From Metaphor to Direct Speech E Susanna Weygandt, 2025 New Drama a collection of actors directors and playwrights in Russia Ukraine and Belarus is one of the most active and vibrant artistic movements in the Russophone world today yet remains understudied in the West E Susanna Weygandt demonstrates that the major innovation of New Drama is a sonic turn an aesthetic development that moves away from traditional Stanislavskian embodied performance to something almost purely aural New Drama which began in the tumult following the collapse of the Soviet Union and continues even in an increasingly censorious Russia today emphasizes contemporary social issues and privileges disadvantaged voices using documentary modes to literally bring the voices of the dispossessed to the ears of the audience members As a result the Russophone New Dramatists speak dissent and dramatize resistance Ultimately they shift theatrical productions from something constrained and limited in both place and time to an ephemeral but unbounded gateway for social activism The sonic stage thus effectively functions as a social forum transposing action from the actors to the audience From Metaphor to Direct Speech therefore contributes to cultural as well as performance studies offering a compelling look not just at developments in theatrical modes but also at dissent and cultural aesthetics in Russia today
