Technical Assistance For The Relationship Challenged:

Technical Assistance for the Relationship Challenged Charlene Collingswood, Patty Macmahon, 2005-08-01

Technical Assistance for the Relationship Challenged is Charlene Collingswood's fourth book. In this book, Charlene gives advice on relationships, talks about her marriages, and gives the straight to the point advice that she has become famous for. This book is not for the politically correct or the excuse police. Charlene said during a recent interview: "It's the kind of advice your best friend would give if she thought you wouldn't get mad."

The Credibility Challenge Inken von

Borzyskowski, 2019-06-15. The key to the impact of international election support is credibility: credible elections are less likely to turn violent. So argues Inken von Borzyskowski in *The Credibility Challenge*, in which she provides an explanation of why and when election support can increase or reduce violence. Von Borzyskowski answers four major questions: Under what circumstances can election support influence election violence? How can election support shape the incentives of domestic actors to engage in or abstain from violence? Does support help reduce violence or increase it? And which type of support—observation or technical assistance—is better in each instance? *The Credibility Challenge* pulls broad quantitative evidence and qualitative observations from Guyana, Liberia, Kenya, Sierra Leone, and Bangladesh to respond to these questions. Von Borzyskowski finds that international democracy aid matters for election credibility and violence: outside observers can exacerbate postelection violence if they cast doubt on election credibility, and technical assistance helps build electoral institutions, improves election credibility, and reduces violence. Her results advance research and policy on peacebuilding and democracy promotion in new and surprising ways.

A Guide to the NAI Arbitration Rules Bommel van der Bend, Marnix

Leitjen, 2009-01-01. The Netherlands Arbitration Institute (NAI) is the most prestigious institute in the Netherlands for the arbitration of commercial disputes. While NAI arbitration is the dispute resolution mechanism of choice of many Dutch corporations and public entities, it is increasingly agreed on by foreign parties selecting the Netherlands as a neutral venue for their potential disputes. This excellent volume, a rule-by-rule guide to the NAI Arbitration Rules, is not only the first such handbook in English but the most comprehensive and detailed in any language. In addition, it provides a unique commentary in English on important elements of Dutch arbitration law. Drawing on case law from arbitral tribunals and state courts, and on extensive personal experience, members of the arbitration team of the Dutch law firm De Brauw Blackstone Westbroek (DBW) provide in-depth commentary on each provision of the NAI Arbitration Rules and on arbitration-related court proceedings in the Netherlands under the Dutch Arbitration Act. Focusing on disputes arising from, among others, share purchase agreements, joint venture agreements, licence agreements, franchise agreements, finance agreements, contractor agreements, distribution agreements, and agreements for the sale of goods, the analysis covers such crucial factors of the NAI system as the following: the use of the list procedure for the appointment of arbitrators; the central role of the Administrator; the Dutch concept of binding advice; contractual relationships and exclusion of liability; the separability of the arbitration agreement.

freedom in determining and applying rules of evidence the mechanisms for parties to seek relief in summary arbitration proceedings costs of arbitration and the arbitral award including the possibility of rectifying supplementing and setting aside this award The provision by provision analysis also compares the NAI Rules with both relevant proceedings in the Dutch state courts and inter alia ICC and UNCITRAL Arbitration Rules and to practice under such other rules The authors of this matchless book have faced many questions on the NAI Arbitration Rules advised on the interpretation and correct application of those Rules and defended such interpretation before tribunals and courts In this book they share their experience insights and expertise Counsel for corporate clients and public entities contemplating arbitration proceedings and as well as counsel to parties in NAI proceedings or related court proceedings and will find here an incomparable guide to the NAI system and Dutch arbitration law

Technology Transfer Challenges and Partnerships United States. Congress. House. Committee on Science. Subcommittee on Technology, 2000

The Marketing Challenge Martin Kriesberg, 1974 Inadequate transportation and storage poor market information lack of capital and other chronic marketing problems in developing countries have been dramatized by recent production increases To focus more attention and resources on food marketing in developing nations U S Agency for International Development and U S Department of Agriculture held a seminar in Washington D C to discuss these problems and set priorities for AID USDA efforts Major topics covered include key considerations in marketing policies marketing enterprises and the flow of resources into marketing functions nutrition and marketing food for the needy efficiency in the marketing system regional experiences in marketing problems and priorities and approaches to technical assistance There was a consensus that marketing problems need to be dealt with on an integrated national basis which serves producers consumers and national development goals A number of specific areas of activity were given high priority 1 better identification of technical assistance and research needs in marketing 2 improvement of marketing management capability and 3 providing more adequate marketing information for consumers producers and distributors

Decentring Global Challenges in International Relations Debora Valentina Malito, Evangelos Fanoulis, 2025-08-21 This book examines contemporary global challenges from a decentring perspective advancing an interdisciplinary conversation International studies scholarship has become increasingly more interdisciplinary and multifocal especially as the escalation of systemic ecological and economic crises as well as social and political challenges in the 21st century have required comprehensive ways of thinking and taking stock of existing ontological and epistemic limitations A decentring approach is crucial to account for how interdependent relations across states and societies regions and the globe shape modernity and its global manifestations are in an era of growing and persistent crises The book explains why traditional hegemonic approaches to global challenges are problematic and conceptualises what a decentring approach to global challenges entails a deconstruction of traditional and sedimented epistemic underpinnings implying a rethinking of agency time geographies norms topics and loci of public attention but also an appreciation of the mutually constructed nature of the international This

book will appeal to students and scholars of international relations IR and international studies who are interested in decentring as well as those working for civil society organisations CSOs NGOs and think tanks
