*Just Dreaming* Joe Amico, 2013-01-02 Is the American Dream real? Do we have a right to it or is it just suggestion? Where did it come from? Joseph Amico, the son of Sicilian immigrants, provides the answers to these key questions in this essay on American history and politics. More importantly, he explains why the dream is in jeopardy and how it can be saved. Raised a Catholic, Amico became a skeptic of politics and government after the assassination of President John F. Kennedy. Later, when Martin Luther King Jr. and Robert Kennedy were killed, he knew something was seriously wrong. With the war in Vietnam raging, he joined the antiwar and civil rights movements. Immersed in the politics of the day, he saw only one answer to the nation's problems: social revolution. Now, looking both at the history and present state of the US, Amico explores what is needed for the nation to move forward to find a better way of doing things. Our political forefathers promoted radical principles that helped the United States and its people prosper. While we can still move in that direction, it won't happen by listening to radio and television pundits who distort the views of our forefathers. We must revisit the principles that our country was founded on and let what we know to be the truth become reality. Amico, an ordinary citizen, seeks to shed some light on this complex subject so that we, the people, can claim what's rightfully ours instead of just dreaming.

*Marketing Dictatorship* Anne-Marie Brady, 2009-11-16 Click here to hear Anne Marie Brady's BBC World Service radio documentary titled *The Message from China*. China's government is no longer a Stalinist Maoist dictatorship, yet it does not seem to be moving significantly closer to democracy as it is understood in Western terms. After a period of self-imposed exclusion, Chinese society is in the process of a massive transformation in the name of economic progress and integration into the world economy. The Chinese Communist Party (CCP) is seeking to maintain its rule over China indefinitely, creating yet another new China. Propaganda and thought work play a key role in this strategy. In this important book, noted China scholar Anne Marie

Brady answers some intriguing questions about China's contemporary propaganda system. Why have propaganda and thought work strengthened their hold in China in recent years? How has the CCP government strengthened its power since 1989 when so many analysts predicted otherwise? How does the CCP maintain its monopoly on political power while dismantling the socialist system? How can the government maintain popular support in China when the uniting force of Marxist-Leninist-Maoist ideology is spent and discredited? What has taken the place of communist ideology? Examining propaganda and thought work in the current period offers readers a unique understanding of how the CCP will address real and perceived threats to stability and its continued hold on power. This innovative book is a must-read for everyone interested in China's growing role in the world community. **From Immigrant to Entrepreneur** Pasquale De Marco, 2025-05-09
