phase of flight training are summarized including FAA test requirements There is a section that spells out the privileges of and requirements for different pilot certificates from being a Sport pilot to an airline or military pilot Even different types of aircraft are covered including helicopters and gliders Training programs are described from initial training at a local airport to attending a flight academy or university aviation program that will take you from the ground up from first flight to qualification as a professional pilot and set you on the way to your ultimate aviation goals About the Expert Mr Richmond has been involved in aviation in one way or another for more than 40 years He received his initial flight training in the U S Air Force The Air Force 53 week flight training program is generally recognized as a master s degree level course and in addition to basic and advanced flight training include a broad range of aerospace academics including aerodynamics meteorology aircraft systems navigation FAA regulations safety and survival instrument flight procedures etc After serving in the Air Force Mr Richmond served as a flight instructor and captain for a regional airline taught aeronautics and air science for ten years including five years at Embry Riddle Aeronautical University in Daytona Beach Florida Mr Richmond also built and flew his own Experimental airplane He continues to write about aviation aircraft and piloting Several of his flying stories can be found on his blog Renaissance Musings under the category There I Was HowExpert publishes quick how to guides on all topics from A to Z by everyday experts

The Airline Transition Manual Richard Swindell,Jolanda Witvliet,Andrew Ross,2021-06 *Airline Safety and Pilot Training Improvement Act of 2009* United States. Congress. House. Committee on Transportation and Infrastructure,2009 Human Factors in the Training of Pilots Jefferson M. Koonce,2002-05-23 In this educational yet entertaining text Jeff Koonce draws on his 44 years of pilot experience and 31 years as a professor of psychology and human factors engineering in addressing the questions of how to apply sound human factors principles to the training of pilots and to one s personal flying The author discusses principles of human factors and how they can be utilized in pilot training and evaluation With a conversational tone he also relates anecdotes jokes and truisms collected during his time as a flight instructor He takes a positive approach to the subject focusing on safety and good practice rather than on accidents While problem areas are acknowledged and the book points out how certain problems may result in mishaps the author avoids focusing on individual accidents Human Factors in the Training of Pilots is a must for pilots wanting to make a systematic study of the human factors issues behind safe flying and for instructors or serious students needing an authoritative text
