## **The Accursed Share An Essay On General Economy Consumption:**

**The Accursed Share, Volume I** Georges Bataille, 1988-06-01 In this important work Georges Bataille uses his novel economic theory as the basis for an incisive inquiry into the very nature of civilization He introduces here his concept of the accursed share the surplus energy that any system natural or cultural must expend it is this expenditure according to Bataille that most clearly defines a society His examples include sacrifice among the Aztecs potlatch among the Northwest Coast Indians military conquest in Islam and Buddhist monasticism in Tibet In this way Bataille proposes a theory of a general economy based on excess and exuberance that radically revises conventional economic models of scarcity and utility A brilliant blend of economics and aesthetics ethics and anthropology The Accursed Share provides an excellent introduction to Bataille's philosophic work It will be of particular interest not only to readers of his fiction and essays but also to cultural theorists anthropologists and economists of all schools     The Accursed Share: Consumption Georges Bataille, 1988     **The Accursed Share** Georges Bataille, Most Anglo American readers know Bataille as a novelist The Accursed Share provides an excellent introduction to Bataille the philosopher Here he uses his unique economic theory as the basis for an incisive inquiry into the very nature of civilization Unlike conventional economic models based on notions of scarcity Bataille's theory develops the concept of excess a civilization he argues reveals its order most clearly in the treatment of its surplus energy The result is a brilliant blend of ethics aesthetics and cultural anthropology that challenges both mainstream economics and ethnology     **The Obsessions of Georges Bataille** Andrew J. Mitchell, Jason Kemp Winfree, 2009-10-23 Considers Bataille's work from an explicitly philosophical perspective     **The Consumption Reader** David B. Clarke, Marcus A. Doel, Kate M. L. **Responsibility in Environmental Governance** Tobias Gumbert,2022-10-02 This book provides a comprehensive study of the notion of responsibility in environmental governance It starts with the observation that although the rhetoric of responsibility is indeed all pervasive in environmental and sustainability related fields decisive political action is still lacking Governance architectures increasingly strive to hold different stakeholders responsible by installing accountability and transparency mechanisms to manage environmental problems yet the structural background conditions affecting these issues continue to generate unevenly distributed socially unjust and ecologically devastating consequences Responsibility in Environmental Governance develops the concept of responsibility as an analytical approach to map and understand these dynamics and to situate diverse meanings of responsibility within larger socio political contexts It applies this approach to the study of food waste governance uncovering a narrow governance focus on accountability optimization and consumer behavior change strategies opening up spaces for organizing more democratic solutions to a truly global problem

After Bataille Patrick Ffrench,2017-07-05 Author of the obscene narrative Story of the Eye and of works of heretical philosophy such as Inner Experience Georges Bataille 1897 1962 is one of the most powerful and secretly influential French thinkers of the last century His work is driven by a compulsion to communicate an experience which exceeds the limits of communicative exchange and also constitutes a sustained focus on the nature of this compulsion After Bataille takes this sense of compulsion as its motive and traces it across different figures in Batailles thought from an obsession with the thematics and the event of sacrifice through the exposure of being and of the subject to the necessary relation to others in friendship and in community In each of these instances After Bataille is distinctive in staging a series of encounters between Bataille his contemporaries and critics and theorists who extend or engage with his legacy It thus offers a vital account of the place of Bataille in contemporary thought

**Writing with Deleuze in the Academy** Stewart Riddle,David Bright,Eileen Honan,2018-09-25 In this book authors working with Deleuzean theories in educational research in Australia and the United Kingdom grapple with how the academic writing machine might become less contained and bounded and instead be used to free impulses to generate different creations and connections The authors experiment with

forms of writing that challenge the boundaries of academic language moving beyond the strictures of the scientific method that governs and controls what works and what counts to make language vibrate with a new intensity The authors construct monstrous creations full of vitality and fervor hybrid texts part academic part creative assemblages almost but perhaps not quite recognisable as research Stories that blur the lines between true and untrue re presentation and invention The contributors to this book hope that something might happen in its reading that some new connections might be made but also acknowledge the contingency of the encounter between text and reader and the impossibility of presuming to know what may be

*The Logic of Innovation* Johanna Gibson,2016-03-03 The Logic of Innovation examines not merely the supposed problem of the efficacy and relevance of intellectual property and the nature of innovation and creativity in a digital environment but also the very circumstances of that inquiry itself Social life has itself become a sphere of production but how might that be understood within the cultural and structural transformation of creativity innovation and property Through a highly original interlocutory and therapeutic approach to the issues in play the author addresses the concepts of innovation and the digital by means of an investigation through literature and the imagination of new scenarios for language business and legal reform The book undertakes a complex inquiry into innovation and property through the wonder of Alice s journeys in Wonderland and through the Looking glass The author presents a new theory of familiar production to account for the kinship that has emerged in both informal and commercial modes of innovation and foregrounds the value of use as crucial to the articulation of intellectual property within contemporary models of production and commercialization in the digital

