### **Renaissance Responses to Technological Change**

Sheila J. Nayar,2018-10-29 This book foregrounds the pressures that three transformative technologies in the long sixteenth century the printing press gunpowder and the magnetic compass placed on long held literary practices as well as on cultural and social structures Sheila J Nayar disinters the clash between humanist drives and print culture places the rise of gunpowder warfare beside the equivalent rise in chivalric romance and illustrates fraught attempts by humanists to hold on to classicist traditions in the face of seismic changes in navigation Lively and engaging this study illuminates not only how literature responded to radical technological changes but also how literature was sometimes forced through unanticipated destabilizations to reimagine itself By tracing the early modern human s inter animation with print powder and compass Nayar exposes how these technologies assisted in producing new ways of seeing knowing and being in the world

**Collaborative Translation and Multi-Version Texts in Early Modern Europe** Belén Bistué,2016-05-23 Focusing on team translation and the production of multilingual editions and on the difficulties these techniques created for Renaissance translation theory this book offers a study of textual practices that were widespread in medieval and Renaissance Europe but have been excluded from translation and literary history The author shows how collaborative and multilingual translation practices challenge the theoretical reflections of translators who persistently call for a translation text that offers a single univocal version and maintains unity of style In order to explore this tension Bistu discusses multi version texts in both manuscript and print from a diverse variety of genres the Scriptures astrological and astronomical treatises herbals goliardic poems pamphlets the Greek and Roman classics humanist grammars geography treatises pedagogical dialogs proverb collections and romances Her analyses pay careful attention to both European vernaculars and classical languages including Arabic which played a central role in the intense translation activity carried out in medieval Spain Comparing actual translation texts and strategies with the forceful theoretical demands for unity that characterize the reflections of early modern translators the author challenges some of the assumptions frequently made in translation and literary analysis The book contributes to the understanding of early modern discourses and writing practices including the emerging theoretical discourse on translation and the writing of narrative fiction both of which as Bistu shows define themselves against the models of collaborative translation and multi version texts

### **Humanism and the Culture of Renaissance Europe**

Charles G. Nauert, 2006-05-04 In this updated edition of his classic account Charles Nauert charts the rise of humanism as the distinctive culture of the social political and intellectual elites in Renaissance Europe He traces humanism's emergence in the unique social and cultural conditions of fourteenth century Italy and its gradual diffusion throughout the rest of Europe He shows how despite its elitist origins humanism became a major force in the popular culture and fine arts of the fifteenth and sixteenth centuries and the powerful impact it had on both the Protestant and Catholic Reformation He uses art and biographical sketches of key figures to illuminate the narrative and concludes with an account of the limitations of humanism at the end of the Renaissance The revised edition includes a section dealing with the place of women in humanistic culture and an updated bibliography It will be essential reading for all students of Renaissance Europe    The Politics of Skepticism in the Ancients, Montaigne, Hume, and Kant John Christian Laursen, 1992-09-01 This book brings out the profound influence of the tradition of philosophical skepticism on political thought It shows that many of the root ideas of liberalism in early modern thought were a product of engagement with the skeptical tradition The book begins with the first extended discussion in the literature of the political implications of ancient skepticism asking the question Can Skeptics Live a Skeptical Politics The following sections explore the influence of skepticism on the political thought of Montaigne Hume and Kant The case is made that some forms of liberalism derived from these thinkers have been historically closely bound up with skepticism    **Skepticism in Cervantes** Maureen Ihrie, 1982    Dynamics of Detour Richard L. Barnett, 1986

Involuntary Confessions of the Flesh in Early Modern France Nora Martin Peterson, 2016-09-14 Involuntary Confessions of the Flesh in Early Modern France was inspired by the observation that small slips of the flesh involuntary confessions of the flesh are omnipresent in early modern texts of many kinds These slips which bear similarities to what we would today call the Freudian slip disrupt and destabilize readings of body self and text three categories whose mutual boundaries this book seeks to soften but also in their very messiness participate in defining them Involuntary Confessions capitalizes on the uncertainty of such volatile moments arguing that it is instability itself that provides the tools to navigate and understand the complexity of the early modern world Rather than locate the body within any one discourse Foucauldian psychoanalytic this book argues that slips of the flesh create a liminal space not exactly outside of discourse but not necessarily subject to it either Involuntary confessions of the flesh reveal the perpetual and urgent challenge of early modern thinkers to textually confront and define the often tenuous relationship between the body and the self By eluding and frustrating attempts to contain it the early modern body reveals that truth is as much about surfaces as it is about interior depth and that the self is fruitfully perpetuated by the conflict that proceeds from seemingly irreconcilable narratives Interdisciplinary in its scope Involuntary Confessions of the Flesh in Early Modern France pairs major French literary works of the sixteenth and seventeenth centuries by Marguerite de Navarre Montaigne Madame de Lafayette with cultural documents confession manuals legal documents about the application of torture and courtly handbooks It is the first study of its kind to bring these

discourses into thematic rather than linear or chronological dialog In so doing it emphasizes the shared struggle of many different early modern conversations to come to terms with the body s volatility     *The Matter of My Book* Richard L. Regosin,2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977     [Montmartre and the Making of Mass Culture](#) Gabriel P. Weisberg,2001 Located on the fringes of Paris Montmartre attracted artists such as Toulouse Lautrec Picasso Steinlen and Jules Ch ret By the beginning of the twentieth century the artists in the quarter began to create works blurring the boundaries between fine art and popular illustration the artist and the audience as well as class and gender distinctions The creative expression that ensued was an exuberant mix of high and low a breeding ground for what is today termed popular culture The carefully interlocked essays in Montmartre and the Making of Mass Culture demonstrate how and why this quarter was at the forefront of such innovation The contributors bring an unprecedented range of approaches to the topic from political and religious history to art historical investigations and literary analysis of texts This project is the first of its kind to examine fully Montmartre s many contributions to the creation of a mass culture that reigned supreme in the twentieth century     **Print Culture in Early Modern France** Carl Goldstein,2012-02-13 In this book Carl Goldstein examines the print culture of seventeenth century France through a study of the career of Abraham Bosse a well known printmaker book illustrator and author of books and pamphlets on a variety of technical subjects The consummate print professional Bosse persistently explored the endless possibilities of print single sheet prints combining text and image book illustration broadsides placards almanacs theses and pamphlets Bosse had a profound understanding of print technology as a fundamental agent of change Unlike previous studies which have largely focused on the printed word this book demonstrates the extent to which the contributions of an individual printmaker and the visual image are fundamental to understanding the nature and development of early modern print culture     **Symptoms of an Unruly Age** Rivi Handler-Spitz,2017-04-04 Symptoms of an Unruly Age compares the writings of Li Zhi 1527 1602 and his late Ming compatriots to texts composed by their European contemporaries including Montaigne Shakespeare and Cervantes Emphasizing aesthetic patterns that transcend national boundaries Rivi Handler Spitz explores these works as culturally distinct responses to similar social and economic tensions affecting early modern cultures on both ends of Eurasia The paradoxes ironies and self contradictions that pervade these works are symptomatic of the hypocrisy social posturing and counterfeiting that afflicted both Chinese and European societies at the turn of the seventeenth century Symptoms of an Unruly Age shows us that these texts produced thousands of miles away from one another each constitute cultural manifestations of early modernity
