The Age of Bismarck Theodore S. Hamerow, 1973 **Dialogues Across Civilizations** Roxann Prazniak, 2018-05-04

Dialogues Across Civilizations sets the histories of China and Europe alongside one another. Each chapter stands as an essay that imaginatively places historical individuals and events in proximity to one another and explores a specific topic: gender relations, rural politics, artistic renderings of nature, to name a few, through the stories of persons who reflected on similar questions but in different social and cultural settings. Through this juxtaposition, Chinese and European civilizations illuminate each other's achievements, problems, and limitations in a range of areas from urban history to religious faith. Privileging neither Europe nor China, this work offers an innovative move away from relativism and multiculturalism towards an analysis that focuses on relationships between social choices and consequences. As a result, both common and divergent perspectives on the human condition emerge for discussion. Drawing upon a rich literature of cross-societal studies, *Dialogues Across Civilizations* generates reflection on themes central to the study of world history as well as European and Asian history. *Library of Congress Catalogs* Library of Congress, 1976 **Monographic Series** Library of Congress, 1974

This brief, best-selling Western civilization text has helped thousands of students learn about the world they live in by exploring the story of its past. Jack Spielvogel's engaging chronological narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Each chapter offers a substantial introduction and conclusion that sparks students' imaginations by giving them a context within which to understand these disparate themes. And while the single author narrative makes it easy for students to follow the story of Western civilization, Spielvogel has included dozens of maps and primary sources, including official documents, poems, and songs that enliven the past while introducing students to the challenges involved in interpreting history. This edition includes substantial new material on world history to show students the impact of other parts of the world on Western civilization and is now the BRIEFEST of the leading brief Western civilization texts.
