The Allure Of Discus:

The Allure of Discus Herbert R. Axelrod, Bernd Degen, Fumitoshi Mori, 1991 Enduring Bronze Carol C. Mattusch, 2014-06-15 Ancient bronze statuary provides a sense of immediacy a window directly back to the classical world The wistful expression of a young Roman woman the fixed jaw of a politician and the tensed muscles of a Greek athlete appear startlingly lifelike transfixing the viewer with their striking realism Incredibly durable yet frequently destroyed for their valuable materials ancient bronzes are comparatively rare discoveries This book richly illustrated with works from the J Paul Getty Museum and other important collections provides an engaging overview of classical bronzes Enduring Bronze considers bronze throughout its long history exploring its enormous appeal from antiquity to the present day The book discusses the many roles bronze objects played in ancient Greece and Rome and analyzes discoveries made at ancient foundries and by contemporary scientists It also examines references to bronze in mythology Pliny s histories and other classical texts as well as representations on vases and other artworks **Tropical Fish Hobbyist** ,1997 Freshwater and Marine Aquarium ,1996 **Bibliography of Agriculture with Subject Index** ,1993-11 **Pet Business** ,1995-06

Democracy Online Peter M. Shane, 2004-07-15 Taking a multidisciplinary approach that they identify as a cyber realist research agenda the contributors to this volume examine the prospects for electronic democracy in terms of its form and practice while avoiding the pitfall of treating the benefits of electronic democracy as being self evident The debates question what electronic democracy needs to accomplish in order to revitalize democracy and what the current state of electronic democracy can teach us about the challenges and opportunities for implementing democratic technology initiatives Just James John Painter, 2004 A second edition of Just James became necessary with the announcement of the discovery of a Jewish ossuary or burial box inscribed in Aramaic with the words as commonly translated James son of Joseph brother of Jesus Through the publicity surrounding the controversial discovery many people are now aware that Jesus of Nazareth had a famous brother named James How does the ossuary relate to understanding that James and that Jesus This work sets out the varied considerations concerning this question while providing access to the early sources concerning James In the process John Painter buttresses the case for recognizing James as the direct successor to Jesus and the leader of the original Christian movement in Jerusalem **The Reader's Digest** ,1926 *Pindar's Eyes* David Fearn, 2017-09-08 Pindar s Eyes is a ground breaking interdisciplinary exploration of the interactions between Greek lyric poetry and visual and material culture in the early fifth century BCE Its aim is to open up analysis of lyric to the wider theme of aesthetic experience in early classical Greece with particular focus on the poetic mechanisms through which Pindar s victory odes use visual and material culture to engage their audiences Complete readings of Nemean 5 Nemean 8 and Pythian 1 reveal the poet s deep interest in the relations between lyric poetry and commemorative and religious sculpture as well as other significant visual phenomena while literary studies of his evocation of cultural attitudes through elaborate use of the lyric first person are combined with

art historical treatments of ecphrasis of image and text and of art's framing of ritual experience in ancient Greece This specific aesthetic approach is expanded through fresh treatments of Simonides and Bacchylides' own engagements with material culture as well as an account of Pindaric themes in the Aeginetan logoi of Herodotus Histories These come together to offer not just a novel perspective on the relationship between art and text in Pindaric poetry but to give rise to new claims about the nature of classical Greek visuality and ritual subjectivity and to foster a richer understanding of the ways in which classical poetry and art shaped the lives and experiences of their consumers

The B Word Maria San Filippo, 2013-04-12 Often disguised in public discourse by terms like gay homoerotic homosocial or queer bisexuality is strangely absent from queer studies and virtually untreated in film and media criticism Maria San Filippo aims to explore the central role bisexuality plays in contemporary screen culture establishing its importance in representation marketing and spectatorship By examining a variety of media genres including art cinema sexploitation cinema and vampire films bromances and series television San Filippo discovers missed moments where bisexual readings of these texts reveal a more malleable notion of subjectivity and eroticism San Filippo's work moves beyond the subject of heteronormativity and responds to compulsory monosexuality where it's not necessarily a couple's gender that is at issue but rather that an individual chooses one or the other The B Word transcends dominant relational formation gay straight or otherwise and brings a discursive voice to the field of queer and film studies

Revolution at the Margins Frederick M. Hess, 2004-05-13 For more than a decade school choice has been a flashpoint in debates about our nation's schooling Perhaps the most commonly advanced argument for school choice is the notion that markets will force public schools to improve particularly in those urban areas where improvement has proved so elusive However the question of how public schools respond to market conditions has received surprisingly little attention Revolution at the Margins examines the impact of school vouchers and charter schooling on three urban school districts explores the causes of the behavior observed and explains how the structure of competition is likely to shape the way it affects the future of public education The book draws on research conducted in three school districts at the center of the school choice debate during the 1990s Milwaukee Wisconsin Cleveland Ohio and Edgewood Texas Case studies examine each of these three districts from the inception of their local school choice program through the conclusion of the 1999 school year The three school districts studied did not respond to competition by emphasizing productivity or efficiency Instead under pressure to provide some evidence of response administrators tended to expand public relations efforts and to chip holes in the rules regulations and procedures that regulate public sector organizations Inefficient practices were not rooted out but some rules and procedures that protect employees and vocal constituencies were relaxed Public school systems are driven by political logic according to Hess and their incentives lead them to respond generally through symbolic and metaphorical gestures Choice induced changes in public school systems will be shaped by public governance the market context in which they operate and their organizational characteristics Revolution at the Margins encourages scholars and

policymakers to think more carefully about the costs and benefits of educational competi

Guerrilla Metaphysics Graham Harman,2011-08-31 In Guerrilla Metaphysics Graham Harman develops further the object oriented philosophy first proposed in Tool Being Today s fashionable philosophies often treat metaphysics as a petrified relic of the past and hold that future progress requires an ever further abandonment of all claims to discuss reality in itself Guerrilla Metaphysics makes the opposite assertion challenging the dominant philosophy of access both continental and analytic that remains quarantined in discussions of language perception or literary texts Philosophy needs a fresh resurgence of the things themselves not merely the words or appearances themselves Once these themes are adapted to the needs of an object oriented philosophy what emerges is a brand new type of metaphysics a guerrilla metaphysics
