The Alien In Their Midst Images Of Jews In English Literature:

Jewish Presences in English Literature Derek Cohen, Deborah Heller, 1990 In a collection of insightful critical essays Derek Cohen Deborah Heller and the contributing authors explore the different ways in which writers of English literature have amplified varied or denied this archetypical perception **The Alien in Their Midst** Esther L. Loathsome Jews and Engulfing Women Andrea Freud Loewenstein, 1995-06-01 A remarkable study one that I recommend to any reader fascinated by the shaping of culture and the power of the psyche The Forward How typical of his generation was T S Eliot when he complained that Hitler made an intelligent anti semitism impossible for a generation In her new book *Loathsome Jews and Engulfing Women* novelist and critic Andrea Freud Loewenstein examines the persistent anti semitic tendencies in modernist British intellectual culture Pursuing her subject with literary historical and psychological analyses Loewenstein argues that this anti semitism must be understood in terms of its metaphorical link with misogyny Situated in the context of the history of Jews in Britain *Loathsome Jews and Engulfing Women* begins by questioning the widespread belief that the British government was a friend to the Jews in the 30s and 40s Loewenstein shows that as evident in the hypocrisy of many British governmental policies prior to and during WWII Britain actively collaborated in the Jews destruction Against the backdrop of this tragic complicity in the Holocaust Loewenstein evaluates Jewish stereotypes in the works of three representative twentieth century British thinkers and writers Her analysis provides a revealing critique of British modernism In a larger sense *Loathsome Jews and Engulfing Women* explores the riddle of prejudice Loewenstein argues that anti semitism is nurtured in an environment populated by other hatreds misogyny homophobia and racism To explain the interaction of these prejudices she develops an investigative model grounded in object relations theory and informed by the works of such theoretically diverse authors as Virginia Woolf Kate Millett and Alice Miller Loewenstein lucidly argues within an autobiographical framework insisting on the need for critics to look within ourselves for that terrible other rather than to complacently assume that we ourselves exist outside the ideology of power This well written and readable book will be of interest to many people ranging students of British history to psychoanalysts from historians of Jewish culture to anyone interested in feminist and literary theory *"The Sins of Madame Eglentyne", and Other Essays on Chaucer* Richard Rex, 1995 The essays in this single author collection are principally concerned with Madame Eglentyne the demure and elegant prioress depicted in Chaucer's *Canterbury Tales* Richard Rex contends that how we think about Chaucer as a Christian depends largely on our interpretation of the Prioress's Tale which in turn is linked to the brilliant portrait of Madame Eglentyne in the General Prologue *Women's Poetry and Religion in Victorian England* Cynthia Scheinberg, 2002-05-30 Victorian women poets lived in a time when religion was a vital aspect of their identities Cynthia Scheinberg examines Anglo Jewish Grace Aguilar and Amy Levy and Christian Elizabeth Barrett Browning and Christina Rossetti women poets and argues that there are important connections between the discourses of nineteenth century poetry

gender and religious identity Further Scheinberg argues that Jewish and Christian women poets had a special interest in Jewish discourse calling on images from Judaism and the Hebrew Scriptures their poetry created complex arguments about the relationships between Jewish and female artistic identity She suggests that Jewish and Christian women used poetry as a site for creative and original theological interpretation and that they entered into dialogue through their poetry about their own and each other s religious and artistic identities This book s interdisciplinary methodology calls on poetics religious studies feminist literary criticism and little read Anglo Jewish primary sources **An American Jewish Odyssey** Cipora O. Schwartz,2007 **Myth and National Identity in Nineteenth-Century Britain** Stephanie Barczewski,2000-03-02

Scholars have become increasingly interested in how modern national consciousness comes into being through fictional narratives Literature is of particular importance to this process for it is responsible for tracing the nations evolution through glorious tales of its history In nineteenth century Britain the legends of King Arthur and Robin Hood played an important role in construction of contemporary national identity These two legends provide excellent windows through which to view British culture because they provide very different perspectives King Arthur and Robin Hood have traditionally been diametrically opposed in terms of their ideological orientation The former is a king a man at the pinnacle of the social and political hierarchy whereas the latter is an outlaw and is therefore completely outside conventional hierarchical structures The fact that two such different figures could simultaneously function as British national heroes suggests that nineteenth century British nationalism did not represent a single set of values and ideas but rather that it was forced to assimilate a variety of competing points of view *A History of European Literature* Walter Cohen,2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of todays global literary system The distinctiveness of European literature is to be found in these interrelated trajectories **Christopher Marlowe and**

English Renaissance Culture Darryll Grantley, Peter Roberts, 2018-08-13 First published in 1996 this volume asked the question who and what was Christopher Marlowe Dramatist poet atheist and possible spy he was a man in contrast with his time The authors here gather to explore Marlowe on the four hundredth anniversary of his death They include significant interdisciplinary elements and focus on dramaturgy textual criticism and biography It is hoped that the diversity of approaches can further debates on both Marlowe and Renaissance culture

