Year One in Action Anna Ephgrave, 2017-03-16 Children are hard wired to learn and they learn best by being active and autonomous exploring discovering creating and taking risks in other words by playing However formal subject specific lessons and a focus on data targets and unrealistic expectations are causing young children to be bored and stressed and this is stifling their learning *Year One in Action* reveals the remarkable progress children can make when they are allowed to pursue their own interests ideas and challenges in a superb and enabling environment supported by responsive skilled and empathic staff Demonstrating how a child led approach supports the development of purposeful calm confident and independent children this book offers a unique month by month insight into the workings of a highly successful Year One class It covers all aspects of practice from timetabling adult roles and transitions to the organisation of the classroom and outside area It tracks the events of each month in the year paying close attention to the physical environment and the learning that is taking place Interactions between staff and children are recognised as and exploited as teaching opportunities Throughout the book Anna Ephgrave gives the reasons behind each decision made She also explains what the outcomes have been for the children emphasising that a child led approach with planning in the moment enables rich learning across the curriculum for all children within a meaningful context Key features include over 150 full colour photographs to illustrate practice photocopiable pages of planning sheets record keeping sheets and sample letters to parents examples of individual learning journeys and planning in the moment guidance on what to look for when assessing children s progress advice on risk benefit assessments suggestions for managing transitions and minimising stress The achievements of these children have been remarkable and they have remained the enthusiastic independent happy and unique individuals that they were when they came into Year One Written by a leading consultant teacher this book will inspire teachers to be brave and do what is right for children let them take the lead trust that they want to learn and above all let them play

Effective Transition into Year One Alistair Bryce-Clegg, 2025-01-30 An essential resource for all Key Stage One teachers Martin Burrett ICTmagic Editor of UKEd Magazine This new edition of the

bestselling *Effective Transition into Year One* is essential reading for all Reception and Year One teachers presenting a clear and practical map for effective transition to support children's emotional, social and academic development. Using the latest research and up to date EYFS framework, bestselling author Dr Alistair Bryce Clegg presents a clear map to support children as they move from the Early Years into Key Stage 1. Having been involved in a number of transition projects that specifically focus on children's development throughout this period, Alistair draws upon years of experience in a wide range of settings. Packed full of practical ideas to help practitioners to plan for and create an effective learning environment that promotes high levels of attainment in Year One based on the effective principles of EYFS practice, this new and updated edition should be in every Reception and Year One teacher's library.

Teaching Mathematics Through Problem-Solving Akihiko Takahashi, 2021-03-31 This engaging book offers an in-depth introduction to teaching mathematics through problem solving, providing lessons and techniques that can be used in classrooms for both primary and lower secondary grades. Based on the innovative and successful Japanese approaches of Teaching Through Problem Solving (TTP) and Collaborative Lesson Research (CLR), renowned mathematics education scholar Akihiko Takahashi demonstrates how these teaching methods can be successfully adapted in schools outside of Japan. TTP encourages students to try and solve a problem independently rather than relying on the format of lectures and walkthroughs provided in classrooms across the world. Teaching Mathematics Through Problem Solving gives educators the tools to restructure their lesson and curriculum design to make creative and adaptive problem solving the main way students learn new procedures. Takahashi showcases TTP lessons for elementary and secondary classrooms, showing how teachers can create their own TTP lessons and units using techniques adapted from Japanese educators through CLR. Examples are discussed in relation to the Common Core State Standards, though the methods and lessons offered can be used in any country. Teaching Mathematics Through Problem Solving offers an innovative new approach to teaching mathematics, written by a leading expert in Japanese mathematics education, suitable for pre-service and in-service primary and secondary math educators.
