The Aims And Methods Of Scholarship In Modern Languages And Literatures:

The Aims and Methods of Scholarship in Modern Languages and Literatures (Classic Reprint) James Thorpe, 2016-10-11 Excerpt from The Aims and Methods of Scholarship in Modern Languages and Literatures A collection of essays cannot convert us into able scholars of course For that we need much learning the capacity to deal creatively with knowledge and a certain amount of good luck But we also need a discipline to help us shape our material into the form of useful contributions and that discipline ultimately derives from a recognition of the aims and methods of scholarship These essays discuss four forms of scholarship linguistics textual criticism literary history and literary criticism In each case the writer offers his ideas about fundamental questions facing the modern scholar the range of purpose open to him the basic problems confronting him the presuppositions underlying his work the methods and procedures available to him Of the various themes which run through these essays either by direct statement or by implication it seems to me that there are two which ought to be kept in mind while considering the propositions set forth in each essay One theme reiterated over and over again is the interdependence of these four forms of scholarship The partitioning of scholarship into these essays is a convenient division of functions not of people each essay is about a characteristic type of study not about a separate band of scholars living apart from the rest of the learned world All literary scholars these essays assert need at least an elementary grasp of all four forms and they cannot work effectively without being able to use the relevant evidence which can be or has been gained through each of those modes of inquiry Any given literary problem may turn out to involve all of them anti a scholar can treat his problem with complete reliability only if he exploits all sources of understanding The individual scholar generally finds it is true that he has more interest and greater skill in one mode of study than in another But what the professor of scholarship needs if he wants his work to be adequate is the ability to follow any promising approach that may lead to a sounder understanding of the topic on which he happens to be engaged About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Aims and Methods of Scholarship in Modern Languages and Literatures](#) James Ernest Thorpe, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure

Fekete, 2014-08-07 First published in 1977 this book was the first to map extensively the ideological typography of the Anglo American tradition of literary theory It interrogates comprehensively and in detail the assumptions and categorical development within critical ideas from I A Richards and T S Eliot through John Crowe Ransom and the New Criticism to Northrop Frye and Marshall McLuhan This analysis reveals the Anglo American tradition of literary cultural theory is most properly intelligible within the overall field of social consciousness as an ideology of progressive cultural rationalization Against a background of ideological development since nineteenth century Romanticism John Fekete illuminates the boundaries of literary ideology in relation to the shapes and changes of modern culture and society **What the Victorians**

Made of Romanticism Tom Mole, 2020-06-09 This insightful and elegantly written book examines how the popular media of the Victorian era sustained and transformed the reputations of Romantic writers Tom Mole provides a new reception history of Lord Byron Felicia Hemans Sir Walter Scott Percy Bysshe Shelley and William Wordsworth one that moves beyond the punctual historicism of much recent criticism and the narrow horizons of previous reception histories He attends instead to the material artifacts and cultural practices that remediated Romantic writers and their works amid shifting understandings of history memory and media Mole scrutinizes Victorian efforts to canonize and commodify Romantic writers in a changed media ecology He shows how illustrated books renovated Romantic writing how preachers incorporated irreligious Romantics into their sermons how new statues and memorials integrated Romantic writers into an emerging national pantheon and how anthologies mediated their works to new generations This ambitious study investigates a wide range of material objects Victorians made in response to Romantic writing such as photographs postcards books and collectibles that in turn remade the public's understanding of Romantic writers Shedding new light on how Romantic authors were

posthumously recruited to address later cultural concerns What the Victorians Made of Romanticism reveals new histories of appropriation remediation and renewal that resonate in our own moment of media change when once again the cultural products of the past seem in danger of being forgotten if they are not reimagined for new audiences Editing Economists and Economists as Editors Pascal Bridel,1992
