temenos at Tel er Rub a Mendes material that was previously published in the ATP newsletter by the Akhenaten Temple Project now discontinued **Theological Principles of Egyptian Religion** Vincent Ariele Tobin, 1989 This study approaches the religion of ancient Egypt from a theological stance treating the mythic corpus of Egypt not as a mere collection of legends and traditions about the gods but rather as a carefully constructed system of mythic symbolism The author demonstrates that the mythic system of ancient Egypt was an articulation of a highly sophisticated and intellectual theological insight into the nature of the universe an insight which produced an integrated perception of reality and expressed the basic order and unity apparent to the Egyptian mind in all levels of existence The result is a work which shows Egyptian religion as a unified statement about the universe rather than a haphazard mass of mythic material The Art of Amenhotep III Lawrence Michael Berman, 1990
