Porter,Anthony R. Cross,2002-12-01 This book brings together work by J Ramsey Michaels Joel Green Howard Marshall Bruce Chilton Craig Evans and the editors as well as several others The first section covers baptism in the New Testament including the meaning of the word baptize the baptism of John Paul s own baptism and his theology of it and baptisms in John 13 Acts and Hebrews The second section deals with baptism in the Early Church including essays on Jesus blessing of the children and baptism in the Epistle of Barnabas and in Gregory of Nyssa The third section addresses baptism in contemporary theology embracing ecumenical perspectives baptism as a trinitarian event and baptism as memorial as miracle and as falling into and out of power This wide ranging volume forms a sequel to Baptism the New Testament and the Church JSNT Supplements 171 and makes indispensable reading for all concerned with this topic      **Controlling Contested Places** Christine Shepardson,2019-05-14 From constructing new buildings to describing rival controlled areas as morally and physically dangerous leaders in late antiquity fundamentally

shaped their physical environment and thus the events that unfolded within it Controlling Contested Places maps the city of Antioch Antakya Turkey through the topographically sensitive vocabulary of cultural geography demonstrating the critical role played by physical and rhetorical spatial contests during the tumultuous fourth century Paying close attention to the manipulation of physical places Christine Shepardson exposes some of the powerful forces that structured the development of religious orthodoxy and orthopraxy in the late Roman Empire Theological claims and political support were not the only significant factors in determining which Christian communities gained authority around the Empire Rather Antioch s urban and rural places far from being an inert backdrop against which events transpired were ever shifting sites of and tools for the negotiation of power authority and religious identity This book traces the ways in which leaders like John Chrysostom Theodoret and Libanius encouraged their audiences to modify their daily behaviors and transform their interpretation of the world and landscape around them Shepardson argues that examples from Antioch were echoed around the Mediterranean world and similar types of physical and rhetorical manipulations continue to shape the politics of identity and perceptions of religious orthodoxy to this day

**Almsgiving in the Later Roman Empire** Richard Finn OP, 2006-02-23 Richard Finn OP examines the significance of almsgiving in Churches of the later empire for the identity and status of the bishops ascetics and lay people who undertook practices which differed in kind and context from the almsgiving practised by pagans It reveals how the almsgiving crucial in constructing the bishop s standing was a co operative task where honour was shared but which exposed the bishop to criticism and rivalry Finn details how practices gained meaning from a discourse which recast traditional virtues of generosity and justice to render almsgiving a benefaction and source of honour and how this pattern of thought and conduct interacted with classical patterns to generate controversy He argues that co operation and competition in Christian almsgiving together with the continued existence of traditional euergetism meant that contrary to the views of recent scholars Christian alms did not turn bishops into the supreme patrons of their cities
