through three case studies of the administration's badgering the French and their allies to ratify the European Defense Community of its threat to liberate Eastern Europe from Moscow's rule and of its forcing the issue of German reunification. By emphasizing the threat from the Soviet Union, Eisenhower and Dulles were trying to promote an activist rather than an isolationist foreign policy. But their rhetorical diplomacy intensified Cold War tensions with European allies as well as with Moscow and effectively overwhelmed the administration's true diplomatic aims. Based on American, British, Eastern European, and Soviet primary sources, many only recently unearthed, *The Truth Is Our Weapon* is a major contribution to the historiography of Eisenhower's diplomacy and an important statement about the implications of public and private policy making.
