Team Performance In Health Care Assessment And Development

SA Dillow

Team Performance In Health Care Assessment And Development:

Team Performance in Health Care Gloria D. Heinemann, Antonette M. Zeiss, 2002-01-31 This volume presents the work of clinical health care teams and natural work groups quality improvement teams committees and task forces made up of employees in health care settings It discusses proven multidimensional instruments that measure team performance along with future needs for measuring team performance It will be a resource for medical instructors and students public health workers and health administrators interested in team management

The Oxford Handbook of Clinical Geropsychology Nancy A. Pachana, Ken Laidlaw, 2014-11-07 Throughout the world the population of older adults continues to grow The rise in geriatric populations has seen an increase in research on clinical diagnostic assessment and treatment issues aimed at this population Clinical geropsychologists have increased their interest both in providing mental health services as well as developing approaches to improve quality of life for all older adults The Oxford Handbook of Clinical Geropsychology is a landmark publication in this field providing broad and authoritative coverage of the research and practice issues in clinical geropsychology today as well as innovations expanding the field's horizons Comprising chapters from the foremost scholars in clinical geropsychology from around the world the handbook captures the global proliferation of activity in this field In addition to core sections on topics such as sources of psychological distress assessment diagnosis and intervention the handbook includes valuable chapters devoted to methodological issues such as longitudinal studies and meta analyses in the field as well as new and emerging issues such as technological innovations and social media use in older populations Each chapter offers a review of the most pertinent international literature outlining current issues as well as important cultural implications and key practice issues where relevant and identifying possibilities for future research and policy applications The book is essential to all psychology researchers practitioners educators and students with an interest in the mental health of older adults In addition health professionals including psychiatrists social workers mental health nurses and trainee geriatric mental health workers will find this a invaluable resource Older adults comprise a growing percentage of the population worldwide Clinical psychologists with an interest in older populations have increased the amount of research and applied knowledge about effectively improving mental health later in life and this book captures that information on an international level The book addresses how to diagnose assess and treat mental illness in older persons as well as ways to improve quality of life in all older persons It has a great breadth of coverage of the area including chapters spanning how research is conducted to how new technologies such as virtual reality and social media are used with older people to improve mental health The book would appeal to all psychology researchers practitioners educators and students with an interest in the mental health of older adults It would also appeal to other health professionals including psychiatrists social workers and mental health nurses who work with older people It is a valuable resource for trainee geriatric mental health workers because it highlights key readings and important practice implications in the field

Improving Healthcare Team

Performance Leslie Bendaly, Nicole Bendaly, 2012-09-21 Practical proven techniques for improving team performance in the health care world Teams and collaboration have become an expectation in most healthcare facilities and environments It is accepted that high performance patient focused teams are critical to quality patient care However there is often a wide gap between traditional practices and the new behaviours and practices required for teamwork and collaboration Improving Health Care Team Performance goes beyond theory to provide the knowledge tools and techniques required to develop a single team or to develop an organization wide team based culture from which exceptional patient care emerges Most uniquely it emphasizes that effective teamwork goes far beyond team dynamics and provides detailed description of additional requirements such as shared learning and change compatibility and how to fulfill them A practical handbook for healthcare leaders striving to ensure a superior patient experience and high quality of care Improving Healthcare Team Performance not only provides specifics on how to develop high functioning teams whether multidisciplinary interdisciplinary or departmental but also offers those dealing with the common healthcare leadership challenges of low morale poor communication interpersonal conflict and lack of knowledge sharing the tools to take immediate action to improve performance Providing a proven approach to addressing and preventing everyday issues impacting patient care Improving Health Care Team Performance contains everything needed to identify areas of greatest need within a team or department take targeted action to address key gaps and measure progress towards positive change Presents a clear depiction of what constitutes collaboration and a high performing patient focused team This includes the skills and practices required to improve team performance and ultimately the quality of patient care how to develop new attitudes and behaviours within the team as well as the leadership requirements for success in a patient focused team based culture Provides a set of development tools accessible online to help the reader quickly and easily apply the knowledge gleaned Offers targeted solutions including tips recommendations a step by step approach for affecting necessary change at every level of the organization and skills and team development activities Designed for leaders working in any healthcare environment Improving Health Care Team Performance is a practical approach to improving team performance and the quality of patient care

