

# ELECTION OF 1980

Reagan (Republican)  
489 electoral votes

Carter (Democratic)  
49 electoral votes

# The American Elections Of 1980 Aei Studies

**Mark D. Brewer,L. Sandy Maisel**

## **The American Elections Of 1980 Aei Studies:**

*The Politics of Congressional Elections* Gary C. Jacobson, Jamie L. Carson, 2015-12-16 Gary Jacobson's classic text provides students with a comprehensive introduction to congressional elections and the electoral process. Based on the latest data from the National Election Study, the Cooperative Congressional Elections Study, and the Federal Election Commission, the Ninth Edition has been brought completely up to date, including coverage and analysis of the 2012 and 2014 elections. New coauthor Professor Jamie L. Carson of the University of Georgia brings to bear new insights into the changing roles of voters, Congress, political parties, and the media. Pairing historical data analysis and original research with fundamental concepts of representation and responsibility, *The Politics of Congressional Elections* presents students with the tools to evaluate representative government as well as their own role in the electoral process.

**The Politics of Congressional Elections** Jamie L. Carson, Gary C. Jacobson, 2023-08-21 *The Politics of Congressional Elections* is the most authoritative and accessible introduction available on congressional elections and the electoral process. By pairing historical data analysis and original research with fundamental concepts of representation and responsibility, Carson and Jacobson help students develop the tools to evaluate Congress as well as their own role in the electoral process. The eleventh edition offers an engaging examination of congressional candidates, campaigns, and elections by incorporating coverage of the most recent elections and the changing roles of voters, incumbents, challengers, and campaign contributions. This edition also highlights the impact of the January 6th insurrection, inflation, and the economy, the Russian invasion of Ukraine, infrastructure legislation, and the narrowing majorities in both chambers. Brought completely up to date with the latest data from the American National Election Study, the Cooperative Election Study, and the Federal Election Commission, and including coverage and analysis of the 2020 and 2022 elections, this seminal work continues to offer a systematic account of what goes on in congressional elections. Moreover, the authors' framing demonstrates how electoral politics reflect and shape other components of the American political system with profound consequences for representative government. Key revision highlights include: Updated coverage through the 2022 elections, including congressional primaries; Expanded analysis of campaign finance and voter behavior in recent elections; Updated figures and tables with color versions available in the e-book and PowerPoint slides; Greater emphasis on nationalized politics and a return to more party-centered elections; Enhanced analysis of congressional elections data back to the pre-Civil War era.

**Parties and Elections in America** Mark D. Brewer, L. Sandy Maisel, 2015-10-16 This classic text provides an in-depth examination and history of American political parties and their critical role in representative democracy at the local, state, and national levels. Focused on the continued evolution and significance of parties in the American political system, separate chapters are devoted to key topics such as the impact of social media in the electoral process and recent developments in campaign finance. The seventh edition fully incorporates the results of the 2012 presidential election and the 2014 midterm elections, as well as the impact of the Tea Party within the

Republican party and important demographic shifts in the American electorate      Representation in Congress Kim Quaile Hill, Soren Jordan, Patricia A. Hurley, 2015-07-02 Representation in Congress provides a theory of dyadic policy representation intended to account for when belief sharing delegate responsible party trustee and party elite led models of representational linkage arise on specific policy issues The book also presents empirical tests of most of the fundamental predictions for when such alternative models appear and it presents tests of novel implications of the theory about other aspects of legislative behavior Some of the latter tests resolve contradictory findings in the relevant existing literature such as whether and how electoral marginality affects representation whether roll call vote extremism affects the re election of incumbents and what in fact is the representational behavior of switched seat legislators All of the empirical tests provide evidence for the theory Indeed the full set of empirical tests provides evidence for the causal effects anticipated by the theory and much of the causal process behind those effects      **Party Coalitions in the 1980s** Seymour Lipset, 2017-07-05 The election of 1980 did more than break the Democrats control of the White House and Congress It also shattered some important assumptions about the character of our voting coalitions and the condition of our political parties It opened some possibilities for the remainder of the century that had not been there before These reflections by David S Broder in the introduction to Party Coalitions in the 1980s are echoed in the essays of the twenty one scholars party leaders and candidates in the volume This book presents a detailed and lively discussion of the past history present significance and future implications of coalitions in the American two party political system Patrick H Caddell observed that Reagan has skillfully huddled a variety of conservative program and issue initiatives under the umbrella of economic revitalization In that vein Richard B Wirthlin argued that the 1980 presidential election should be viewed as a major opportunity to redraft the policy agenda of this country Realizing that change is one of the few constants in politics Lipset and his colleagues set forth strategies and guideposts for Republicans and Democrats who sought to build winning coalitions for the elections of the 1980s      **Media, Elections, And Democracy: Royal Commission on Electoral Reform** Frederick J. Fletcher, 1991-01-01 Media Elections and Democracy examines campaign communication in selected industrial democracies Klaus Schoenbach Karen Siune Doris Graber and a host of authors around the world contribute critical overviews of the systems in their countries The studies deal with a wide range of issues in modern communication including the principles and practices of news and public affairs coverage and the impact of new technologies      Party Campaigning in the 1980s Paul S. Herrnson, 1988 Are American political parties on the way out Political action committees PACs currently compete with parties for influence over candidates and voters persuading a more independent and volatile electorate requires new tactics technological innovations afford more sophisticated means to appeal for support Many political observers express doubts about the ability of political parties to adapt to these changes and to survive but Paul Herrnson instead suggests their survival and resurgence in this balanced assessment of party activities in congressional elections Drawing on extensive interviews and survey data collected from nearly five hundred recent House

