The Alienation Of Modern Man An Interpretation Based On Marx And Tonnies:

Alienation Modern Man Fritz Pappenheim, 1959 This intriguing work deals with the plight of the alienated individual estranged from humanity and the surrounding world It examines such questions as Why do writers like Kafka Thomas Wolfe Rilke and the existential philosophers who portray the individual as a stranger in the world have such a strong appeal Is estrangement limited to individual cases or has it become a universal fate Is alienation a consequence of the triumph of the machine Is it characteristic of the human condition or is it a specific development of modern society Should humanity resign itself to alienation or can it be overcome conquered

The Alienation of Modern Man Fritz Pappenheim, 1968 The Alienation of Modern Man Fritz Pappenheim, 1959 **The Alienation of Modern Man** Fritz Pappenheim, 1959 **Marx and Alienation** Sean Sayers, 2011-07-12 The concepts of alienation and its overcoming are central to Marx's thought They underpin his critique of capitalism and his vision of future society Marx's ideas are explained in rigorous and clear terms They are situated in the context of the Hegelian ideas that inspired them and put into dialogue with contemporary debates

Georg Lukács' Marxism Alienation, Dialectics, Revolution Victor Zitta, 2013-11-27 *The Evolution of Alienation* Lauren Langman, Devorah Kalekin-Fishman, 2006 Building on the Marxian view of alienation as the inevitable consequence of wage labor that divests human beings of control over their life forces *The Evolution of Alienation* provides new insights into contemporary conditions Contributors explore how alienation is fostered in The Concept of Community from a Global Perspective, 2024-05-21 This volume presents essays analysing the ambivalent history of the globally influential political and social concept of community and the paradigms it has engendered in academia and politics While the term community often evokes positive sentiments it is also linked to oppressive regimes and exclusion A survey of the term's use is followed by studies of the sociologist Ferdinand Tönnies and of the use of the term in disciplines such as politics applied linguistics anthropology literary theory philosophy and intellectual history The volume concludes with an analysis of the application of the concept in politics in the UK debates between liberals and communitarianists utopianism and African philosophy Contributors are Niall Bond Christopher Adair Toteff Daniel Alvaro Alexander Wierzock Sebastian Klauke Antonin Cohen Jan Buts Stéphane Vibert Rami Astruc Elisabeth Bouzonviller Françoise Orazi Andrew Vincent Astrid von Busekist Robert Kramm and Thaddeus Metz *Martin Buber's Social and Religious Thought* Laurence J. Silberstein, 1990-12 Moore focuses on Buber's central message about what it means to be a human being a person of faith and what mankind can do to overcome the eclipse of God Shofar Solid well researched and sympathetic might well spur a person to go back and read Buber Commonwealth Reconstructing Karl Polanyi Gareth Dale, 2016-09-20 Shortlisted for the Deutscher Memorial Prize 2017 Karl Polanyi's contribution to political economy and social science is immeasurable In *Reconstructing Karl Polanyi* Gareth Dale foremost scholar and biographer of Polanyi provides a sweeping survey of his contributions to the social sciences An opponent of traditional economics and a believer in economics contingency to society and culture Polanyi's work has a cross

disciplinary appeal finding popularity in anthropology economic history economic sociology and political science Paradoxical formulations such as liberal socialist and cosmopolitan patriot are often used to describe Polanyi s intellectual and political vision In exploring these paradoxes Dale draws upon original writings and transcripts to reconstruct Polanyi s views on a range of topics long neglected in critical literature including the history of antiquity the evolution and dynamics of Stalin s Russia McCarthyism and Polanyi s critical dialogue with Marxism Accompanying the reconstruction of his work is Dale s analysis of Polanyi s relevance to current issues notably the clash between democracy and capitalism and the nature and trajectory of European unification This proves an indispensable critical guide to Polanyian thought **Three Authors of**

