Abstract

Representation of the enduring impact of memory on the fictional characters' minds has a crucial function in the construction of narrative plots in Ian McEwan's oeuvre. The construction of story world in McEwan's most recent novel *Lessons* (2022) is based on the abiding impact of memory on the central character's mental functioning throughout a long period of time. Storytelling in *Lessons* is tantamount to memory and acts of remembering. McEwan highlights the centrality of memory in *Lessons* by using a retrospective mode of narration. The third person narrator primarily traces the long-lasting effects of two formative experiences on Roland Baines's mind and behaviour throughout his entire life. However, his recollections and acts of remembering, as recounted and reported through the narrator's mediating perspective, ultimately fail to resolve Roland's inner turmoil. Rather, by revisiting two people whose memories have long troubled him, he revises his own memories, which greatly helps him to come to terms with his past. Therefore, as this paper argues, while consecutive acts of remembering in *Lessons* largely confine the central character to the limited atmosphere of his own perspective, his dialogues with two women from his life about their shared experiences foster his ability to adopt different perspectives and reframe his perception of himself and the others.

Keywords: Storytelling, retrospective narration, memory, perspective taking, *Lessons*, Ian McEwan

1. Introduction

The contemporary British novelist Ian McEwan (b. 1948) is a European writer in the sense that he consistently explores the profound impact of remembering in his oeuvre. In Suzanne Nalbantian's words: "A remembering human subject stands out in Western literature" (1). The act of remembering has a crucial function in the construction of narrative plots as much as in the formation and functioning of the characters' consciousness in McEwan's novels. McEwan achieves the impact of past events on the characters' present moment perceptions through retrospective mode of narration, which is nearly a standard practice in narrative representations. The characters' remembering process allows them to modify and revise their perspectives towards their lives through reviewing and re-examining their experiences at different stages in their past. To put it otherwise, the act of remembering is a prime aspect of the contemplating fictional minds in McEwan's fiction. Memory, therefore, changes into their device to overcome the splitting nature of time. Memory simultaneously connects characters to their past and formulates the construction of their identity in the present time. Memory in McEwan's fiction mostly transforms the central characters' lives from a linear order into a circular one.

Concern with memory and remembering acts are recurring themes in McEwan's fiction. Memory plays a central role in the construction of both narrative plots and fictional characters in his works. In Imogene Ash's words, "McEwan uses memory in his novels as a form of control for his narrator, as the information that is recalled in a reconstructive narrative" and "is highly selective." Reviewers of McEwan's fiction also highlight the centrality of the past and the acts of remembering in McEwan's

The Ambivalent Force Arthur Niederhoffer, Abraham S. Blumberg, 1976 Various assessments of some major features of the police occupation and role by psychiatrists attorneys administrators and others are presented in this collection of papers The volume stresses the uncertainties ambiguities and ambivalences of the police role in society in the past and present which are likely to persist in the foreseeable future Historical similarities are revealed in the relative permanence and continuity of the problems of the police as they confront violent and disruptive events in every epoch Suggestions and predictions with regard to the future roles of the police are made The organizational and institutional constraints of the police system are examined with particular attention to the bureaucratic qualities that determine the lifestyles career lines and policy decisions of police organizations It is said that the police share many of the dilemmas and unresolved conflicts of professionalization common to other occupations The police world view is examined and the sources of their values of loyalty authoritarianism and defensiveness are explored They are compared with other professional groups which undergo a similar estrangement as they become more experienced in their work situation Several articles deal with the issue of police corruption A chapter on police discretion analyzes some factors which affect a police officer's virtually uncontrolled discretion in the performance of his duty The problems of police work relations with urban communities are discussed including the causes of the constantly high level of hostility toward police An overview of legal issues that touch upon the police is presented Critiques of the police by a number of persons are offered and suggestions for necessary changes are made The final chapter contains perceptions of several authorities on the directions law enforcement will follow in the next few decades

