Team Tracker:

Tracking Humans David Diaz,V. L. Mccann,2013-06-04 Tracker The very word evokes images of buckskin clad braves crouching over the ground carefully studying the signs before them a part of history But the modern world has not put behind it the need for the earthy business of tracking Such skills are still routinely used by the military rescue personnel and law enforcement as well as by hunters and people living at subsistence level throughout the world *Tracking Humans* is the ultimate authoritative guide to this most complex pursuit A great resource for military law enforcement and rescue professionals *Tracking Humans* is also useful for outdoor enthusiasts Users will find it invaluable as an on site manual to assist in any ongoing search Unlike many tracking manuals this guide focuses on tracking humans whether they re enemy combatants or lost children Author David Diaz explains what it takes to be an expert tracker from the physical stamina to the focus and perception necessary to do the job correctly He explains the tools of the tracker and presents essential safety tips every tracker should know *Tracking Humans* is an important tool for anyone dealing with missing persons it could be an essential lifesaver *Tracking--Signs of Man, Signs of Hope* David Diaz,2005-06-01 Tracking Signs of Man Signs of Hope is a complete guide to tracking and finding humans alive and dead lost children and adults crime victims escaped criminals

Marine Mammal Ecology and Conservation Ian L. Boyd,W. Don Bowen,Sara J. Iverson,2010-08-12 Much of our knowledge about marine mammals is derived from a long term and dedicated research effort that is evolving rapidly due to the introduction and invention of new methods This book reflects the inventiveness of marine researchers as they try to find ways around the problems presented to them by these unusual and challenging animals **Stalking, Tracking, and Playing Games in the Wild** Mark Warren,2020-09-01 Excellence and care guide every quiet step Mark Warren makes to follow him teaches unique wonderful truths about one s connection to the Earth and its inhabitants Rhyse Bendell Medicine Bow summer camper and student Mark leads the modern reader along the almost forgotten paths of wood lore natural medicine and self sufficiency Emily Ghiz baker and Montessori teacher In this third volume of the Secrets of the Forest series outdoor educator Mark Warren opens the door to experiences with wildlife such as how to stalk animals of the wild without being detected by their keen senses This discipline addresses posture clothing diet de scenting and soft walking the ultra slow motion technique that falls below the radar of wildlife s peripheral vision how to read individual tracks and multiple gaits of specific animal species how to convert animal skins into rawhide and leather for crafts and clothing how to differentiate species of snakes and in the process demystify their often misunderstood intentions The second half of the book is dedicated to games Its main purpose is to ensure that young ones under an adult leader simply have fun on an outing and will want to return to nature for another adventure Some of these games come from Native American traditions but many are new and range from high action to pensive around the campfire kinds of activities This volume contains more than one hundred fifty original adventures **Pro .NET 2.0 Extreme Programming** Greg Pearman,James Goodwill,2006-11-22

While other extreme programming XP books are usually theoretical in approach this book steers you through the practical application of extreme programming with code level solutions So if you re currently a NET 1 1 or future NET 2 0 developer and need to put XP into practice pick up this book You will learn how to apply XP principles in a real world environment This book provides an in depth look at each of the XP practices and examines how each of these fits into the project development life cycle Thus by showing you how to work with NET 1 1 today and NET 2 0 tomorrow this book bestows you with long term vision for extreme programming with Microsoft technologies

Sacrifice Alex Archer,2009-05-01 Bearers of the sword On assignment in the Philippines archaeologist Annja Creed meets with a contact to verify some information Easy enough But when the man doesn t turn out to be whom he said he was Annja finds herself handcuffed blindfolded and kidnapped And to make matters worse she s a prisoner of the dreaded Abu Sayyaf a notorious terrorist group Desperate to escape Annja is able to flee after slaying one of her captors But she soon gets lost in the hostile jungle which is rumored to be haunted by the spirits of Moro warriors who fought off conquistadors with their blades As she tries to stay a step ahead of the terrorists and not so dead spirits with a taste for human flesh Annja s not sure she ll leave the jungle alive

Sustainable Dual-Track Development Todd Sedano,Paul Ralph,2025-09-19 Every decade or so the software development community reinvents itself to address the dominant problems of the day Agile methods reacted against slow bureaucratic documentation driven development The next big shift reacts against unsustainable development practices This book advances dual track development as a unifying framework for the best way of designing great products user centered design the best way of delivering software efficiently agile methods and strategies for balancing present and future needs sustainable development This book does not just recommend practices It explains how to implement practices and the surprising science behind the practices in an approachable sometimes cheeky style You won t find a Dual track Master telling you that you must do it exactly this way otherwise you re a sellout Rather this book describes a set of sociotechnical tools and gives advice for adapting these tools to your unique context Welcome to the future of software engineering that you actually want one that embraces clean code hyper productive programming belongingness empathy environmental sustainability economic feasibility pro social impact and organizational justice Todd Sedano PhD Carnegie Mellon University enjoys creating inclusive engineering environments empowering others to excel and coaching others by listening and reframing from a growth mindset He has more than 25 years of experience as a software engineer and engineering manager at leading organizations including NASA JPL Pivotal Labs VMware Enjoy Gusto and ID me Todd has published scholarly articles on software development waste agile teams product backlogs and dual track development His academic research became the foundation for this book His current hobbies include riding roller coasters improvisational theater and American Kenpo D Paul Ralph PhD British Columbia is an award winning scientist author consultant professor of Software Engineering and director of the Dalhousie Software Engineering Lab His cutting edge research at the intersection of software engineering human computer
