Degrees of Inequality Suzanne Mettler, 2014-03-11 America s higher education system is failing its students In the space of a generation we have gone from being the best educated society in the world to one surpassed by eleven other nations in college graduation rates Higher education is evolving into a caste system with separate and unequal tiers that take in students from different socio economic backgrounds and leave them more unequal than when they first enrolled Until the 1970s the United States had a proud history of promoting higher education for its citizens The Morrill Act the G I Bill and Pell Grants enabled Americans from across the income spectrum to attend college and the nation led the world in the percentage of young adults with baccalaureate degrees Yet since 1980 progress has stalled Young adults from low to middle income families are not much more likely to graduate from college than four decades ago When less advantaged students do attend they are largely sequestered into inferior and often profit driven institutions from which many emerge without degrees and shouldering crushing levels of debt In *Degrees of Inequality* acclaimed political scientist Suzanne Mettler explains why the system has gone so horribly wrong and why the American Dream is increasingly out of reach for so many In her eye opening account she illuminates how political partisanship has overshadowed America s commitment to equal access to higher education As politicians capitulate to corporate interests owners of for profit colleges benefit but for far too many students higher education leaves them with little besides crippling student loan debt Meanwhile the nation s public universities have shifted the burden of rising costs onto students In an era when a college degree is more linked than ever before to individual and societal well being these pressures conspire to make it increasingly difficult for students to stay in school long enough to graduate By abandoning their commitment to students politicians are imperiling our highest ideals as a nation *Degrees of Inequality* offers an impassioned call to reform a higher education system that has come to exacerbate rather than mitigate socioeconomic inequality in America

The National Electronic Library Gary Pitkin, 1996-06-30 The National Information

Infrastructure will bring information to the doorstep of every household Librarianship must respond to this development through the National Electronic Library Librarianship as a profession must set the information agenda if it is to be a viable and influential entity in the electronic environment Traditional library services are being redefined by technology and the concept of the National Electronic Library must combine the roles of the academic institution public enterprise and library education This professional reference is a guide to assist librarians in planning for the future The volume maintains that the growing electronic environment is driving a cultural transformation in which libraries must examine and understand what libraries have been what they are and what they need to be Libraries need to participate actively in this transformation in order to remain the central providers of information and related services The book explores the National Electronic Library as a concept and formal organization Library services collections and the physical facility are examined in terms of present and future needs based on the rapidly changing electronic environment and the volume relates the future management of information to administrative structures constituencies public and technical services collection development education and strategic planning Ethnic Forum ,1992 **Statistical Reference Index** ,1994 *Higher Education in Liquid Modernity* Marvin Oxenham,2013-10-28 Based in sociologist Zygmunt Bauman s theory of liquid modernity this volume describes and critiques key aspects and practices of liquid education education as market driven consumption short life span of useful knowledge overabundance of information through a systematic comparison with ancient Greek paideia and medieval university education producing a sweeping analysis of the history and philosophy of education for the purpose of understanding current higher education positing a more holistic alternative model in which students are embedded in a learning community that is itself embedded in a larger society If liquid modernity has left a vacuum where according to Bauman the pilot s cabin is empty this volume argues that no structure is better positioned to fill this vacuum than the university and outlines a renewed vision of social transformation through higher education The Transfer Experience John N. Gardner,Michael J. Rosenberg,Andrew K. Koch,2023-07-03 Co published with At last there is a handbook that everyone in higher education can use to help increase transfer student success This comprehensive resource has been brought together to meet the need for a truly holistic approach to the transfer experience The book brings together research theory practical applications programmatic illustrations case studies encouragement and inspiration and is supplemented by an online compendium for continual updates of resources case studies and new developments in the world of transfer Based on a totally different way of thinking about understanding and acting to increase transfer student success The Transfer Experience goes far beyond the traditional limited view of transfer as a technical process simply about articulating credits a stage of student development or a novel enrollment management strategy Rather the book introduces a stimulating array of new perspectives resources options models and recommendations for addressing the many needs of this huge cohort making the academic civic and social justice cases for improving transfer at both transfer sending and transfer receiving institutions

