The goal of this fourth volume of RISE was to provide a research foundation that demonstrates an agenda to strengthen the preparation and enhancement of teachers of science for regions and states experiencing extensive initial growth of Hispanic ELLs in schools. Researchers were first invited from regions of the country that have had a long history of with Hispanic ELLs in classrooms, as well as those regions where initial and now extensive growth has occurred only in the past few years. A national conference, Science Teacher Education for Hispanic English Language Learners in the Southeast (SHELLS), funded through the National Science Foundation, was used as one of the dissemination methods to establish and secure commitments from researchers to conduct and report research to strengthen teacher preparation for science.
