The Academic Quality Handbook Enhancing Higher Education In Universities And Further Education Colleges:

The Academic Quality Handbook Patrick McGhee, 2003-03-01 Universities and further education colleges are under increasing pressure to provide quality for their students. Quality assurance and development issues affect the staff, resources, administration and culture of an academic institution, yet there is often a lack of clear guidance available to those responsible for implementing best practice. This book provides practical guidelines for managing academic quality assurance and quality enhancement, outlining best practice from both the UK and the rest of the world. Each chapter addresses the key points, risks and good practice across a wide range of quality issues, drawing explicitly and in detail from the QAA guidance on the Code of Practice, Subject Benchmarks, Qualifications Framework and Institutional Audit. The material is presented in an accessible and straightforward style, incorporating useful features such as development questions for individual or team review. A maintained website accompanying this book, www.academicquality.com, contains further useful resources with updates and supplementary material in this constantly changing area.

First Published in 2004, Routledge is an imprint of Taylor & Francis, an informa company.

Quality and the Academic Library Jeremy Atkinson, 2016-02-24 Quality and the Academic Library: Reviewing, Assessing and Enhancing Service Provision provides an in-depth review and analysis of quality management and service quality in academic libraries. All aspects of quality are considered in the book, including quality assessment, quality review and quality enhancement. An overview of quality management and service quality concepts, principles and methods leads to a detailed consideration of how they have been applied in universities and their libraries. A case study approach is used, with different perspectives provided from the different stakeholders involved in the quality processes. All contributors adopt a critical reflection approach, reflecting on the implications, impact and significance of the activities undertaken and the conclusions that can be drawn for future developments. The book concludes with an overall reflection on quality management and service quality in academic libraries, with a final analysis of priorities for the future. Presents a holistic view of the subject, looking at reviews of academic library services, quality assurance and assessment, quality enhancement and service quality. Provides perspectives from authors with different experiences and responsibilities, including those responsible for initiating and managing quality processes in higher education. Includes case studies where the authors not only describe the quality processes used but also seek to review and reflect on their success, limitations and the impact of their work some time after the event. Seeks to be current, comprehensive and reflective by including the results of surveys, interviews from senior librarians on quality in academic libraries.

The Role of External Examining in Higher Education Enakshi Sengupta, Patrick Blessinger, Andrew Ssemwanga, Barbara Cozza, 2021-05-17 This book considers external examination examples in academia across the world. With chapters that cover examples of mitigating disadvantage and creating opportunities without compromising the quality assurance process, the authors examine how universities are engaged in safeguarding procedures.

at the same time as enhancing quality standards Higher Education in the Twenty-First Century Abdulla Y. Al-Hawaj, Wajeeh Elali, E.H. Twizell, 2008-08-04 The skills creativity and research developed through higher education are major factors in any society's success in creating jobs and advancing prosperity Universities and colleges play a vital role in expanding opportunity and promoting social justice The papers in this book reflect the main objective of a conference held in June 2007 at Ahlia

Islam and Higher Education Marodsilton Muborakshoeva, 2013 This book explores the different concepts of a university and the way they shape practice in Muslim contexts with a particular focus on the Islamic republic of Pakistan Higher education in Muslim contexts is often criticised for being incapable either of contributing to the socio cultural and civilisational developments of society or of doing research and producing knowledge of a high standard While the international organisations accuse universities of not helping the societies to become knowledge based and to compete at the global level some Muslim scholars call for the creation of authentic Islamic educational structures that would as they think solve the problems of higher education

New Perspectives on Using Accreditation to Improve Higher Education Hysa, Eglantina, Foote, Russell, 2022-06-24 Recently the priorities of higher education have adjusted where before the focus was primarily on the financial side of education institutions now consider people to be their main source of value and education to be much more than the production and dissemination of knowledge Due to this a gap has been created between decades of emphasis on financing and the undermining of the qualitative requirements of education *New Perspectives on Using Accreditation to Improve Higher Education* outlines key issues that must be addressed if accreditation agencies globally are to achieve their primary objective of ensuring that universities and the degree programs they offer are of even greater quality than they are at present Covering topics such as leadership assessment and sustainability this reference work is ideal for principals policymakers higher education staff researchers scholars academicians practitioners instructors and students

Developing Effective Assessment in Higher Education: A Practical Guide Sue Bloxham, Pete Boyd, 2007-10-16 As an overview *Developing Effective Assessment in Higher Education* makes a very useful contribution to assessment literature providing a publication that is relevant and accessible to practitioners whilst giving rigorous exploration of issues associated with student assessment It should find a readership on that basis and will be welcomed as a considered and insightful contribution to the literature on student assessment Higher Education Review What are the main issues when considering the design and management of effective assessment strategies for academic programmes How should lecturers design and use assessment in university so that it helps students to learn as well as judging their achievement How can students be prepared for assessment including peer self and group assessment This book provides comprehensive practical guidance on managing and improving assessment within higher education It tackles all stages in the assessment cycle including Assessment design Preparing students for assessment Marking and moderation Providing feedback Quality assurance It also provides a concise introduction to the research literature on assessment which will inform

practice debate programme enhancement and practitioner research within university departments teaching teams and courses for higher education teachers The practical guidance in the book is substantiated with reference to relevant research and policy In particular it considers how the different purposes of assessment create conflicting demands for staff often characterised by the tension between attempting to support student learning whilst meeting imperatives for quality assurance and demonstrable maintenance of standards Issues are debated using concrete examples and workable solutions are illustrated Consideration is also given to the management of assessment as well as to how new technologies might be used to develop assessment methods and enhance student learning Developing Effective Assessment in Higher Education is key reading for both new and experienced lecturers programme leaders and academic developers and will enhance their efforts to use assessment to improve students learning as well as to grade them fairly reliably and efficiently

