

TRAFFIC IMPACT ASSESSMENT FOR TECHNICAL EVALUATORS WITH LOCALSIM

Urban and regional development projects, such as housing and commercial establishments, can have significant impacts on the transportation system. It is crucial therefore to evaluate the potential traffic-related impacts before implementing any proposed development. Traffic Impact Assessment (TIA) allows for the identification and mitigation of future traffic impacts. Presently, some local governments require a TIA before issuing the necessary development permits. This training details the TIA process and the contents of a TIA report.
