Expanding Reading Comprehension in Grades 3-6 Katherine A. Dougherty Stahl, Georgia Earnest García, 2022-03-25
Students in grades 3-6 need to use increasingly sophisticated comprehension skills and strategies as they read and build knowledge across disciplinary content areas. Grounded in research, this book presents effective practices for integrating literacy instruction with literature, science, and social studies. Chapters address text selection, vocabulary development, strategy instruction, discussion formats, writing to express and expand comprehension, assessment, and more. Ways to meet the needs of emergent bilingual and culturally diverse students are highlighted throughout. Ideal for preservice and inservice teachers and professional staff development, the book includes classroom vignettes, text boxes with easy-to-read instructional procedures, and curriculum resources. Helpful reproducible forms can be downloaded and printed in a convenient 8 1/2 x 11 size. See also the authors' related book on the primary grades, *Developing Reading Comprehension: Effective Instruction for All Students in PreK-2*.
Units of Study for Teaching Reading Lucy Calkins, Kathleen Tolan, Julie Mooney, Kristin Smith, Alexandra Marron, 2015
The third-grade units were written to support the crucial transition children make from learning to read to reading to learn. The opening unit, *Building a Reading Life*, launches your students' lives as upper elementary school readers. Children ramp up their reading skills by immersing themselves in within-reach fiction books while working on word solving, vocabulary development, envisionment, and prediction. The second unit, *Reading to Learn: Grasping Main Ideas and Text Structures*, addresses essential skills for reading expository nonfiction, such as ascertaining main ideas, recognizing text infrastructure, comparing texts, and thinking critically, as well as the skills for reading narrative nonfiction, such as determining importance by using knowledge of story structure. The third unit, *Character Studies*, lures children into fiction books, teaching them to closely observe characters, make predictions, and sharpen their skills in interpretation. The final unit, *Research Clubs: Elephants, Penguins, and Frogs*, shows youngsters how to turn to texts as their teachers. Children work in clubs to gather, synthesize, and organize information about animals and then use this information to seek solutions to real-world problems. pearson.com
