## Teaching Of Classics:

**Teaching Classics in English Schools, 1500-1840** Matthew Adams, 2016-01-14 This book provides a concise and engaging history of classical education in English schools beginning in 1500 with massive educational developments in England as humanist studies reached this country from abroad it ends with the headmastership of Thomas Arnold of Rugby School who died in 1842 and whose influence on schools helped secure Latin and Greek as the staple of an English education By examining the pedagogical origins of Latin and Greek in the school curriculum the book provides historical perspective to the modern study of Classics revealing how and why the school curriculum developed as it did The book also shows how schools responded and adapted to societal needs and charts social change through the prism of classical education in English schools over a period of 350 years Teaching Classics in English Schools 1500 1840 provides an overview and insight into the world of classical education from the Renaissance to the Victorians without becoming entrenched in the analytical in depth interpretative questions which can often detract from a book s readability The survey of classical education within the pages of this book will prove useful for anyone wishing to place the teaching of Classics in its cultural and educational context It includes previously unpublished material and a new synthesis and analysis of the teaching of Classics in English schools This will be the perfect reference book for those who teach classical subjects in both schools and universities and also for university students who are studying Classical Reception as part of their taught or research degree It will also be of interest to many schools of older foundation mentioned in this book and to anyone with leanings towards the history of education or English social history
