The Alabama Claims American Politics And Anglo American Relations 1865 187

G. Edward White

The Alabama Claims American Politics And Anglo American Relations 1865 187:

American Sectionalism in the British Mind, 1832-1863 Peter O'Connor, 2017-11-13 In *American Sectionalism in the British Mind 1832 1863* Peter O Connor uses an innovative interdisciplinary approach to provide a corrective to simplified interpretations of British attitudes towards the United States during the antebellum and early Civil War periods Exploring the many complexities of transatlantic politics and culture O Connor examines developing British ideas about U S sectionalism from the abolition of slavery in the British Empire and the Nullification Crisis in South Carolina to the Civil War Through a close reading of travelogues fictional accounts newspaper reports and personal papers O Connor argues that the British literate population had a longstanding familiarity with U S sectionalism and with the complex identities of the North and South As a consequence of their engagement with published accounts of America produced in the decades leading up to the Civil War the British populace approached the conflict through these preexisting notions O Connor reveals even antislavery commentators tended to criticize slavery in the abstract and to highlight elements of the system that they believed compared favorably to the condition of free blacks in the North As a result the British saw slavery in the U S in national as opposed to sectional terms which collapsed the moral division between North and South O Connor argues that the British identified three regions within America the British Cavalier South the British Puritan New England and the ethnically heterogeneous New York and Pennsylvania region and demonstrates how the apparent lack of a national American culture prepared Britons for the idea of disunity within the U S He then goes on to highlight how British commentators engaged with American debates over political culture political policy and states rights In doing so he reveals the complexity of the British understanding of American sectionalism in the antebellum era and its consequences for British public opinion during the Civil War *American Sectionalism in the British Mind 1832 1863* re conceptualizes our understanding of British engagements with the United States during the mid nineteenth century offering a new explanation of how the British understood America in the antebellum and Civil War eras *The Alabama Claims* Adrian Cook, 1975 *The Presidency of Ulysses S. Grant* Charles W. Calhoun, 2023-05-12 As controversial in politics as he was in the military Ulysses S Grant 1822 1885 was an embattled president enormously popular with the American people yet the target of unrelenting censure by political enemies For the first time in almost a century this book by the distinguished historian Charles W Calhoun examines Grant s administration in depth offering a fresh look at the 18th president s policies and actions during his two terms in office 1869 1877 Most biographers focus on Grant s military career giving less attention to the significant and complex questions that marked his presidential terms These concerns the issues of politics and governance are at the core of this book As a political historian with a vast knowledge of nineteenth century America and an extensive array of original sources at his command Calhoun approaches Grant s presidency not as an incongruous or inconsequential sequel to his military career but instead as the polestar of American public life during a crucial decade in the nation s political development He explores Grant s

leadership style and traces his contributions to the office of president including creating a White House staff employing modern technology to promote the mobility of the presidency and developing strong ties with congressional leaders to enhance executive influence over legislation The Presidency of Ulysses S Grant provides a detailed discussion of the administration's endeavors in a variety of areas Reconstruction and civil rights economic policy the Peace Policy for Native Americans foreign policy and civil service reform It also offers a straightforward examination of the scandals associated with the period highlighting the embattled nature of Grant's presidency and the deep antagonism that marked his relations with key critics such as Charles Sumner Henry Adams and Benjamin Bristow In sum this book is a long overdue re evaluation of a pivotal presidency in America's political history

Law in American History, Volume II G. Edward White, 2016-02-15 In this second installment of G Edward White's sweeping history of law in America from the colonial era to the present White covers the period between 1865-1929 which encompasses Reconstruction rapid industrialization a huge influx of immigrants the rise of Jim Crow the emergence of an American territorial empire World War I and the booming yet xenophobic 1920s As in the first volume he connects the evolution of American law to the major political economic cultural social and demographic developments of the era To enrich his account White draws from the latest research from across the social sciences economic history anthropology and sociology yet weaves those insights into a highly accessible narrative Along the way he provides a compelling case for why law can be seen as the key to understanding the development of American life as we know it Law in American History Volume II will be an essential text for both students of law and general readers

Law in American History G. Edward White, 2012 In this second installment of G Edward White's sweeping history of law in America from the colonial era to the present White covers the period between 1865-1929 which encompasses Reconstruction rapid industrialization a huge influx of immigrants the rise of Jim Crow the emergence of an American territorial empire World War I and the booming yet xenophobic 1920s As in the first volume he connects the evolution of American law to the major political economic cultural social and demographic developments of the era To enrich his account White draws from the latest research from across the social sciences economic history anthropology and sociology yet weaves those insights into a highly accessible narrative Along the way he provides a compelling case for why law can be seen as the key to understanding the development of American life as we know it Law in American History Volume II will be an essential text for both students of law and general readers

