Transformational festivals from Burning Man to Lightning in a Bottle Bhakti Fest and Wanderlust are massive events that attract thousands of participants to sites around the world In this groundbreaking book Amanda J Lucia shows how these festivals operate as religious institutions for spiritual but not religious SBNR communities Whereas previous research into SBNR practices and New Age religion has not addressed the predominantly white makeup of these communities *White Utopias* examines the complicated often contradictory relationships with race at these events presenting an engrossing ethnography of SBNR practices Lucia contends that participants create temporary utopias through their shared commitments to spiritual growth and human connection But they also participate in religious exoticism by adopting Indigenous and Indic spiritualities a practice that ultimately renders them exclusive white utopias Focusing on yoga s role in disseminating SBNR values Lucia offers new ways of comprehending transformational festivals as significant cultural phenomena

**Projecting Citizenship** Gabrielle Moser,2019-01-11 In *Projecting Citizenship* Gabrielle Moser gives a comprehensive account of an unusual project produced by the British government s Colonial Office Visual Instruction Committee at the beginning of the twentieth century a series of lantern slide lectures that combined geography education and photography to teach schoolchildren around the world what it meant to look and to feel like an imperial citizen Through detailed archival research and close readings Moser elucidates the impact of this vast collection of photographs documenting the land and peoples of the British Empire circulated between 1902 and 1945 in classrooms from Canada to Hong Kong from the West Indies to Australia Moser argues that these photographs played a central role in the invention and representation of imperial citizenship She shows how citizenship became a photographable and teachable subject by tracing the intended readings of the images that the committee hoped to impart to viewers and analyzing how spectators may have used their encounters with these photographs for protest and resistance Interweaving political and economic history history of pedagogy and theories of citizenship with a consideration of the aesthetic and affective dimensions of viewing the lectures *Projecting Citizenship* offers important insights into the social inequalities and visual language of colonial rule
