The Active And Passive Forces Of Nature:

Gandhi and Philosophy Shaj Mohan, Divya Dwivedi, 2018-12-13 Gandhi and Philosophy presents a breakthrough in philosophy by foregrounding modern and scientific elements in Gandhi's thought animating the dazzling materialist concepts in his writings and opening philosophy to the new frontier of nihilism This scintillating work breaks with the history of Gandhi scholarship removing him from the postcolonial and Hindu nationalist axis and disclosing him to be the enemy that the philosopher dreads and needs Naming the congealing systematicity of Gandhi's thoughts with the Kantian term hypophysics Mohan and Dwivedi develop his ideas through a process of reason that awakens the possibilities of concepts beyond the territorial determination of philosophical traditions The creation of the new method of criticalisation the augmentation of critique brings Gandhi's system to its exterior and release It shows the points of intersection and infiltration between Gandhian concepts and such issues as will truth violence law anarchy value politics and metaphysics and compels us to imagine Gandhi's thought anew

Leibniz's Naturalized Philosophy of Mind Larry M. Jorgensen, 2019-02-21 Larry M Jorgensen provides a systematic reappraisal of Leibniz's philosophy of mind revealing the full metaphysical background that allowed Leibniz to see farther than most of his contemporaries In recent philosophy much effort has been put into discovering a naturalized theory of mind Leibniz's efforts to reach a similar goal three hundred years earlier offer a critical stance from which we can assess our own theories But while the goals might be similar the content of Leibniz's theory significantly diverges from that of today's thought Perhaps surprisingly Leibniz's theological commitments yielded a thoroughgoing naturalizing methodology the properties of an object are explicable in terms of the object's nature Larry M Jorgensen shows how this methodology led Leibniz to a fully natural theory of mind
