## **The Age Of Impressionism The Metropolitan Museum Of Art:**

*The Age of Impressionism at the Art Institute of Chicago* Art Institute of Chicago, Gloria Lynn Groom, Douglas W. Druick, 2008 Published on the occasion of a historic exhibition of the Art Institute's collection at Kimbell Art Museum Fort Worth

**Color in the Age of Impressionism** Laura Anne Kalba, 2017-04-21 This study analyzes the impact of color making technologies on the visual culture of nineteenth century France from the early commercialization of synthetic dyes to the Lumière brothers' perfection of the autochrome color photography process Focusing on Impressionist art Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas, Pierre Auguste Renoir and Claude Monet The proliferation of vibrant new colors in France during this time challenged popular understandings of realism, abstraction and fantasy in the realms of fine art and popular culture More than simply adding a touch of spectacle to everyday life Kalba shows these bright, varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color Impressionism emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification mirrored and mediated this change shaping the ways in which people made sense of both modern life and modern art Demonstrating the central importance of color history and technologies to the study of visuality *Color in the Age of Impressionism* adds a dynamic new layer to our understanding of visual and material culture

**Origins of Impressionism** Gary Tinterow, Henri Loyrette, 1994 This handsome publication which accompanies a major exhibition at The Metropolitan Museum of Art is a lively and engaging account of the artistic scene in Paris in the 1860s the years that witnessed the beginnings of Impressionism For the first time the interactions and relationships among the group of painters who became known as the Impressionists are examined without the overworn art historical polarities commonly evoked: academic versus avant garde, classicist versus romantic, realist versus impressionist A host of strong personalities contributed to this history and their style evolved into a new way of looking at the world These artists wanted above all to give an impression of truth and to have an impact on or even to shock the public And they wanted to measure up to or surpass their elders This complex and rich environment is presented here: the grand old men and the young Turks encounter each other the Salon pontificates and the new generation moves fitfully ahead, benignly but always with determination *Origins of Impressionism* gives a day by day, year by year study of the genesis of an epoch making style Bibliographies and provenances are provided for each of the almost two hundred works in the exhibition and there is an illustrated chronology With more than two hundred superb color plates this informative survey is an essential work for both the general reader and the scholar

**Realism in the Age of Impressionism** Marnin Young, 2015-01-01 The late 1870s and early 1880s were watershed years in the history of French painting As outgoing economic and social structures were being replaced by a capitalist measured time Impressionist artists

sought to create works that could be perceived in an instant capturing the sensations of rapidly transforming modern life Yet a generation of artists pushed back against these changes spearheading a short lived revival of the Realist practices that had dominated at mid century and advocating slowness in practice subject matter and beholding In this illuminating book Marnin Young looks closely at five works by Jules Bastien Lepage Gustave Caillebotte Alfred Philippe Roll Jean Francois Raffaeelli and James Ensor artists who shared a concern with painting and temporality that is all but forgotten today having been eclipsed by the ideals of Impressionism Young s highly original study situates later Realism for the first time within the larger social political and economic framework and argues for its centrality in understanding the development of modern art

**The Bulletin of the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.),1921 New ser v 6 10 include 77th 81 Report of the trustees 1946 50 previously published separately **Impressionism** John I. Clancy,2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes *The Age of French Impressionism* Art Institute of Chicago,Gloria Lynn Groom,Douglas W. Druick,2010 Presents a collection of more than one hundred French impressionist paintings found in the Art Institute of Chicago *American Impressionism & Realism* Helene Barbara Weinberg,Queensland Art Gallery,2009 An exhibition publication featuring curatorial essays and works from the Metropolitan Museum of Art New York [The Annenberg Collection](#) Metropolitan Museum of Art (New York, N.Y.),Colin B. use of colour their application of strokes of complementary or contrasting hues captured the shifting effects of light and foregrounded the nature of vision Using colour as the lens through which to magnify the movement s intricacies this catalogue sweeps us from Manet s rich blacks through green and blue landscapes of Monet and C zanne to the sensuous pinks of Renoir Along this journey scientific discoveries and emerging definitions of modernity are explored illuminating the profound innovations of the Impressionists and the shifting preconceptions of their art **Library Catalog of the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.). Library,1977 *Monet's Minutes* Andr  Dombrowski,2023-01-01 A stunning exploration of the vital links between Claude Monet s Impressionism and the time technologies that helped define modernity in the nineteenth century Monet s Minutes is a revelatory account charting the relationship between the works of Claude Monet 1840 1926 founder of French Impressionism and one of the world s best known painters and the modern experience of time Andr Dombrowski illuminates Monet s celebration of instantaneity in the context of the late nineteenth century time technologies that underwrote it Monet s version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time but until now scholars have not examined the histories and technologies of time and timekeeping that informed Impressionism s major stylistic shifts Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and standardized time Monet s Minutes traces the evolution of Monet s art to what were then seismic shifts in the shape of time itself In each chapter Dombrowski focuses on the connections between a set of Monet s works and a specific technology or experience of time while providing the voices of period critics responding to Impressionism Grounded in exceptional research and analyses this book offers new interpretations of key works by Monet and a fresh perspective on late nineteenth century art society and modern temporality

**American Paintings in the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.),John Caldwell,Oswaldo Rodriguez Roque,1980 One of three chronologically arranged catalogues that document the Metropolitan Museum s outstanding collection of American paintings *The Impressionist Print* Michel Melot,1996-01-01 A print can sometimes tell us more than a painting about the history of art Michel Melot illustrates his thesis in this book analysing relationships between artists the art market the critics collectors and political institutions This fresh approach reveals Impressionism not as a sort of miracle but as a response to economic and social upheaval This original view of a key movement in the history of art allows the reader to understand its decisive effect on all the subsequent generations who have contributed to maintaining the tradition of the belle epreuve **Library Catalog of the Metropolitan Museum of Art, New York. Supplement** Metropolitan Museum of Art (New York, N.Y.).
