to fully explore the constructivist approach this book provides a theoretical background to constructivism outlines a range of constructivist approaches to career counselling gives examples

of the practical application of constructivism Essential for anyone involved in career guidance wishing to learn more about this vital new approach this book combines theory with practicable guidance and represents a new direction for career counselling
