The Adventure Of The Beryl Coronet:

The Adventure of the Beryl Coronet Sir Arthur Conan Doyle, P. James Macaluso, 2016-09-26 Sherlock Holmes the world's only unofficial consulting detective was first introduced to readers in *A Study in Scarlet* published by Sir Arthur Conan Doyle in 1887. It was with the publication of *The Adventures of Sherlock Holmes* however that the master sleuth grew tremendously in popularity later to become one of the most beloved literary characters of all time. In this book series the short stories comprising *The Adventures of Sherlock Holmes* have been amusingly illustrated using only Lego brand minifigures and bricks. The illustrations recreate through custom designed Lego models the composition of the black and white drawings by Sidney Paget that accompanied the original publication of these adventures appearing in *The Strand Magazine* from July 1891 to June 1892. Paget's iconic illustrations are largely responsible for the popular image of Sherlock Holmes including his deerstalker cap and Inverness cape details never mentioned in the writings of Conan Doyle. This uniquely illustrated collection which features some of the most famous and enjoyable cases investigated by Sherlock Holmes and his devoted friend and biographer Dr John H Watson including *A Sandal in Bohemia* and *The Red Headed League* is sure to delight Lego enthusiasts as well as fans of the Great Detective both old and new. LEGO is a trademark of the LEGO Group of Companies. The LEGO Group has not been involved in nor has it in any other way licensed or authorised the publication of this book. **THE ADVENTURE OF THE BERYL CORONET** Banker Alexander Holder has been entrusted with the safekeeping of the precious Beryl Coronet one of the most valuable treasures of the nobility. Afraid to leave the valuable piece of jewellery at the bank he brings it home only to have a piece of the crown broken off and three beryls stolen. Holder appeals to Sherlock Holmes to help recover the precious stones and thus avoid a personal and national scandal. [The Adventure of the Beryl Coronet \(VORZUGSAUSGABE\)](#) Sir Arthur Conan Doyle, 2016 **The Adventure of the Beryl Coronet 1892** Arthur Conan Doyle, 2015-01-22 A banker Mr Alexander Holder of Streatham makes a loan of 50 000 to a socially prominent client who leaves the Beryl Coronet one of the most valuable public possessions in existence as collateral. Holder feels that he must not leave this rare and precious piece of jewellery in his personal safe at the bank and so he takes it home with him to lock it up there. He is awakened in the night by a noise enters his dressing room and is horrified to see his son Arthur with the coronet in his hands apparently trying to bend it. Holder's niece Mary comes at the sound of all the shouting and seeing the damaged coronet faints dead away. Three beryls are missing from it. In a panic Mr Holder travels to see Holmes who agrees to take the case. The case against Arthur seems rather damning yet Holmes is not convinced of his guilt. Why has Arthur clammed up? Why is he refusing to give a statement of any kind? How could Arthur have broken the coronet even Holmes who has exceptionally strong hands can't do it and without making any noise? Could any other people in the household be involved such as the servants or Mary? Could some visitor such as the maid's wooden legged boyfriend or Arthur's rakish friend Sir George Burnwell have something to do with what happened to the coronet? The failure to resolve the case will result in Mr