and Senate candidates campaign advisers party officials PAC executives and journalists Herrnson evaluates the roles of the national parties He finds that from the perspective of party executives they provide important campaign services and function as the key brokers between candidates PACs and other campaigners For PAC officials the national parties serve as important sources of strategic campaign information and cues for decision making For the candidates themselves their parties function as appendages and accessories to their own campaign organizations Herrnson provides rich detail on party development and party campaign activity to predict the future of congressional elections and of the party in government and the party in the electorate Political practitioners as well as scholars will welcome this fresh new contribution to a significant political controversy      **National Union Catalog, 1981** Library of Congress,1982      **Jimmy Carter, American Moralist** Kenneth E. Morris,1997-10-01 In the first full scale biography of America s 39th president since 1980 Kenneth Morris shows readers that any conclusions about Carter s leadership and the adequacy of his challenges as a president cannot ignore the moral quandary that vexed the nation 35 photos      Media And Voters In Canadian Election Campaigns Frederick J. Fletcher,1991-01-01 This volume presents five studies on the relationship between the media and voters Each examines some aspects of the flow of information to voters during election campaigns and all reflect the assumption that the right to vote must include the right of access and sufficient information to make an informed decision In separate studies Jean Cr te and Robert MacDermid examine existing studies and data on the relationship between attention to media and voter information and behaviours Both studies discuss methods for improving voter information Televised leaders debates have become an important feature of democratic elections Cathy Widdis Barr examines the effects of these debates on Canadian voters in 1984 and 1988 concluding that they were an important source of campaign information for less informed voters Robert Bernier and Denis Moni re provide the most comprehensive comparative overview available on the importance of televised leaders debates and the policy issues surrounding them in democratic countries Finally Lyndsay Green examines the potential of new communication technologies for improving the information available to voters during campaigns with particular attention to voters with special information needs Taken together the five studies provide a useful overview of the effectiveness of various forms of campaign communication in informing voters Much of the material presented here is not readily available elsewhere      **A Companion to Ronald Reagan** Andrew L. Johns,2015-04-20 A Companion to Ronald Reagan evaluates in unprecedented detail the events policies politics and people of Reagan s administration It assesses the scope and influence of his various careers within the context of the times providing wide ranging coverage of his administration and his legacy Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan      Parties and Elections in America Louis Sandy Maisel,Mark D.

Brewer,2010 This book covers all elements of parties and the electoral process including local state and national party organizations American party history and party systems state and local nominations state and local elections presidential nominations and presidential elections Separate chapters are devoted to the important subjects of the media in the electoral process and campaign finance The role of political parties in representative democracy\_and their contributions to it\_are examined critically This post election update includes complete data from 2008 and an updated chapter on campaign finance

