Technical Design Solutions for Theatre Volume 3 Ben Sammler, Don Harvey, 2013-01-17 *Technical Design Solutions for Theatre* is a collection of single focus articles detailing technical production solutions that have appeared in *The Technical Brief Collection* a publication of the Yale School of Drama's Technical Design and Production Department. The primary objective of the publication was to share creative solutions to technical problems so that fellow theatre technicians can avoid having to reinvent the wheel with each new challenge. The range of topics includes scenery, props, painting, projections, sound, and costumes. Each article describes an approach, device, or technique that has been tested onstage or in a shop. Great reference of tips and solutions to persistent technical challenges in theatre production. Solutions provided by contributors from over twenty different producing organizations. Ten years of *The Technical Brief Collection* articles bound in each of three volumes. A comprehensive index to all three volumes included in Volume III.

Concert Lighting James Moody, Paul Dexter, 2016-10-04 *Concert Lighting Tools, Techniques, Art and Business* Fourth Edition provides readers with an updated look at how to succeed in the complex world of concert lighting design and technology. The authors have reorganized the book into three comprehensive and thoroughly revised sections covering history, equipment and technology, and design, and containing new information on LED technology, pixel mapping, projection options, media servers, automated lighting solutions for moving lights, DMX and Ethernet problems, and designer communication and collaboration. This book also explores the cross-media use of concert lighting techniques in film, video, theatre, and the corporate world, highlighted with advice from master designers such as Bruce Rodgers, Cosmo Wilson, and Sarah Landau. From securing precious contracts to knowing the best equipment to use to design a show, *Concert Lighting* covers everything a designer needs to know about working in the touring industry.

Special Event Production Doug Matthews, 2008 Provides a grounding on the specifications and performance of lighting and audio systems, visual presentation technology, special effects, and temporary outdoor venues. This book offers an overview of the decorative audio, visual, and special events options available to producers.

Automated Performer Flying Jim Shumway, 2019-10-31 *Automated Performer Flying: The State of the Art* shares the secrets of performer flying in entertainment history and provides step-by-step instructions on how to create a performer flying effect from scratch. This book sheds light on all aspects of performer flying, covering its history, explaining concepts like mechanical compensation versus electrical compensation, providing guidance on how to calculate stopping distances and forces, and sharing tips on how to build successful relationships with performers. Case studies of prominent productions featuring performer flying, including *Cirque du Soleil* and *Beyoncé*, are included throughout. Written for technical directors, theatrical riggers, and students of rigging, technical direction, and stagecraft courses, *Automated Performer Flying* takes readers through the process of creating a performer flying effect from the first spark of the idea to opening night.