The Ambivalent Detective in Victorian Sensation Novels Sarah Yoon, 2024-04-02 *The Ambivalent Detective in Victorian Sensation Novels* studies how the detective as a literary character evolved through the mid nineteenth century in England as seen in sensation novels In contrast to most assumptions about the English detective Yoon argues that the detective was more often tolerated than admired following the establishment of professional detectives in the London Metropolitan Police Force in 1842 Through studying the historical and literary contexts between the 1840s to the 1860s Yoon argues that the detective was seen as a suspicious even mistrusted and disdained figure who was nonetheless viewed as necessary to combat rising levels of crime The detective as a literary character responded to the often contradictory values and aspirations of the middle class representing an independent masculinity and laying claim to scientific authority This study surveys novels by Charles Dickens Mary Elizabeth Braddon and Wilkie Collins alongside lesser known writers like William Russell James Redding Ware pseudonym Andrew Forrester and William Stephens Hayward This book contributes to the study of mid nineteenth century Victorian culture and connects with broader studies of the detective fiction genre

The Ambivalent Force Abraham S. Blumberg, 1970 *The Ambivalent State* Javier Auyero, Katherine Sobering, 2019 Over the last few decades debates about policing in poor urban areas have turned from analyzing the state's neglect and

abandonment into documenting its harsh interventions and punishing presence Yet we know very little about the covert world of state action that is hidden from public view In *The Ambivalent State* Javier Auyero and Katherine Sobering offer an unprecedented look into the clandestine relationships between police agents and drug dealers in Argentina Drawing on a unique combination of ethnographic fieldwork and documentary evidence including hundreds of pages of wiretapped phone conversations they analyze the inner workings of police criminal collusion its connections to drug markets and how it promotes cynicism and powerlessness in daily life They argue that an up close examination of covert state action exposes the workings of an ambivalent state one that both enforces the rule of law and functions as a partner in criminal behavior *The Ambivalent State* develops a political sociology of violence that focuses not only on what takes place in police stations courts and poor neighborhoods but also the clandestine actions and interactions of police judges and politicians that structure daily life at the urban margins

Finding Faith in Foreign Policy Gregorio Bettiza, 2019-06-04 Since the end of the Cold War religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains US foreign policymakers for instance have been increasingly tasked with monitoring religious freedom and promoting it globally delivering humanitarian and development aid abroad by drawing on faith based organizations fighting global terrorism by seeking to reform Muslim societies and Islamic theologies and advancing American interests and values more broadly worldwide by engaging with religious actors and dynamics Simply put religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago In *Finding Faith in Foreign Policy* Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews He argues that American foreign policy and religious forces have become ever more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy leading the most powerful state in the international system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe Drawing from a rich evidentiary base spanning twenty five years *Finding Faith in Foreign Policy* details how a wave of religious enthusiasm has transformed not just American foreign policy but the entire international system

The HKP Hong Kong Police Asia's Finest is a battle tested professional organization with strong leadership competent staff and deep culture It is also a continuously learning and reforming agency in pursuit of organisational excellence Policing in Hong Kong History and Reform is the first and only book on the development of the Hong Kong The Law and Society Canon Carroll Seron, 2018-02-06 This volume presents seminal monographs that continue to shape the contemporary discipline of law and society Long before the turn toward cultural analysis of social institutions socio legal scholars demonstrated the ways in which law and its activities is contingent on the context of time place and hierarchy The works selected for this volume demonstrate this foundational principle of the discipline of law and society **Air Force roles and missions: A History**, 1998 The twentieth century witnessed the emergence of three dimensionality in war surface forces flow became prey for attackers operating above and below the earth and its oceans The aerial weapon prophesied for centuries became a reality as did air power projection forces This insightful book by Warren A Trest traces the doctrinal underpinnings of the modern United States Air Force the world's only global air force We the men and women who serve in the Air Force but also our fellow airmen in America's other military services are the heirs and beneficiaries of a long heritage of doctrinal development and military thought Our predecessors pursued a vision of airborne global reach and power that often put them at odds with those who could not break free of the confines of conventional thought and lock step traditionalism Fortunately they had the courage of their convictions and the faith in their vision to continue to pursue the goal of global air power despite such resistance Today America is a genuine aerospace power and that pioneering vision dating to the days of the Wright brothers has expanded to encompass operations in space and between the mediums of air and space As we approach the new millennium it is well to ponder the lessons and the history of how a small group of truly gifted airmen transformed their nation's military establishment and in so doing the world around them *The Ambivalence of Gay Liberation* Craig Griffiths, 2021 This book explores the different ways West Germans thought about and discussed being queer in the 1970s a decade in the midst of the Cold War sandwiched between the decriminalisation of homosexuality in 1969 and the HIV AIDS crisis in the early 1980s **Straight Through the Heart** Franz Birgel, Klaus Phillips, 2004 In addition to the articles this volume includes an interview with Doris Dorrie and the filmmaker's own English translation of her original script for Nobody Loves Me Jacket **Crime, Delinquency and Justice** Ramesh Deosaran, 2007 This reader presents fresh insights on the rapidly expanding and changing crime related problems in the Caribbean as well as provides information on new dimensions of crime and criminology that are occurring with increasing regularity A path breaking and comprehensive work Crime Delinquency and Justice A Caribbean Reader has come at a time when all societies in the Caribbean region are grappling with crime in all its forms and when the structure of the justice system on which all these societies are founded is being challenged to adjust to changes in society locally and internationally The work addresses both theoretical and practical issues indicated by the broad range of areas covered including Theorizing a Caribbean Criminology

