**Childhood and the Classics** Sheila Murnaghan,Deborah H. Roberts,2018-03-16 The dissemination of classical material to children has long been a major form of popularization with far reaching effects although until very recently it has received almost no attention within the growing field of classical reception studies This volume explores the ways in which children encountered the world of ancient Greece and Rome in Britain and the United States over a century long period beginning in the 1850s as well as adults literary

responses to their own childhood encounters with antiquity Rather than discussing the role of classics in education it focuses on books read for enjoyment and on two genres of children s literature in particular the myth collection and the historical novel The tradition of myths retold as children s stories is traced in the work of writers and illustrators from Nathaniel Hawthorne and Charles Kingsley to Roger Lancelyn Green and Ingri and Edgar Parin D Aulaire while the discussion of historical fiction focuses particularly on the roles of nationality and gender in the construction of an ancient world for modern children The book concludes with an investigation of the connections between childhood and antiquity made by writers for adults including James Joyce Virginia Woolf and H D Recognition of the fundamental role in children s literature of adults ideas about what children want or need is balanced throughout by attention to the ways in which child readers have made such works their own The formative experiences of antiquity discussed throughout help to explain why despite growing uncertainty about the appeal of antiquity to modern children the classical past remains perennially interesting and inspiring