**The Self-Emptying Subject** Alex Dubilet,2018-04-03 Against the two dominant ethical paradigms of continental philosophy Emmanuel Levinas s ethics of the Other and Michel Foucault s ethics of self cultivation The Self Emptying Subject theorizes an ethics of self emptying or kenosis that reveals the immanence of an impersonal and dispossessed life without a why Rather than aligning immanence with the enclosures of the subject The Self Emptying Subject engages the history of Christian mystical theology modern philosophy and contemporary theories of the subject to

rethink immanence as what precedes and exceeds the very difference between the human self and the divine other between the subject and transcendence By arguing that transcendence operates and subjects life in secular no less than in religious domains this book challenges the dominant distribution of concepts in contemporary theoretical discourse which insists on associating transcendence exclusively with religion and theology and immanence exclusively with modern secularity and philosophy The Self Emptying Subject argues that it is important to resist framing the relationship between medieval theology and modern philosophy as a transition from the affirmation of divine transcendence to the establishment of autonomous subjects Through an engagement with Meister Eckhart G W F Hegel and Georges Bataille it uncovers a medieval theological discourse that rejects the primacy of pious subjects and the transcendence of God Eckhart retrieves a modern philosophical discourse that critiques the creation of self standing subjects through a speculative re writing of the concepts of Christian theology Hegel and explores a discursive site that demonstrates the subjecting effects of transcendence across theological and philosophical operations and archives Bataille Taken together these interpretations suggest that if we suspend the antagonistic relationship between theological and philosophical discourses and decenter our periodizing assumptions and practices we might encounter a yet unmapped theoretical fecundity of self emptying that frees life from transcendent powers that incessantly subject it for their own ends

**Politics of the Gift** Gerald Moore,2011-04-24 Gerald

Moore shows how the problematic of the gift drives and illuminates the last century of French philosophy By tracing the creation of the gift as a concept from its origins in philosophy and the social sciences right up to the present Moore shows

Toward a Better Worldliness Terra Schwerin Rowe,2017-04-01 Five hundred years ago the Protestant Reformation inspired profound theological ecclesial economic and social transformations But what impact does the Protestant tradition have today And what might it have This volume addresses such questions focusing on the economic and ecological implications of the Protestant doctrine of grace In the late twentieth century a number of Protestant scholars countered Max Weber s famous work on Protestantism and capitalism by arguing that Calvin and Luther were prophetic critics of early capitalist practices While acknowledging the importance of this scholarship Terra Rowe argues that a more nuanced approach is necessary This narrative tends to purify Protestantism of capitalist beginnings and does not account for compelling arguments articulated by proponents of Radical Orthodoxy tying Protestantism and Protestant grace in particular to capitalism These debates now emerge with increasing urgency in the face of growing economic injustice and overwhelming evidence of an ecologically unsustainable economic system demonstrated most potently by climate change In the spirit of ecotheologies resonating with the best of the Reformation tradition this book develops a fresh reading of Luther s theology of grace and his economic ethics in conversation with current reflections on concepts of the gift and gifting practices

**I Swear I Saw This** Michael Taussig, 2011-10-20 I Swear I Saw This records visionary anthropologist Michael Taussig's reflections on the fieldwork notebooks he kept through forty years of travels in Colombia Taking as a starting point a drawing he made in Medellin in 2006 as well as its caption I swear I saw this Taussig considers the fieldwork notebook as a type of modernist literature and the place where writers and other creators first work out the imaginative logic of discovery Notebooks mix the raw material of observation with reverie juxtaposed in Taussig's case with drawings watercolors and newspaper cuttings which blend the inner and outer worlds in a fashion reminiscent of Brion Gysin and William Burroughs's surreal cut up technique Focusing on the small details and observations that are lost when writers convert their notes into finished pieces Taussig calls for new ways of seeing and using the notebook as form Memory emerges as a central motif in I Swear I Saw This as he explores his penchant to inscribe new recollections in the margins or directly over the original entries days or weeks after an event This palimpsest of afterthoughts leads to ruminations on Freud's analysis of dreams Proust's thoughts on the involuntary workings of memory and Benjamin's theories of history fieldwork Taussig writes provokes childhood memories with startling ease I Swear I Saw This exhibits Taussig's characteristic verve and intellectual audacity here combined with a revelatory sense of intimacy He writes drawing is thus a depicting a hauling an unraveling and being impelled toward something or somebody Readers will exult in joining Taussig once again as he follows the threads of a tangled skein of inspired associations
