also painting upon glass As a matter of fact glass staining and glass painting are two quite different things To build up a  
mosaic with pieces of coloured glass each separate tint cut out of a separate sheet of potmetal is one thing to paint upon a  
sheet of white or coloured glass is another thing altogether in fact they are not merely two different ways but two opposite  
ways of arriving at a result But there is this excuse for grouping them as it is the custom to do under one title that from very  
early days the two processes of work were used together About the Publisher Forgotten Books publishes hundreds of
