*St James's Square* Denys Forrest, 2001-09      **Historic Streets and Squares** Melanie Backe-Hansen, 2013-11-01 In this picturesque exploration of Britain's constructed landscape an array of medieval lanes Georgian crescents and Victorian squares make an appearance together with the people famous infamous and unfamiliar who designed built and lived in them From Bedford Square and Portobello Road in London through to Grey Street in Newcastle and Charlotte Square in Edinburgh *Historic Streets and Squares* takes you over the doorstep of some of the country's most familiar addresses Melanie Backe Hansen takes us beyond the facades delving into the evolution of ancient streets the aspirations of builders and architects and the extraordinary lives of past residents She also reveals the fascinating stories of how some of our oldest and most valued crescents lanes and avenues have survived into the twenty first century and the twists and turns of their journey along the way Taken together these fifty examples tell us much about Britain's urban development over the centuries while also highlighting more recent attempts to preserve our architectural heritage The history of our streets avenues lanes and squares reveals more than just changes to architectural style but offers a doorway into the heritage of our nation      **St. James's Square** Denys Mostyn Forrest, 1986      *Palaces of Power* Stephen Hoare, 2019-08-05 The core of what we call St James's dates from the late seventeenth century when large estates were leased by the Crown to the landed gentry after the Restoration in 1660 St James's clubs coffee houses and institutions have been shaped by enterprise political conflict and Britain's emerging role as an Imperial power This is the historic heart of London's Clubland Over 300 years Clubland has extended its reach to encompass Piccadilly Mayfair Bond Street Covent Garden and Westminster Ever discreet the clubs do not draw attention to themselves though their members are often highly influential individuals who are leaders in politics the law the media and much more *Palaces of Power* charts the evolution of London's Clubland St James's exploring the social and cultural history of the city's most prestigious district and studying the tensions between the world of privilege and an emerging public realm over the last three centuries      *St. James's Square* Denys Mostyn Forrest, 1986      *The Garden Squares of Boston* Phebe S. Goodman, 2003 Of the many types of historic landscapes that have become treasured open spaces in North America's dense urban fabric the garden or residential square largely has been overlooked Yet the garden square played an important role in the planning of Philadelphia Savannah Boston and New York several of America's major early cities Boston's garden squares most closely resemble the squares of London in purpose and appearance Intended as speculative real estate ventures the London garden squares were distinguished by row houses and ornamental iron fences enclosing gardens planted with trees and grass The gardens served as welcome patches of greenery for affluent residents who chose to live in relatively cramped quarters within the city As such gardens were the *raison d'être* for this early form of urban design Although garden squares pre-date well documented municipal parks the historical significance of these squares is not fully understood In this remarkable book Goodman tells the story of Boston's garden squares and offers her readers a

fascinating glimpse of early urban planning Goodman traces Charles Bulfinch's connection with these historic landscapes and compares them to their London prototypes While Bostonians and others are familiar with Boston's iconic Louisburg Square on Beacon Hill few people know that Boston's South End neighborhood boasts a group of eight garden squares After discussing London squares and their effect on urban planning in several eastern seaboard cities Goodman turns to Boston's three privately developed garden squares all of which were located close to the original center of the city She pays special attention to Louisburg Square the only one that has survived Focusing on the characteristic landscape features that define the gardens Goodman also showcases the five of the eight publicly developed garden squares of the South End Blackstone Square Franklin Square Chester Square Union Park and Worcester Square Concluding with a chapter on the evolution and preservation of the garden squares of the South End Goodman discusses private versus public ownership and access maintenance and preservation treatments issues that provide practical information helpful in the management of historical as well as contemporary landscapes She urges a combined effort of neighborhood groups and the public sector to maintain these squares Otherwise she warns the future of these historic garden squares will be in jeopardy **Chopin in Britain**

Peter Willis, 2017-12-14 In 1848 the penultimate year of his life Chopin visited England and Scotland at the instigation of his aristocratic Scots pupil Jane Stirling In the autumn of that year he returned to Paris The following autumn he was dead Despite the fascination the composer continues to hold for scholars this brief but important period and his previous visit to London in 1837 remain little known In this richly illustrated study Peter Willis draws on extensive original documentary evidence as well as cultural artefacts to tell the story of these two visits and to place them into aristocratic and artistic life in mid nineteenth century England and Scotland In addition to filling a significant hole in our knowledge of the composer's life the book adds to our understanding of a number of important figures including Jane Stirling and the painter Ary Scheffer The social and artistic milieux of London Manchester Glasgow and Edinburgh are brought to vivid life The Building news and engineering journal, 1882
