The Agony Of The American Left

Gunter H. Lenz, Kurt L. Shell

The Agony Of The American Left:

The Agony of the American Left Christopher Lasch, 2013-03-20 Five long essays by an American historian the author of *The New Radicalism in America* 1965 Under the rubric of the collapse of mass based radical movements Lasch examines the decline of populism the disintegration of the American socialist party and the weaknesses of black nationalism Also included is a history of the Congress for Cultural Freedom and a discussion of the 60 s revival of ideological controversy The agony of the American left Christopher Lasch, 1965 Radical Paradoxes; Dilemmas of the American Left: 1945-1970 Peter

Clecak, 1973 **Hope in a Scattering Time** Eric Miller, 2010-04-16 This is the first biography of the best selling author of *The culture of narcissism* and other modern American classics His brand of historically and psychologically informed social criticism was uncommonly prescient and remains surprisingly relevant to our cultural dilemmas So does his example as Eric Miller shows in this vivid and engaging book Lasch s uncompromising independence cast him as Socrates in an age of sophists and the sweeping range critical intensity high seriousness and rigorous honesty of his writings won him warm admirers many fierce critics and a circle of brilliant and devoted students Miller s biography offers Lasch s life as a ringing case for the dignity of the intellectual s calling **A Conservative History of the American Left** Daniel J.

Flynn, 2008-04-29 From *Communes to the Clintons* Why does Hillary Clinton crusade for government provided health care for every American for the redistribution of wealth and for child rearing to become a collective obligation Why does Al Gore say that it s okay to over represent the dangers of global warming in order to sell Americans on his draconian solutions Why does Michael Moore call religion a device to manipulate gullible Americans Where did these radical ideas come from And how did they enter the mainstream discourse In this groundbreaking and compelling new book Daniel J Flynn uncovers the surprising origins of today s Left The first work of its kind *A Conservative History of the American Left* tells the story of this remarkably resilient extreme movement one that came to America s shores with the earliest settlers Flynn reveals a history that leftists themselves ignore whitewash or obscure Partly the Left s amnesia is convenient Who wouldn t want to forget an ugly history that includes eugenics racism violence and sheer quackery Partly it is self aggrandizing Bold schemes sound much more innovative when you refuse to acknowledge that they have been tried and have failed many times before And partly it is unavoidable The Left is so preoccupied with its triumphal future that it doesn t pause to learn from its past mistakes So it goes that would be revolutionaries have repeatedly failed to recognize the one troubling obstacle to their grandiose visions reality In unfolding this history Flynn presents a page turning narrative filled with colorful fascinating characters progressives and populists radicals and reformers socialists and SDSers and leftists of every other stripe There is the rags to riches Welsh industrialist who brought his utopian vision to America one in which private property religion and marriage represented the most monstrous evils and gained audiences with the likes of Thomas Jefferson John Adams and James Madison There is the wife swapping Bible thumper who nominated Jesus Christ for president There is the playboy adventurer

whose worshipful accounts of Soviet Russia lured many American liberals to Communism There is the daughter of privilege turned violent antiwar activist who lost her life to a bomb she had intended to use against American soldiers There are fanatics and free spirits perverts and puritans entrepreneurs and altruists and many more beyond A Conservative History of the American Left is a gripping chronicle of the radical visionaries who have relentlessly pursued their lofty ambitions to remake society Ultimately Flynn shows the destructiveness that comes from this undying pursuit of dreams that are utterly unattainable

American Studies Louis Menand, 2003-11 This collection of review essays demonstrates Menand's status as his generation's premier critical talent Los Angeles Times From this thinker known both for his sly wit and reportorial high jinks and clarity and rigor The Nation these essays are incisive surprising and impossible to put down

Guide to the American Left, 1999 *Marxian Socialism in the United States* Daniel Bell, 2018-10-18 First published in 1952 then out of print in recent years this classic account of the American Left is once again available In his introduction to the Cornell paperback edition Michael Kazin reevaluates the book viewing it in the context of subsequent work on the subject and of the recent history of the Left itself

Left Americana Paul Le Blanc, 2017-03-27 From the Marxist tinged anarchism of the Haymarket martyrs to the Occupy Wall Street movement these essays give a vibrant sense of the central role of the Left in social movements and struggles of the past and present and highlights some of the amazing individuals whose unstoppable energies generated remarkable transformations Left Americana considers both the limitations and successes of Christian socialists Communists Maoists Trotskyists and the New Left activists of the sixties and seventies in creating profound social and political change Paul Le Blanc is a professor of History at La Roche College and author of Choice Award winning book A Freedom Budget for All Americans

Why America Needs a Left Eli Zaretsky, 2013-04-26 The United States today cries out for a robust self-respecting intellectually sophisticated left yet the very idea of a left appears to have been discredited In this brilliant new book Eli Zaretsky rethinks the idea by examining three key moments in American history the Civil War the New Deal and the range of New Left movements in the 1960s and after including the civil rights movement the women's movement and gay liberation In each period he argues the active involvement of the left especially its critical interaction with mainstream liberalism proved indispensable American liberalism as represented by the Democratic Party is necessarily spineless and ineffective without a left Correspondingly without a strong liberal center the left becomes sectarian authoritarian and worse Written in an accessible way for the general reader and the undergraduate student this book provides a fresh perspective on American politics and political history It has often been said that the idea of a left originated in the French Revolution and is distinctively European Zaretsky argues by contrast that America has always had a vibrant and powerful left And he shows that in those critical moments when the country returns to itself it is on its left liberal bases that it comes to feel most at home