Alienation M. Ian Adams, 2014-01-09 As a philosophical and social concept alienation covers a broad range of mental states both normal and abnormal Correspondingly a wide range of literary forms has been employed to deal with this important theme In *Three Authors of Alienation* an exploration of the literary expression of alienation M Ian Adams discusses the works of three contemporary Latin American authors The fiction of Mar a Luisa Bombal Juan Carlos Onetti and Alejo Carpentier reflects alienation disgust with life and a feeling of nothingness arising from the conditions of modern society However each author treats the theme differently In *La ltima niebla* Mar a Luisa Bombal uses poetic imagery to create the emotional life of the protagonist Juan Carlos Onetti portrays the schizoid extreme of alienation with a complex of symbols based on changes of vision caused by the mental states of his characters In *Los pasos perdidos* Alejo Carpentier presents the problem of the modern alienated artist who attempts to rid himself of his social alienation by changing times and cultures In his close analysis of the works discussed Adams considers each literary element in its context and also in terms of its relation to the larger artistic vision of the author In addition he places the works of the three authors in the greater perspective of modern social problems by discussing the concepts of social alienation proposed by Erich Fromm and Erich Kahler His conclusion is that although disgust with life and feelings of meaninglessness are at the heart of the experiences of the characters of all three authors only in Alejo Carpentier s *Los pasos perdidos* are social conditions the major cause of alienation In the works of Bombal and Onetti alienation is a result not of social conditions but of factors unique to the characters personalities and circumstances *Three Authors of Alienation* is a solid contribution to criticism of contemporary Latin American narrative Adams s projection of a social problem into the realm of aesthetic experience yields intriguing interpretations of both the problem and the literature

Theorizing Classical Sociology Ray, Larry J, 1999-11-01 How did classical sociology emerge and take shape What is the significance of classical sociology for current theoretical debates How can the classical tradition in social theory inform our understanding of the crisis of modernity Social theory has been formed through elaboration and critique of the classical tradition and this introductory volume illuminates current theoretical terrain by examining major classical theories of Saint Simon Comte Marx Durkheim Dilthey Tonnies Simmel and Weber highlighting recurring themes and debates It explains how classical sociology emerged through a debate with the Enlightenment in which the concept of

the social took shape This was constructed around various themes emphasizing contrasting components of social life including material cultural rational and moral factors These divergent theorizations set the scene for the play of theoretical oppositions that characterize much subsequent theoretical dispute Along with these debates there were questions about the very identity of sociology which in turn relate to a core issue in the discipline grasping the crisis of modernity This authoritative text introduces the key issues of classical sociology to undergraduates making use of student friendly features such as clear summaries further reading and a glossary It lays the foundations for an understanding of contemporary discussion and will also be recognized at the postgraduate level as a key reference in the field The Vitality of Critical Theory Harry F. Dahms, 2011-05-19 States that the critical theory of the Frankfurt School is as important today if not more so as it was at its inception during the 1930s This title looks at the distinguishing features of this tradition and how it is critical yet also complementary of other approaches in the social sciences especially in sociology The Papers of Martin Luther King, Jr., Volume VI Martin Luther King, Clayborne Carson, 1992 Initiated by The King Center in association with Stanford University **The Sociology of Boredom** Mariusz Finkielstein, 2025-06-16 A pioneering sociological exploration of boredom as a culturally and socially dependent emotion Does boredom have a history What can hunter gatherers teach us about boredom Is boredom experienced differently by those in different socio economic classes Is boredom a disease that is now globalized in a world of inequalities and marginalization Does boredom contribute to political movements wars terrorism or cultural revolutions What does boredom have to do with power How do high expectations contribute to being recurrently bored In *The Sociology of Boredom* Mariusz Finkielstein provides a new approach to conceptualizing interpreting and perceiving one of the most widespread yet neglected human emotions Investigating boredom at both the macro and micro sociological level Finkielstein develops an original relational expectational theory as he explores boredom through the lenses of different social structure theories interactionist theory historical sociology sociology of emotions essentialism and constructivism and social anthropology Eight in depth chapters examine the social production of boredom in modernity and late modernity addressing topics such as the boredom of marginalized groups the concepts of busy boredom and consumer boredom the characteristics and consequences of workplace boredom the notion of smart boredom in the information society and more Containing detailed analyses of the nature of boredom and its connections to various spheres of social life *The Sociology of Boredom* is essential reading for advanced undergraduates postgraduates university lecturers and academic researchers in sociology and similar disciplines particularly those involved in studies on emotions or boredom studies
