vandalism deliberately because of the decreasing demand for use or lack of their communities and many of them have been insufficiently interpreted for their visitors This research aims to develop an interpretive plan for the churches in the Walled City of Famagusta to overcome their current problems I would like to acknowledge that this book is the result of several pieces of research such as the published papers presented at international conferences from September 2014 until September 2024 and especially derived from my Ph D dissertation entitled Interpretation Problems and Proposals for the Churches in the Walled City of Famagusta under the supervision of Associate Professor Dr Ege Uluca T mer at the Architecture Department Architecture Faculty of Eastern Mediterranean University Famagusta Northern Cyprus defended in July 2023