Horses In Midstream Andrew E. Busch,1999-08-15 Horses in Midstream breaks the mold of midterm election literature by focusing on the consequences of midterm elections rather than on the causes of the anti administration pattern of those elections The book concludes that the midterm pattern has two primary consequences it stymies the President and provides an opportunity for the revitalization of the opposition party and that numerical losses by the President s party is really only a small part of the equation Consequently midterm elections can be considered an additional check in the U S political system acting as a mechanism that helps to assure rough two party balance In examining the historical results from midterm elections dating back to 1894 and extending to the surprising result of 1994 and 1998 Busch has uncovered seven consistent ways in which the president and his party are harmed by midterm elections These elections unfavorably alter the composition of congress both between the parties and within the President s own party they deprive the President of the plebiscitary power derived from his original electoral mandate they give an intangible sense of momentum to the opposition party leading to renewed opportunities for the opposition to put forward new leaders and to develop winning issues they exacerbate splits within the President s own party and they provide the opposition party with expanded party building opportunities at the state level Busch also places the midterm elections into four categories preparatory midterms which contribute to a subsequent change in party control of the Presidency calibrating midterms in which voters slow but do not reverse extraordinary periods of Presidentially driven change normal midterms when midterm elections stymie the President without contributing to a White House takeover and the rare creative exceptions when an administration escapes the midterm curse at the polls and find themselves invigorated rather than weakened Busch s new approach to midterm elections his well supported conclusions and his clear consistent style will certainly be of interest to political scientists and will translate well to the classroom *American Book Publishing Record* ,1984-04 **The American Political Economy** Douglas A.

Hibbs,Douglas A. Hibbs Jr.,1989-03-15 A comprehensive and authoritative work on relationships between the economy and politics in the years from Eisenhower through Reagan Hibbs identifies which groups win and lose from inflations and recessions and shows how voters perceptions and reactions to economic events affect the electoral fortunes of political parties and presidents **Factional Politics** Françoise Boucek,2012-10-29 Drawing on theories of neo institutionalism to show how institutions shape dissident behaviour Boucek develops new ways of measuring factionalism and explains its effects on office tenure In each of the four cases from Britain Canada Italy and Japan intra party dynamics are analyzed

through times series and rational choice tools      **Opinion Polls and the Media** C. Holtz-Bacha, J. Strömbäck, 2012-04-05  
Opinion Polls and the Media provides the most comprehensive analysis to date on the relationship between the media opinion polls and public opinion Looking at the extent to which the media through their use of opinion polls both reflect and shape public opinion it brings together a team of leading scholars and analyzes theoretical and methodological approaches to the media and their use of opinion polls The contributors explore how the media use opinion polls in a range of countries across the world and analyze the effects and uses of opinion polls by the public as well as political actors      Notable Speeches in Contemporary Presidential Campaigns Robert V. Friedenberg, 2002-03-30 Though many studies of contemporary campaigns focus on brief political advertisements and the growing impact of technology on contemporary campaigns the definitive statements of most candidates are still made in public addresses Friedenberg examines the first public address made by an American presidential candidate on his own behalf The circumstances giving rise to William Henry Harrison's 1840 address and the themes that he developed in that address are strikingly contemporary serving as an appropriate prelude to the examinations of contemporary political speaking that follow Those examinations focus on notable campaign speeches by John F Kennedy Barry Goldwater Richard Nixon Ronald Reagan Bill and Hillary Clinton and George W Bush Each study examines a key event that foreshadowed the speech studied Each study presents a rhetorical biography of the speaker including a discussion of the speechwriting team and preparation techniques utilized by the speaker Each study presents a thorough study of the campaign context in which the speeches were presented Each also presents a close reading and rhetorical analysis of the speech itself and observations on the impact of the speech Cumulatively Friedenberg's studies help to illustrate how even in today's high tech political environment of 30 second ads and candidate Web sites public speeches continue to play a crucial role in political campaigning Of particular interest to scholars and students involved with political communication and political American campaigning      **Staff**, 1981      Interpreting Congressional Elections Jeffrey M. Stonecash, 2018-06-12 The increase in the incumbency effect has long dominated as a research focus and as a framework for interpreting congressional elections This important new book challenges the empirical claim that incumbents are doing better and the research paradigm that accompanied the claim It also offers an alternative interpretation of House elections since the 1960s In a style that is provocative yet fair learned and transparent Jeffrey Stonecash makes a two pronged argument frameworks and methodologies suffer when they stop being critically considered and patterns of House elections over the long term actually reflect party change and realignment A must read for scholars and students of congressional elections

This Captivating Realm of Kindle Books: A Thorough Guide Unveiling the Pros of E-book Books: A World of Ease and Flexibility E-book books, with their inherent mobility and simplicity of access, have freed readers from the limitations of hardcopy books.
