The American Moment American Poetry In The Mid Century:

The American Moment Geoffrey Thurley, 1977 The Grounding of American Poetry Stephen Fredman, 1993-05-28
His argument focuses on four pairs of poets Eliot Williams Thoreau Olson Emerson Duncan and Whitman Creeley and points out that although Williams Olson Duncan and Creeley are all influenced by these predecessors to some extent ultimately their poetry is paradoxically grounded in an essential groundlessness Encyclopedia of American Poetry: The Twentieth Century Eric L. twentieth century poetry were exhausted and finite. However, the volume also looks forward to the poetry and readings that the new century will bring. The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries, a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism. Representation of the canonical and the marginal is therefore balanced, including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions. Discussion of context, intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period, whilst a Readings section offers new readings of key selected texts. The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century. *Articulate Flesh* Gregory Woods, 1987-01-01. Arguing that homosexual poetry is part of the mainstream of poetic writing, not a distinct and differentiated category within it, Gregory Woods provides a fastidious study of homosexual poetry in the twentieth century that emphasizes the homo erotic themes in the works of D. H. Lawrence, Hart Crane, W. H. Auden, Allen Ginsberg and Thom Gunn. Woods's controlled and elegant study demonstrates that a critic who ignores the sexual orientation of a poet, particularly a love poet, risks overlooking the significance of the poetry itself. *The Postmoderns* Donald Allen, George F. Butterick, 1982. This anthology includes many of the major poets to have emerged and gained pre eminence since World War II and whose writing reflects not only the significant changes in this nation's postwar history and the coming to grips with a nuclear age, but also an entirely new way of looking at and structuring reality. United by their postmodernist concerns with spontaneity, instantism, formal and syntactic flexibility and the revelation of both the creator and the process through the writing itself, these 38 poets represent very diverse strains of an essential American individualism. Included are many of the poets whose work first gained widespread national attention with the 1960 publication of *The New American Poetry*: Charles Olson, Allen Ginsberg, Paul Blackburn, LeRoi Jones, Amiri Baraka, Denise Levertov, Robert Duncan and others. Among the poets included here for the first time are Anne Waldman, Diane di Prima, Ed Sanders, Jerome Rothenberg and James Koller. In addition to a new preface by Allen and Butterick, the book provides autobiographical notes of all the poets and listings of their major works. *Back from the Far Field* Bernard W. Quetchenbach, 2000. Many poets writing after World War II have found the individual focus of contemporary poetics poorly suited to making statements directed at public issues and public ethics. The desire to invest such individualized poetry with greater cultural authority presented difficulties for Vietnam protest poets, for example, and it has been a particular challenge for nature writers in the Thoreau tradition who have attempted to serve as advocates for the natural world. Examining the implications of this dilemma, Bernard W. Quetchenbach locates the poets Robert Bly, Gary Snyder and Wendell Berry within two traditions: the American nature writing tradition and the newer tradition of contemporary poetics. He compares the work of two other twentieth century poets, Robinson Jeffers and Theodore Roethke, to illustrate how the contemporary shift toward a poetics focused on the poet's life has affected portrayals of nature.

and the public voice in poetry Turning back to the work of Bly Snyder and Berry Quetchenbach assesses their attempts to reinvent the public voice in the context of contemporary poetics and what effect these attempts have had on their work He argues that these poets have learned from their postwar generation techniques for adapting a personalized poetics to environmental advocacy In addition to modifying what critics have called the poetics of immediacy these poets have augmented their poetic output with prose and identified themselves with long standing traditions of poetic ethical and spiritual authority In doing so Bly Snyder and Berry have attempted to solve not only a problem inherent in contemporary poetics but also the larger problem of the role of the poet in a society that does not recognize poetry While it would be an overstatement to suggest that these three figures have found a place for the poet in American life they have reached audiences that extend beyond traditional readers of poetry At the end of the twentieth century Quetchenbach concludes poets have begun to identify and direct their writing to specific audiences defined less by aesthetic preferences and more by a shared interest in and dedication to the work s subject matter Whether revealing a disturbing trend for poetry or an encouraging one for environmentalism and other political causes it is one of many provocative conclusions Quetchenbach draws from his examination of postwar nature poetry *Prophesy Deliverance! 40th Anniversary Expanded Edition* Cornell West, 2022-11-08 In this his premiere work Cornel West challenges African Americans to consider the incorporation of Marxism into their theological perspectives thereby adopting the mindset that it is class more so than race that renders one powerless in America His work reflects political and cultural perspectives borne out of his own formative life experiences Decades later his arguments continue to capture the theological imagination of many and influence the critical engagement of generations of scholars In this fortieth anniversary edition West invites six prominent scholars whose respective work are grounded in various aspects of black political cultural and theological thought into dialogue with this work each writing one chapter plus a foreword by Jonathan Lee Walton Continuing and expanding on the revolutionary discourses that West introduced in the first published work each new essay provides nuanced lens for thinking about movements of liberation in today s African American communities *The Incorporative Consciousness of Robert Bly* Victoria Frenkel Harris, 1992 Victoria Frenkel Harris traces the aesthetic journey of poet Robert Bly from his early structured works of mystical imagery and lyrical landscapes to his recent explorations of intimate relationships and male socialization Examining the various ways Bly s prose poems articulate his opposition to the Vietnam War and his recent writings manipulate more formal patterns in detailing the intricacies of human relationships Harris labels this evolution in form subject and imagery the incorporative consciousness incorporative because it assimilates Jungian psychological categories international poetic traditions and a compelling breadth of topics Harris relies in part on contemporary feminist theory to throw revealing new light on Bly s recent works Though sympathetic to Bly Harris finds that in spite of his affirmation of the interaction of psychic creative and intellectual energies in both sexes the poet s later erotic poems tend to objectify women in counterproductive ways Bly s

idealization of woman as a Jungian universal Harris contends can blind him toward actual women Harris is at her best as she delimits with balance and precision the full complexity of the poet's work
