## WHAT IS OLD AGE?

- Old age is defined as ages that are close to or above the normal human life expectancy, marking the end of the human life cycle.
- Older adults (in the social sciences), seniors (American usage), senior citizens (British and American usage), and the elderly are all euphemisms and phrases for the elderly.

- This stage represents the period from 65 years old to death.
- In this stage, the choice between integrity and hopelessness determines whether the person finds meaning in their recollections or, instead, looks back on their lives with unhappiness.