Perspectives on the Internationalisation of Higher Education David Law, Michael Hoey, 2018-04-19

Internationalisation of the contemporary university has become a pervasive and powerful development theme during the past three decades In many countries higher education is now a major export industry The UK has longstanding experience of overseas student recruitment international partnerships between universities and trans national education It has led the world in the development of the quality assurance of overseas activities This collection of essays brings together articles published in the journal of the UK Association of University Administrators AUA Several of the pieces are members of AUA whilst others are by authors who work in other countries Overall in this volume there is a practitioner focus that provides the reader with lessons learnt by those with experience of implementing policies to promote the internationalisation of higher education We are interested both in how universities can

manage the challenges that they face and in how the experience of students can be enhanced by participation in internationalisation Because the AUA has an enduring commitment to the professionalization of management and administration readers of this anthology will find accessible focussed and brief articles that are solution oriented This book was originally published as a special issue of Perspectives Policy and Practise in Higher Education **Human Resource Development** Stephen Gibb,2011-10-04 Human Resource Development 3rd edition provides a complete and integrated introduction to the processes practices and perspectives of HRD in the workplace from a theory and practice perspective Various aspects of HRD at work are explored through case studies encouraging the student to link the practicalities of HRD with academic analysis *EDUCATIONAL ACRONYMS & TERMINOLOGIES* Jillian Lewis-Darden,2013-02-07 This book was written to assist new teachers and parents within the educational setting It s a quick and easy reference to understanding general education special education and assessment terms It is intended to encourage and facilitate positive informed contributions during meetings conferences or simply interpreting and completing comprehensive summaries of students work This tool strives to level the playing field by providing a quick reference for acronyms and terminologies used on a daily basis Given the current need for accountability within the education system this tool will be an asset to new and incoming teachers working in the field and for parents whose expectations of their child demand that they are up beat on the jargon used by educators Teaching Higher Education Courses in Further Education Colleges Jonathan Tummons,Kevin Orr,Liz Atkins,2013-09-18 As the number of higher education HE courses offered in further education FE settings increases so does the need for teachers and trainee teachers to develop their teaching skills This text is written for all teachers and trainee teachers in FE It considers what it means to teach HE in FE and how an HE environment can be created in an FE setting The text covers day to day aspects of teaching including planning and assessment giving guidance on the unique needs of HE students Chapters on research and quality assurance support the reader in developing some advanced teaching skills This is a practical guide for FE teachers and trainee teachers as the sector adapts to the needs of education today **Learning and Teaching in a Metropolis** Lynn Ang,John Trushell,Patricia Walker,2010 At the interface Probing the Boundaries seeks to encourage and promote cutting edge interdisciplinary and multi disciplinary projects and inquiry by bringing people together from differing contexts disciplines professions and vocations the aim is to engage in conversations that are innovative imaginative and creatively interactive **The British National Bibliography** Arthur James Wells,2005

Resources in Education ,2001-10 Teacher Professional Development for Improving Quality of Teaching Bert Creemers,Leonidas Kyriakides,Panayiotis Antoniou,2012-11-05 This book makes a major contribution to knowledge and theory by drawing implications of teacher effectiveness research for the field of teacher training and professional development The first part of the book provides a critical review of research on teacher training and professional development and illustrates the limitations of the main approaches to teacher development such as the competence based

and the holistic approach A dynamic perspective to policy and practice in teacher training and professional development is advocated The second part of the book provides a critical review of research on teacher effectiveness The main phases of this field of research are analysed It is pointed out that teacher factors are presented as being in opposition to one another An integrated approach in defining quality of teaching is adopted The importance of taking into account findings of studies investigating differential teacher effectiveness is argued Another significant limitation of this field of research is that the whole process of searching for teacher effectiveness factor was not able to have a significant impact upon teacher training and professional development For this reason it is advocated that teacher training and professional development should be focused on how to address grouping of specific teacher factors associated with student learning and on how to help teachers improve their teaching skills by moving from using skills associated with direct teaching only to more advanced skills concerned with new teaching approaches and differentiation of teaching The book refers to studies conducted in different countries illustrating how the proposed approach can be used by policy and practice in teacher education Specifically the book provides evidence supporting the validity of the theoretical framework upon which this approach is based Moreover experimental and longitudinal studies supporting the use of this approach for improvement purposes are presented and suggestions for further research utilising and expanding the Dynamic Approach for teacher training and professional development are provided

Transformative Teaching and Learning in Further Education Rob Smith, Vicky Duckworth, 2022-07-27 Based on the Transforming Lives research project this book explores the transformative power of further education The book outlines a timely and critical approach to educational research and practice and draws extensively on the testimonies of students and teachers to construct a model of transformative teaching and learning It critiques reductive skills policies in further education and illuminates the impact colleges and lifelong learning have on social justice outcomes for individuals their families and communities For trainee teachers teachers leaders researchers and policy makers alike the book presents a persuasive argument for transformative approaches to teaching and learning and highlights the often unmeasured and under appreciated holistic social benefits of further education

Developing Quality Systems in Education Geoff Doherty, 2003-09-02 Presents an overview of the pitfalls and problems of implementing quality standards in education The text looks at the practical advantages and disadvantages of quality systems case studies of attempts at implementation and proposals for developments across the education sector as a whole