Juvenile Delinquency and Public Policy Domestic Violence and the Criminal Justice System Community Policing Police Styles and Use of Force Corrections Crime Statistics the Jury System Drug Trafficking Terrorism Social Upheaval and Political Violence and Human Trafficking Much of the contributions are research and data driven and overall have policy development as their focus This makes the volume suitable for courses in criminology and criminal justice at both the undergraduate and graduate levels as well as for specialist courses in various aspects of policing and law enforcement The Philosophy of Force Christopher J Finlay,2025-05-06 The Philosophy of Force presents a highly original republican theory of just war Taking its inspiration from historic wars against slavery and colonialism it offers an account of the ethics of defensive violence shaped around the perspective of those oppressed by empire and other forms of social and political domination Whereas the most intuitive cases of just war are often thought to be those fought against mass killing more can be learnt about the ethics of violence by focusing on wars against mass domination wars like the slave revolt in Saint Domingue that gave birth to Haiti and the American Civil War s emancipation of enslaved people By contrast with liberal cosmopolitan ethics this book argues that the right analytical starting point for thinking about war and political violence is the use of lethal force to defend against enslavement not the defence of lives against attempted murder Enslavement highlights the importance of dominating power as a facet of all violent threats and illuminates more fully than other types of threat the intimate relationships between violence vulnerability and social domination Building a republican account of war ethics around this insight helps identify distinctively political dimensions of violence that are otherwise apt to be overlooked It provides a compelling basis for understanding the legitimacy of armed defence against a wide range of threats some lethal some not

The Ambivalence of Power in the Twenty-First Century Economy Vadim Radaev,Zoya Kotelnikova,2022-07-07 The Ambivalence of Power in the Twenty First Century Economy contributes to the understanding of the ambivalent nature of power oscillating between conflict and cooperation public and private global and local formal and informal and does so from an empirical perspective It offers a collection of country based cases as well as critically assesses the existing conceptions of power from a cross disciplinary perspective The diverse analyses of power at the macro meso or micro levels allow the volume to highlight the complexity of political economy in the twenty first century Each chapter addresses key elements of that political economy from the ambivalence of the cases of former communist countries that do not conform with the grand narratives about democracy and markets to the dual utility of new technologies such as face recognition thus providing mounting evidence for the centrality of an understanding of ambivalence in the analysis of power especially in the modern state power driven capitalism Anchored in economic sociology and political economy this volume aims to make visible the dimensions of power embedded in economic practices The chapters are predominantly based on post communist practices but this divergent experience is relevant to comparative studies of how power and economy are interrelated **Beyond Rationalism** Bruce Kapferer,2003-02-01 This book seeks a reconsideration of the phenomenon of sorcery and related

categories The contributors to the volume explore the different perspectives on human sociality and social and political constitution that practices typically understood as sorcery magic and ritual reveal In doing so the authors are concerned to break away from the dictates of a western externalist rationalist understanding of these phenomena without falling into the trap of mysticism The articles address a diversity of ethnographic contexts in Africa Asia the Pacific and the Americas
