That's how Riach, the most powerful political figure on the freedom loving planet of Alundis, intends to keep his power. Yod, his assistant, and the person behind Riach's rise to power, has come to learn how precarious his position is. Under Riach's orders to bring in money for a spy network, Yod has learned of a secret planet that uses slave labor to produce cut rate resources. Meanwhile, Tomal, an astrophysicist who is part of a secret organization dedicated to bringing down Riach, has discovered too much about the illicit financing and is kidnapped and spirited away to the slave planet. There, he learns from slave-born Xenon that there is little chance to escape such oppression. When Tomal, who yearns for home, makes a desperate break for freedom, he is joined on the run by Xenon. The pair soon discover that a jackal-like search party is on their trail. Can the ill-equipped escapees elude capture? Is there hope of a rescue, or will they die as slaves?