King of the Lobby Kathryn Allamong Jacob, 2010 King of the Lobby tells the story of how one man harnessed delicious food fine wine and good conversation to the task of becoming the most influential lobbyist of the Gilded Age Sam Ward was a colorful character Scion of an old and honorable family best friend of Henry Wadsworth Longfellow and charming man about Washington Ward held his own in an era crowded with larger than life personalities Living by the motto that the shortest route between a pending bill and a congressman's eye was through his stomach Ward elegantly entertained political elites in return for their votes At a time when waves of scandal washed over Washington the

popular press railed against the wickedness of the lobby and self righteous politicians predicted that special interests would cause the downfall of democratic government Sam Ward still reigned supreme By the early 1870s he had earned the title King of the Lobby and jokingly referred to himself as Rex Vestiari Ward cultivated a style of lobbying that survives today in the form of expensive golf outings extravagant dinners and luxurious vacations Kathryn Allamong Jacob s engaging account shows how the king earned his crown through cookery and conversation and how this son of wealth and privilege helped to create a questionable profession in a city that then as now rested on power and influence

By-elections in British Politics, 1832-1914 Thomas G. Otte, Paul Readman, 2013 Between the 1832 Great Reform Act and the outbreak of World War One in 1914 over 2 600 by elections took place in Britain They were triggered by the death retirement or resignation of sitting MPs or by the appointment of cabinet ministers and were a regular feature of Victorian and Edwardian politics They furnished political parties and their leaders with a crucial tool for gauging and mobilising public opinion Yet despite the prominence of by election contests in the historical records of this period scholars have paid relatively little attention to them As this book shows these elections deserve to be taken as seriously today as people took them at the time They provided important linkages between local and national politics between the four parts of the United Kingdom and Westminster and between foreign and domestic affairs They are vital to understanding the evolving electioneering machineries the varying language of electoral contests the traction that particular issues had with a growing and frequently volatile electorate and the fluctuating fortunes of the political parties This book consisting of original work by leading political historians provides the first synoptic study of this important subject It will be required reading for historians and students of modern British political history as well as specialists in electoral history and politics Publisher s website

Neutrality in Contemporary International Law James Upcher, 2020 While some have argued that neutrality has become irrelevant this volume asserts that neutrality continues to be a key concept of the law of armed conflict Neutrality in Contemporary International Law details the rights and duties of neutral states and demonstrates how the rules of neutrality continue to apply in modern day conflicts

Dispute Resolution Journal , 1996 **Annual Report** American Historical Association, 1926 **Papers relating to the foreign relations of the United States** , 1872 Writings on American History , 1926 *Global Dawn*

Frank Ninkovich, 2009-10-15 Why did the United States become a global power Frank Ninkovich shows that a cultural predisposition for thinking in global terms blossomed in the late nineteenth century making possible the rise to world power as American liberals of the time took a wide ranging interest in the world At the center of their attention was the historical process they called civilization whose most prominent features a global economy political democracy and a global culture anticipated what would later come to be known as globalization The continued spread of civilization they believed provided the answer to worrisome contemporary problems such as the faltering progress of democracy a burgeoning arms race in Europe and a dangerous imperialist competition In addition to transforming international politics a global civilization

quicken by commercial and cultural exchanges would advance human equality and introduce the modern industrial way of life to traditional societies. Consistent with their universalist outlook, liberal internationalists also took issue with scientific racism by refusing to acknowledge racial hierarchy as a permanent feature of relations with nonwhite peoples. Of little practical significance during a period when isolationism reigned supreme in U.S. foreign policy, this rich body of thought would become the cultural foundation of twentieth-century American internationalism.

The Liberty to Take Fish Thomas Blake Earle, 2023-08-15

In *The Liberty to Take Fish*, Thomas Blake Earle offers an incisive and nuanced history of the long American Revolution, describing how aspirations to political freedom coupled with the economic imperatives of commercial fishing roiled relations between the young United States and powerful Great Britain. The American Revolution left the United States with the liberty to take fish from the waters of the North Atlantic. Indispensable to the economic health of the new nation, the cod fisheries of the Grand Banks, the Bay of Fundy, and the Gulf of St. Lawrence quickly became symbols of American independence in an Atlantic world dominated by Great Britain. The fisheries issue was a near-constant concern in American statecraft that impinged upon everything from Anglo-American relations to the operation of American federalism and even to the nature of the marine environment. Earle explores the relationship between the fisheries and the state through the Civil War era, when closer ties between the United States and Great Britain finally surpassed the contentious interests of the fishing industry on the nation's agenda. *The Liberty to Take Fish* is a rich story that moves from the staterooms of Washington and London to the decks of fishing schooners and into the Atlantic itself to understand how ordinary fishermen and the fish they pursued shaped and were in turn shaped by those far-off political and economic forces. Earle returns fishing to its once-central place in American history and shows that the nation of the nineteenth century was indeed a maritime one.

Victorian Periodicals Newsletter, 1976 *Papers Relating to the Foreign Relations of the United States*, United States. Department of State, 1872 **Subject Catalog, 1975**, Library of Congress, 1975 **America, History and Life**, 2007. Article abstracts and citations of reviews and dissertations covering the United States and Canada *A London Bibliography of the Social Sciences*, British Library of Political and Economic Science, 1931. Vols. 1-4 include material to June 1, 1929 **Papers Relating to the Foreign Relations of the United States**, United States. Department of State, 1872