Jewish Law and American Law, Volume 2 Samuel J. Levine, 2021-02-16 This volume contributes to the growing field of comparative Jewish and American law presenting twenty six essays characterized by a number of distinct features The essays will appeal to legal scholars and at the same time will be accessible and of interest to a more general audience of intellectually curious readers These contributions are faithful to Jewish law on its own terms while applying comparative methods to offer fresh perspectives on complex issues in the Jewish legal system Through careful comparative analysis the essays also turn to Jewish law to provide insights into substantive and conceptual areas of the American legal system particularly areas of American law that are complex controversial and unsettled

How the West Became Antisemitic Ivan G. Marcus, 2024-06-11 An examination of how the Jews real and imagined so challenged the Christian majority in medieval Europe that it became a society that was religiously and culturally antisemitic in new ways In medieval Europe Jews were not passive victims of the Christian community as is often assumed but rather were startlingly assertive forming a Jewish civilization within Latin Christian society Both Jews and Christians considered themselves to be God's chosen people These dueling claims fueled the rise of both cultures as they became rivals for supremacy In *How the West Became Antisemitic* Ivan Marcus shows how Christian and Jewish competition in medieval Europe laid the foundation for modern antisemitism Marcus explains that Jews accepted Christians as misguided practitioners of their ancestral customs but regarded Christianity as idolatry Christians on the other hand looked at Jews themselves not Judaism as despised They directed their hatred at a real and imagined Jew theoretically subordinate but sometimes assertive an implacable enemy within In their view Jews were permanently and physically Jewish impossible to convert to Christianity Thus Christians came to hate Jews first for religious reasons and eventually for racial ones Even when Jews no longer lived among them medieval Christians could not forget their former neighbors Modern antisemitism based on the imagined Jew as powerful and world dominating is a transformation of this medieval hatred A sweeping and well documented history of the rivalry between Jewish and Christian civilizations during the making of Europe *How the West Became Antisemitic* is an ambitious new interpretation of the medieval world and its impact on modernity

Jewish Curriculum and Resource Guide for the Armed Forces, 1985 [Anglo-Saxon England: Volume 28](#) Michael Lapidge, Malcolm Godden, Simon Keynes, 2000-06-22 This volume is framed by articles that throw interesting light on the achievement and reputation of the greatest of Anglo Saxon kings Alfred [James Joyce's Judaic Other](#) Marilyn Reizbaum, 1999 How does recent scholarship on ethnicity and race speak to the Jewish dimension of James Joyce's writing

What light has Joyce himself already cast on the complex question of their relationship This book poses these questions in terms of models of the other drawn from psychoanalytic and cultural studies and from Jewish cultural studies arguing that in Joyce the emblematic figure of otherness is the Jew The work of Emmanuel Levinas Sander Gilman Gillian Rose Homi Bhabha among others is brought to bear on the literature by Jews and non Jews alike that has forged the representation of Jews and Judaism in this century Joyce was familiar with this literature like that of Theodor Herzl Joyce scholarship has largely neglected even these sources however including Max Nordau who contributed significantly to the philosophy of Zionism and the literature on the psychobiology of race so prominent in the fin de siècle all of which circulates around and through Joyce's depictions of Jews and Jewishness Several Joyce scholars have shown the significance of the concept of the other for Joyce's work and more recently have employed a variety of approaches from within contemporary deliberations of the ideology of race gender and nationality to illuminate its impact The author combines these approaches to demonstrate how any modern characterization of otherness must be informed by historical representations of the Jew and consequently by the history of anti-Semitism She does so through a thematics and poetics of Jewishness that together form a discourse and method for Joyce's novel

Christopher Marlowe Richard Wilson, 2014-07-15 Christopher Marlowe has provoked some of the most radical criticism of recent years There is an elective affinity it seems between this pre-modern dramatist and the post-modern critics whose best work has been inspired by his plays The reason suggested by this collection of essays is that Marlowe shares the post-modern preoccupation with the language of power and the power of language itself As Richard Wilson shows in his introduction it is no accident that the founding essays of New Historicism were on Marlowe nor that current Queer Theorists focus so much on his images of gender and homosexuality Marlowe staged both the birth of the modern author and the origin of modern sexual desire and it is this unique conjunction that makes his drama a key to contemporary debates about the state and the self from pornography to gays in the military Gay Studies Cultural Materialism New Historicism and Reader Response Criticism are all represented in this selection which the introduction places in the light not only of theorists like Althusser Bataille and Bakhtin but also of artists and writers such as Jean Genet and Robert Mapplethorpe Many of the essays take off from Marlowe's extreme dramatisations of arson cruelty and aggression suggesting why it is that the thinker who has been most convincingly applied to his theatre is the philosopher of punishment and pain Michel Foucault Others explore the exclusiveness of this all-male universe and reveal why it remains so offensive and impenetrable to feminism For what they all make disturbingly clear is Marlowe's violent untamed difference from the
