Marco Polo's Journey to China. 2nd Edition Diana Childress,2013-01-01 Can one book really change the world A handwritten manuscript by Marco Polo in 1288 did Polo son of a wealthy Italian merchant wrote about his incredible experiences traveling to China with his father and uncle on a trade expedition and also about his adventures as an envoy of Kublai Khan the ruler of most of China Polo s book became a bestseller in Europe in the fourteenth century It was copied over and over by hand translated into fourteen languages and became one of the first books to be printed after the invention of moveable type The tales inspired others including Christopher Columbus in the fifteenth century to seek new sea routes for trade Polo s adventures and manuscript are one of world history s most pivotal moments      Words and visions around/about Chinese transnational mobilities □□ Valentina Pedone,Miriam Castorina,2023 This collection gathers the

contributions of ten scholars on the topic of transnational cultural and physical mobility originating in China. These contributions aim to open conversations among Chinese Studies scholars by applying a Mobility Studies perspective. Exploring diverse narratives and forms of representation from people of Chinese heritage, the book is divided into three parts that each look closely at the relationship between movement and cultural production. The first part is dedicated to four types of mobility of people from China to Italy: namely tourist mobility (Miriam Castorina), labor mobility (Valentina Pedone), student mobility (Xu Hao), and mobility of social elites (Andrea Scibetta). The second part is dedicated to examples of reverse mobility from Italy to China (Gao Changxu, Chiara Lepri, Giuseppe Rizzuto). The third part focuses on case studies based on mobilities from China to territories other than Italy (Rebecca Ehrenwirth, Martina Renata, Prosperi, Giulia Rampolla).

The Animated Movie Guide (Jerry Beck, 2005-10-28). Going beyond the box office hits of Disney and Dreamworks, this guide to every animated movie ever released in the United States covers more than 300 films over the course of nearly 80 years of film history. Well-known films such as *Finding Nemo* and *Shrek* are profiled, and hundreds of other films, many of them rarely discussed, are analyzed, compared, and catalogued. The origin of the genre and what it takes to make a great animated feature are discussed, and the influence of Japanese animation, computer graphics, and stop-motion puppet techniques are brought into perspective. Every film analysis includes reviews, four-star ratings, background information, plot synopses, accurate running times, consumer tips, and MPAA ratings. Brief guides to made-for-TV movies, direct-to-video releases, foreign films that were never theatrically released in the U.S., and live-action films with significant animation round out the volume.

**Richard Halliburton and the Voyage of the Sea Dragon** (Gerald Max, 2023-08-18). Richard Halliburton (1900-1939) considered the world's first celebrity travel writer, swam the length of the Panama Canal, recreated Ulysses' voyages in the Mediterranean, crossed the Alps on an elephant, flew around the world in a biplane, and descended into the Mayan Well of Death, all the while chronicling his own adventures. Several books treat his life and travels, yet no book has addressed in detail Halliburton's most ambitious expedition: an attempt to sail across the Pacific Ocean in a Chinese junk. Set against the backdrop of a China devastated by invading Japanese armies and the storm clouds of World War II gathering in Europe, Halliburton and a crew of fourteen set out to build and sail the *Sea Dragon*, a junk or ancient sailing ship from Hong Kong to San Francisco for the Golden Gate International Exposition. After battling through crew conflicts and frequent delays, the *Sea Dragon* set sail on March 4, 1939. Three weeks after embarking, the ship encountered a typhoon and disappeared without a trace. Richly enhanced with historic photographs, *Richard Halliburton and the Voyage of the Sea Dragon* follows the dramatic arc of this ill-fated expedition in fine detail. Gerry Max artfully unpacks the tensions between Halliburton and his captain, John Wenlock Welch, owing much to Welch's homophobia and Halliburton's unconcealed homosexuality. And while Max naturally explores the trials and tribulations of preparing, constructing, and finally launching the *Sea Dragon*, he also punctuates the story with the invasion of

China by the Japanese as Halliburton and his letters home reveal an excellent wartime reporter Max mines these documents many of which have only recently come to light as well as additional letters from Halliburton and his crew to family and friends photographs films and tape recordings to paint an intricate portrait of Halliburton s final expedition from inception to tragic end     Catalog of Copyright Entries.