Human Performance and Situation Awareness Measures Valerie Jane Gawron, 2019-01-04 This book was developed to help researchers and practitioners select measures to be used in the evaluation of human machine systems The book begins with an overview of the steps involved in developing a test to measure human performance This is followed by a definition of human performance and a review of human performance measures Another section defines situational awareness with reviews of situational awareness measures For both the performance and situational awareness sections each measure is described along with its strengths and limitations data requirements threshold values and sources of further information To make this reference easier to use extensive author and subject indices are provided Features Provides a short engineering tutorial on experimental design Offers readily accessible information on human performance and situational

awareness SA measures Presents general description of the measure Covers data collection reduction and analysis requirements Details the strengths and limitations or restrictions of each measure including proprietary rights or restrictions

Improving Patient Safety Through Teamwork and Team Training Eduardo Salas, Karen Frush, 2012-08-24 Team training has become a tradition in healthcare where it has helped produce significantly positive results in patient safety It is widely acknowledged that medical teamwork is essential yet the coordination communication and cooperation behind it has never been carefully examined This book provides a comprehensive study of the science behind improving team performance in the delivery of clinical care Leaders in the field Eduardo Salas and Karen Frush have assembled scholars practitioners and professionals to offer a combination of practical advice and insight as well as a look into the scientific foundation of teamwork Chapters offer helpful guidelines and lessons on how to improve performance in the team setting including how to measure success how to monitor training pitfalls and challenges and how the different needs of various clinical situations

Healthcare Teamwork Theresa J.K. Drinka, Phillip G. Clark, 2016-06-27 Both comprehensive and accessible this is an ideal resource for anyone who plans to teach or practice integrated cost effective healthcare in the 21st century Currently there is no coordinated system for training health profession students to address the needs of patients with complex illnesses nor is there a coordinated system for effectively delivering care to these patients This book explores both sides of the problem bringing interprofessional practice and education together to show how they are complementary and how they can be integrated to provide better care In many respects this book is a personal account of the authors experience with interprofessional teamwork and education over the past 40 years It discusses what works and what doesn't and includes interviews examples and case studies that illustrate the perspectives of healthcare professionals patients and caregivers This second edition illuminates ways in which today's business model has changed interprofessional healthcare team practice and education and it examines the needs of patients relative to healthcare teams and practitioner education An entire chapter is devoted to the patient's position as both teacher and learner in relation to the team The theoretical foundations of practice and education are highlighted but the book also shares models that can be used for the practical development of programs

Palliative Care Nursing: Principles And Evidence For Practice Payne, Sheila, Seymour, Jane, Ingleton, Christine, 2008-08-01 This textbook in palliative care nursing draws together the principles and evidence that underpins practice to support nurses working in specialist palliative care settings and those whose work involves end of life care

International Best Practices for Evaluation in the Health Professions William McGaghie, 2022-02-16 This unique text presents a comprehensive narrative on why and how health professions students need to be evaluated for practice in the 21st century It systematically addresses current evaluation best practices in the health professions to identify today's evaluation benchmarks reveal evaluation limits address improvement pathways and map a research agenda to boost future evaluation practices Advancements in information and communication technology bioscience and behavioral research and worldwide

travel are dissolving barriers that have separated professions countries and cultures for centuries This book both celebrates these achievements and carefully considers next steps It recognizes the huge improvements made in evaluation practices within the health professions over the past 40 years but asks for more calling for added reform and better understanding of current practice from different social cultural and educational perspectives International Best Practices for Evaluation in the Health Professions values crossprofessional programs that span boundaries and acknowledge the authority of the future rather than historical baggage Educators worldwide will be enlightened and inspired by its straightforward compelling narrative

Intelligent Paradigms for Healthcare Enterprises Barry G. Silverman,2005-08-25 This compendium brings together leading researchers in the fields of Intelligent Systems and healthcare aiming at medical engineers healthcare managers and computer scientists worldwide This book is an overview of intelligent paradigms and strategic investments that might payoff for the healthcare enterprise Specifically the reader will get ideas for efficiency enhancements for improving effectiveness and quality of care and for increasing patient safety Advanced Intelligent Paradigms in Healthcare straddles technologic topics from DNA processing and automating medical second opinions in the lab to telemedicine and chat spaces for rural patient outreach among many others In terms of management concerns this book also explores systems approaches such as automated clinical guidelines institutional workflow management and best practices and lessons learned with actual applications

Modeling Complex Systems John William Shuart,William D. Spaulding,Jeffrey Stephen Poland,2007-01-01 Describes contemporary approach to the modeling of complex cognitive and behavioral processes This book provides examples of translational research ranging from clinical neuropsychology to self actualization from medical informatics to industrial psychology from programmed learning to psychiatric rehabilitation