Science and Technology in the Global Cold War Naomi Oreskes, John Krige, 2014-10-31 Investigations of how the global Cold War shaped national scientific and technological practices in fields from biomedicine to

rocket science The Cold War period saw a dramatic expansion of state funded science and technology research Government and military patronage shaped Cold War technoscientific practices imposing methods that were project oriented team based and subject to national security restrictions These changes affected not just the arms race and the space race but also research in agriculture biomedicine computer science ecology meteorology and other fields This volume examines science and technology in the context of the Cold War considering whether the new institutions and institutional arrangements that emerged globally constrained technoscientific inquiry or offered greater opportunities for it The contributors find that whatever the particular science and whatever the political system in which that science was operating the knowledge that was produced bore some relation to the goals of the nation state These goals varied from nation to nation weapons research was emphasized in the United States and the Soviet Union for example but in France and China scientific independence and self reliance dominated The contributors also consider to what extent the changes to science and technology practices in this era were produced by the specific politics anxieties and aspirations of the Cold War Contributors Elena Aronova Erik M Conway Angela N H Creager David Kaiser John Krige Naomi Oreskes George Reisch Sigrid Schmalzer Sonja D Schmid Matthew Shindell Asif A Siddiqi Zuoyue Wang Benjamin Wilson

The Socialist Party of America Jack Ross (Historian), 2015 At a time when the word socialist is but one of numerous political epithets that are generally divorced from the historical context of America s political history The Socialist Party of America presents a new mature understanding of America s most important minor political party of the twentieth century From the party s origins in the labor and populist movements at the end of the nineteenth century to its heyday with the charismatic Eugene V Debs and to its persistence through the Depression and the Second World War under the steady leadership of America s conscience Norman Thomas The Socialist Party of America guides readers through the party s twilight ultimate demise and the successor groups that arose following its collapse Based on archival research Jack Ross s study challenges the orthodoxies of both sides of the historiographical debate as well as assumptions about the Socialist Party in historical memory Ross similarly covers the related emergence of neoconservatism and other facets of contemporary American politics and assesses some of the more sensational charges from the right about contemporary liberalism and the radicalism of Barack Obama

John Dos Passos Barry Maine, 2003-09-02 This set comprises 40 volumes covering 19th and 20th century European and American authors These volumes will be available as a complete set mini boxed sets by theme or as individual volumes This second set complements the first 68 volume set of Critical Heritage published by Routledge in October 1995

The Other American *The Life Of Michael Harrington* Maurice Isserman, 2001-03-08 Most Americans first heard of Michael Harrington with the publication of *The Other America* his seminal book on American poverty Isserman expertly tracks Harrington s beginnings in the Catholic Worker

[The Disciplinary Frame](#) John Tagg, 2009 How do photographs gain their meaning and power John Tagg claims that to answer this question we must look at the ways in which everything that frames photography the

discourse that surrounds it and the institutions that circulate it determines what counts as truth Walk Away Grant Havers, Lee Trepanier, 2019-07-19 This book examines key twentieth century philosophers theologians and social scientists who began their careers with commitments to the political left only later to reappraise or reject them Their reevaluation of their own previous positions reveals not only the change in their own thought but also the societal changes in the culture economics and politics to which they were reacting By exploring the evolution of the political thought of these philosophers this book draws connections among these thinkers and schools and discovers the general trajectory of twentieth century political thinking in the West *The Crisis Of Modernity* Gunter H. Lenz, Kurt L. Shell, 2019-06-18 The crisis of the project of modernity Habermas is at the same time a crisis of critical theories of society and culture that have radically questioned bourgeois culture and capitalist society and economy from the perspective of a utopia of enlightened rationality A number of parallel recent social and political problems developments and Narrative and History Alun Munslow, 2018-09-19 Based on the assumption that reality reference and representation work together this introductory textbook explains and illustrates the various ways in which historians write the past as history For the first time the full range of leading narrative theorists such as Paul Ricoeur Hayden White Frank Ankersmit Seymour Chatman and Gérard Genette have been brought together to explain the narrative making choices all author historians make when creating historical explanations Combining theory with practice Alun Munslow expands the boundaries of the discipline and charts a new role for unconventional historical forms and modes of expression Clear but comprehensive this is an ideal resource for undergraduate and postgraduate students taking courses on history and theory history and method and historiography **The Immigrant Left in the United States** Director of the Oral History of the American Left at Taminent Library Paul Buhle, Paul Buhle, Dan Georgakas, 1996-01-01 A transnational social history of immigrant group involvement in radical activities in nineteenth and twentieth century America that provides missing links between the immigration experience the neighborhood the workplace politics and culture **The Politics of Apolitical Culture** Giles Scott-Smith, 2003-08-27 This book analyses a key episode in the cultural Cold War the formation of the Congress for Cultural Freedom Whilst the Congress was established to defend cultural values and freedom of expression in the Cold War Struggle its close association with the CIA later undermined its claims to intellectual independence or non political autonomy By examining the formation of the Congress and its early years of existence in relation to broader issues of US European relations Giles Scott Smith reveals a more complex interpretation of the story The Politics of Apolitical Culture provides an in depth picture of the various links between the political economic and cultural realms which led to the Congress

Delve into the emotional tapestry woven by Crafted by in **The Agony Of The American Left** .
