refereed proceedings of the Second International Conference on Modeling and Simulation of Social Behavioral Phenomena in Creative Societies MSBC 2022 held in Vilnius Lithuania in September 2022 The 14 full papers and 1 short paper presented were carefully reviewed and selected from 35 submissions The papers are organized in the following topical sections simulation of behavioral processes modeling of sustainability and data science and modeling **Sociology, Ideology and Utopia** Chattopadhyaya,2021-11-01 This engaging wide ranging study in comparative social and political philosophy gives a well argued account of how ideological and even utopian views such as normative communication development and justice are sociologically rooted It also shows how this fact has been reflected in the social history of Asian countries like India and China as well as some Western countries during the last two centuries To illustrate the underlying concepts reference is made to influential thinkers both from the East and West from Hegel and James Mill to Marx and Maozedong and from Gandhi to Rawls The author himself one of the major contemporary Indian philosophers offers arguments to show that the right version of cultural relativism is objective and judgeable Concrete case studies are cited indicating why even fundamental values like indivisible peace and our own green planet cannot be practically universalized Yet this work is a sustained plea for improvable understanding between the East and the West and the transcultural value orientation of different cultures *The United Front* Daniel F. Calhoun,2008-11-06 The book concerns the Soviet effort during the 1920s to make contact with and if possible revolutionize the European labour movement by first establishing a special relationship with the British Trades Union Congress The ultimate failure of that effort after the collapse of the general strike in 1926 inspired Trotsky to try one last time to oust Stalin a confrontation that led to utter collapse of the Trotskyite opposition in 1927-28 The author suggests the failure of this particular united front effort was a major factor in the sectarianism and isolationism of the Communist movement from 1928 to 1934 and thus had a significant affect on the rise of the Nazi party in Germany *The Oxford Handbook of Dewey* Steven Fesmire,2019 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online