The Majority in the Minority Lee Jones, Jeanett Castellanos, 2023-07-03 As a volume destined to be employed by researchers practitioners and policy makers *The Majority in the Minority* appears at the right time in our nation's demographic history It connects us to the triumphs and tragedies of our Latino collective pasts and leads us to a more hopeful scenario for the future from the Foreword by Laura Rendón Latinas/os are the largest ethnic minority group in the U S They are propelling minority communities to majority status in states as disparate as California Florida New Jersey New York and Texas Their growth in the population at large is not reflected in higher education In fact Latinos are the least represented population in our colleges and universities whether as administrators faculty or students and as students have one of the highest levels of attrition Opening access to Latinas/os assuring their persistence as students in higher education and their increased presence in college faculty and governance is of paramount importance if they are to make essential economic gains and fully to participate in and contribute to American society In this ground breaking book twenty four Latina/o scholars provide an historical background review issues of student access and achievement and lessons learned and present the problems of status and barriers faced by administrators and faculty The book also includes narratives by graduate students administrators and faculty that complement the essays and vividly bring these issues to life This is a book that should be read by policy makers college administrators student affairs personnel and faculty concerned about shaping the future of higher education and constitutes an invaluable resource for all leaders of the Latino community *The Social Worlds of Higher Education* Bernice Pescosolido, Ronald Aminzade, 1999-03-22 This is the first comprehensive guide to teaching in the social sciences ever published Two complete works in one provides a survey of the larger institutional context and alternative perspectives on current debates in higher education as well as a comprehensive and practical guide to teaching Contains original essays by leading teachers and scholars including Craig Calhoun Teresa Sullivan Dean Dorn Paul Baker Charles Tilly Howard Aldrich Daniel Chambliss and Mary Romero The accompanying Fieldguide for Teaching includes an additional 80 articles excerpts teaching tips exercises checklists and overheads covering a complete spectrum of teaching concerns *Multicultural Course Transformation in Higher Education* Ann I. Morey, Margie Kitano, 1997 Responding to increasing enrollments of students of color students with disabilities students whose first language is not English and students entering college in their mid twenties or later many colleges and universities are including multicultural issues in their course and curriculum preparation Faculty members and administrators involved in multicultural initiatives will find here a suggested framework for making course and curriculum changes along with specific examples and scenarios from a variety of disciplines At the heart of the book is a two dimensional model for infusing multicultural elements into a course or curriculum The model identifies three levels of change exclusive inclusive transformed and four course components in which change can be applied content instructional strategies assessment of student knowledge and classroom dynamics The authors suggest that instructors approach course change by focusing on one or more of these components and identifying a

target level depending on the instructor's multicultural goals and the nature of the discipline. The book draws upon the skills of experienced college and university educators to show how the model may be applied in specific disciplines and courses. This book is an indispensable thoroughly documented resource. It will appeal to all post secondary educators and administrators interested in creating an academic environment that reflects the needs of today's students and the reality of today's diverse society.

The Rise and Decline of Faculty Governance Larry G. Gerber, 2014-09-15. There was a time when the faculty governed universities. Not anymore. *The Rise and Decline of Faculty Governance* is the first history of shared governance in American higher education. Drawing on archival materials and extensive published sources, Larry G. Gerber shows how the professionalization of college teachers coincided with the rise of the modern university in the late nineteenth century and was the principal justification for granting teachers power in making educational decisions. In the twentieth century, the efforts of these governing faculties were directly responsible for molding American higher education into the finest academic system in the world. In recent decades, however, the growing complexity of multiversities and the application of business strategies to manage these institutions threatened the concept of faculty governance. Faculty shifted from being autonomous professionals to being employees. The casualization of the academic labor market, Gerber argues, threatens to erode the quality of universities. As more faculty become contingent employees rather than tenured career professionals enjoying both job security and intellectual autonomy, universities become factories in the knowledge economy. In addition to tracing the evolution of faculty decision making, this historical narrative provides readers with an important perspective on contemporary debates about the best way to manage America's colleges and universities. Gerber also reflects on whether American colleges and universities will be able to retain their position of global preeminence in an increasingly market-driven environment, given that the system of governance that helped make their success possible has been fundamentally altered.

Assessment Methods for Student Affairs John H. Schuh and Associates, 2011-01-06. Editor John Schuh and his fellow contributors, all experts in the field, detail the methodological aspects of conducting assessment projects specifically for the student affairs practitioner who is ready to conduct assessment projects but is not quite sure how to manage their technical aspects. Using a variety of case studies and concrete examples to illustrate various assessment approaches, the authors lead the reader step by step through each phase of the assessment process with jargon-free hands-on guidance.
